Political Communication Robert Mann, David D. Perlmutter, 2011-05-09 A new era of political power has arrived one in which the social media forces of Facebook YouTube and Twitter indisputably play a larger role in the political process In this revised and expanded edition of *Political Communication* The Manship School Guide edited by Robert Mann and David D Perlmutter contributors discuss technological changes in the context of studies

and techniques that remain unchallenged resulting in a truly comprehensive manual of the world of political communication. This shift in communication began with Howard Dean's social media interaction between voters and candidates. Later Barack Obama redefined these techniques during his march to the White House. This intriguing development in political campaigns focuses the impact of social media on political consultation and communication and this volume provides an up to date and peerless guide to the events, methods, technologies, venues, theories and applications of political dialogues. More than just a how to primer, this new edition also expertly explains the process behind the political engine. *Political Communication: The Manship School Guide* includes individual essays that tackle the growing myths revolving around politics such as the political money monster and the Mr Smith Goes to Washington candidate fantasy. Twenty seven chapters from a variety of contributors including academics, journalists and political professionals provide insightful, astute and critical essays for a deeper understanding of political communication and the many roles the public has played in twenty first century politics. With this second edition *Political Communication: The Manship School Guide* offers readers a valuable resource that clarifies the confusing world of politics.

Theorizing Digital Rhetoric Aaron Hess, Amber Davisson, 2017-07-20 *Theorizing Digital Rhetoric* takes up the intersection of rhetorical theory and digital technology to explore the ways in which rhetoric is challenged by new technologies and how rhetorical theory can illuminate discursive expression in digital contexts. The volume combines complex rhetorical theory with personal anecdotes about the use of technologies to create a larger philosophical and rhetorical account of how theorists approach the examinations of new and future digital technologies. This collection of essays emphasizes the ways that digital technology intrudes upon rhetorical theory and how readers can be everyday rhetorical critics within an era of ever increasing use of digital technology. Each chapter effectively blends theorizing between rhetoric and digital technology informing readers of the potentiality between the two ideas. The theoretical perspectives informed by digital media studies, rhetorical theory and personal professional use provide a robust accounting of digital rhetoric that is timely, personable and useful.

This volume brings together leading scholars in the fields of Politics and Performance drawing on experts across the fields of literature, law, anthropology, sociology, psychology and media and communication as well as politics and theatre and performance to map out and deepen the evolving interdisciplinary engagement. Organized into seven thematic sections, the volume investigates the relationship between politics and performance to show that certain features of political transactions shared by performances are fundamental to both disciplines and that to a large extent they also share a common communicational base and language.
