Ideology Superstructure:

A Marxist Theory of Ideology Andrea Sau, 2020-06-10 This work explores the question of defining ideology from a Marxist perspective Advancing beyond the schemas of discussion presented in current Marxist literature the author offers an account of how the concept of ideology should be defined and what role it plays within historical materialism Through a close reading of Karl Marx's relevant writings this volume demonstrates that while there is no coherent single account of ideology in Marx's work his materialist framework can be reconstructed in a defensible and non deterministic way The definition of ideology presented is then articulated through a close reading of Antonio Gramsci's Prison Notebooks Efforts are also made to demonstrate that Gramsci's interpretation of historical materialism is indeed consistent and compatible with Marx's A systematic articulation of a theory of ideology that combines the works of Marx and Gramsci as well as adding elements of Pierre Bourdieu's social theory and William James's psychology this volume will appeal to scholars of social and political theory with interests in political economy and Marxist thought

Ideology James Decker, 2017-03-14 This concise introduction to the concept of ideology provides an overview of the term and considers its impact on literary theory James M Decker analyzes the history of Western ideology from its pre Enlightenment roots to its current incarnations providing readers with both an essential overview of key terms and issues and a thoughtful assessment of some of the important critical thinkers associated with the notion including Marx Gramsci and Althusser Ideological theories are introduced within three broad categories the subjective the institutional and the political which helps students to synthesize a concept that sprawls across the traditional disciplinary lines of philosophy politics economics history and cultural and literary studies Close readings of key texts demonstrate the impact of ideology on critical practice and literary reputation Texts include Toni Morrison's Sula William Faulkner's Barn Burning George Orwell's 1984 Compact and easy to follow Decker's study finally asks are we now in a post ideological era

The Practice of Theory Keith Moxey, 2018-07-05 Many art historians regard poststructuralist theory with suspicion some even see its focus on the political dimension of language as hostile to an authentic study of the past Keith Moxey bridges the gap between historical and theoretical approaches with the provocative argument that we cannot have one without the other If art history is to take part in the processes of cultural transformation that characterize our society he writes then its historical narratives must come to terms with the most powerful and influential theories that currently determine the way in which we conceive of ourselves After exploring how the insights offered by deconstruction and semiotics change our understanding of representation ideology and authorship Moxey himself puts theory into practice In a series of engaging essays accompanied by twenty eight illustrations he first examines the impact of cultural values on Erwin Panofsky's writings Taking a fresh look at work by artists from Albrecht Dürer and Erhard Schön to Barbara Kruger and Julian Schnabel he then examines the process by which the generic boundaries between high and low art have helped to sustain class and gender differences Making particular reference to the literature on Martin

Schongauer Moxey also considers the value of art history when it is reduced to artist s biography Moxey s interpretation of the work of Hieronymus Bosch not only reassesses its intelligence and imagination but also brings to light its pragmatic conformity to elite definitions of artistic genius With his compelling analysis of the politics of interpretation Moxey draws attention to a vital aspect of the cultural importance of history

Ideology Terry Eagleton,2024-05-14 Witty lucid and powered by that stinging militant ironising intelligence which distinguishes Eagleton s work Guardian A brilliant and lucid guide to this most elusive of concepts Ideology has never before been so much in evidence as a fact and so little understood as a concept as it is today In this now classic work originally written for both newcomers to the topic and for those already familiar with the debate Terry Eagleton unravels the many different definitions of ideology and explores the concept s torturous history from the Enlightenment to postmodernism The book provides lucid accounts of the thought of key Marxist thinkers as well as of Schopenhauer Nietzsche Freud and the various post structuralists Now updated in the light of current theoretical debates this essential text by one of our most important contemporary critics clarifies a notoriously confused subject Ideology is core reading for students and teachers of literature and politics

On Ideology CCCS,2013-12-16 First published in 2006 as WPCS 10 On Ideology is a product of discussions which were common to a number of working groups in the Centre It confronts the recurring problem of the articulation of cultural studies with some Marxist theories of ideology The first part is explicitly theoretical comprising expositions and critical readings of important theorists of ideology from Lukacs and Gramsci to Althusser and Poulantzas and an overview of sociological approaches Part II considers the theme in relation to two significant contributions to social democratic theories and policies education and community studies Part III discusses the problems raised by the notions of subjectivity and individuality From a series of theoretical engagements the book aims to provide perspectives from which to develop concrete and politically relevant studies of a key aspect of contemporary social formations The Centre for Contemporary Cultural Studies CCCS was a research centre at the University of Birmingham It is notable for producing many key studies and researchers in the field of Cultural Studies It was founded in 1964 by Richard Hoggart who became the first centre director The Cultural Studies department at the University of Birmingham was closed in 2002

Philosophy and Ideology Z.A. Jordan,2012-12-06 The purpose of this study is to describe the development of philosophy in Poland since the end of the Second World War and the development of Marxist Leninist philosophy which owing to international political events has assumed an impor tant role in the intellectual life of contemporary Poland This task could not have been accomplished without relating post war developments to those of the inter war period Consequently the period studied covers the years 1918 1958 Yet another extension was necessary Marxism Leninism regards sociology as a part of philosophy Moreover Marxism Leninism often resorts to sociology to support or justify some of its philosophical views Finally its criticism of bourgeois philosophy is often concerned with social philosophy and socio logical theories which supposedly are implicit or explicit in bourgeois philoso phy For this reason it was desirable

to consider in this study some theoretical and methodological problems of the social sciences They are taken into account when they illuminate philosophical controversies or the evolution of Marxist Leninist philosophy Marxism Leninism is not only a new line of development but also a new point of departure in Polish philosophy It provides a striking contrast with the established philosophical tradition which originated roughly at the time when G E Moore and Bertrand Russell initiated the analytical trend in English philosophy The contrast can be epitomised by the contradistinction of philosophy and ideology chosen as the title of this study

Karl Marx's Theory of Ideas John Torrance, 1995-05-04 Marx's undeveloped ideas about how society presents a misleading appearance which distorts its members' understanding of it have been the subject of many conflicting interpretations In this book John Torrance takes a fresh un-Marxist approach to Marx's texts and shows that a more precise coherent and cogent sociology of ideas can be extracted from them than is generally allowed The implications of this for twentieth century capitalism and for recent debates about Marx's conceptions of justice morality and the history of social science are explored The author argues that Marx's theory of ideas is sufficiently independent of other parts of his thought to provide a critique and explanation of those defects in his own understanding of capitalism which allowed Marxism itself to become by his own definition an ideology

Knowledge and Politics (RLE Social Theory) Volker Meja, Nico Stehr, 2014-08-13 Karl Mannheim's *Ideology and Utopia* has been a profoundly provocative book The debate about politics and social knowledge that was spawned by its original publication in 1929 attracted the most promising younger scholars some of whom shaped the thought of several generations The book became a focus for a debate on the methodological and epistemological problems confronting German social science More than thirty major papers were published in response to Mannheim's text Writers such as Hannah Arendt Ernst Robert Curtius Max Horkheimer Herbert Marcuse Helmuth Plessner Hans Speier and Paul Tillich were among the contributors Their positions varied from seeing in the sociology of knowledge a sophisticated reformulation of the materialist conception of history to linking its popularity to a betrayal of Marxism The English publication in 1936 defined formative issues for two generations of sociological self-reflection *Knowledge and Politics* provides an introduction to the dispute and reproduces the leading contributions It sheds new light on one of the greatest controversies that have marked German social science in the past hundred years

Gender Ideologies and Military Labor Markets in the U.S. Saskia Stachowitsch, 2013-03-01 *Gender Ideologies and Military Labor Markets in the U S* offers a comprehensive analysis of the relationship between changes in military gender ideologies and structural changes in U S military and society By investigating how social and military change have influenced gender ideologies the author develops an approach that re-connects military gender ideologies to the social conditions of their production and distribution and explains their transformation as effects of changing social and political relations and conflicts Examining the role of different groups of social actors media debates on women's military participation and gender

ideologies inherent in depictions of military women the author seeks to contextualise these ideologies are within structural change in the U S military and society relating them to the gender specific division of labour on civilian and military labor markets This work provides a deeper understanding of the nexus between military re structuring processes women s military integration and changes of gender ideologies in regard to war and the military and will be of great interest to students and scholars of gender security studies and American politics Marxist Ideology and Soviet Criminal Law R.W.

Makepeace,2024-11-26 Marxist Ideology and Soviet Criminal Law 1980 is about differences between theory and practice in the Soviet Union It looks at the ways in which the theory of Marx has changed and been changed through the lens of criminal law the major way in which social controls are exercised by the State **Materiality and Subject in Marxism,**

(Post-)Structuralism, and Material Semiotics Johannes Beetz,2016-08-20 In recent decades what is known as the subject has been problematized by various old and new materialisms and today appears as decentered in and by language split by the unconscious deformed by social forces governed by ideology and is either seen to have succumbed to the postmodern condition or to never have existed in the first place Every materialist theory of the subject depends on a conception of materiality which can delineate the character of what the material reality which de centers or constitutes the subject consists of Materiality and Subject in Marxism Post Structuralism and Material Semiotics investigates the relation between materiality and the subject in the materialist approaches of Marxism post structuralism and material semiotics None of these approaches subscribes to a reductionist materialism rather they conceive of materiality as multiple complex and not reducible to tangible matter For each approach the modalities of materiality of the respective materialism are defined The relationship between the multiple materialities and the subject constituted and decentered in this relationship are presented as specific to the theoretical approaches discussed Li Da And Marxist Philosophy In China Nick Knight,2018-02-23

Scholars of Marxism will be in Nick Knight s debt for this pioneering study of one of the most important figures in the development of Marxism in China Knight makes an important case about the relationship of Chinese Marxist thought to Marxist thought in general with particular attention to Soviet Marxism The book makes available to readers not just important texts of Chinese Marxism but a whole series of texts of Marxism that were crucial to the political discourse of the thirties Knight displays impressive erudition and command of these texts In spite of the strong case he makes for his thesis he retains throughout an admirable critical self awareness that enhances the plausibility of his argument Arif DirlikDuke University **Karl Marx's Social and Political Thought** Bob Jessop,Russell Wheatley,1999 **International**
