Communication of Love Eva L. Wyss, 2014-11-15 By the end of the twentieth century certain new media had established themselves which have profoundly changed communication among lovers SMS and email in particular have created new relational forms and forms of intimacy From declarations of love on talk shows to televised dating games and marriage quiz shows television offers a panoply of wildly popular theatrical communications of love Does the neglecting of traditional communication media such as love letters and the telephone cause the intermingling of intimacy with the public sphere and hence the abrogation of it From the

disciplines of sociology history cultural and media studies and linguistics this book offers answers to this question by analyzing and discussing new media from various perspectives Contributions by Eva Illouz Joachim R H flich Friedrich Krotz Helga Kotthoff Karl Lenz Sabine Maasen and others *Love Hard* Jason Wren,2021-03-17 Most of us have a fundamental misunderstanding of love We think it is about us We believe it is about how someone or something makes us feel When something or someone fails to give us the positive feeling we want we move on and look for something else This type of love requires little effort By making it about us and how we feel we miss the many opportunities presented to us every day to have lasting and meaningful impact To truly love is hard It is not a feeling but an action It requires us to be intentional and outwardly focused on others rather than internally focused on our own feelings When we love hard our lives have real meaningful lasting positive impact on the world around us In *Love Hard* Jason Wren uses stories from his and others lives to show how all of us can learn to love hard and thus have significant and lasting impact **Falling in Love with Work** Denice Kronau,2011 Most of us fantasize about what it would be like to walk away from work Denice Kronau did it On the surface Denice had it all a great job as CEO of a 100 million company offices in thirty countries and travel around the world However her great job was killing her because she couldn't keep work in perspective She let it take over her life and was exhausted overworked overweight and endlessly running on a hamster wheel When it became too much she took an unpaid sabbatical and spent months regaining a sense of balance in her life She explored what drove her to work in such a destructive way and discovered many insights about work More importantly she found what made her happy at work In *Falling in Love with Work* Denice shares many of these key elements such as We're human beings not human doings Don't feed the urgent while starving the important It's perfectly fine to Find out what you don't do well and don't do it to quote Alf the 1980s TV character Be happy now Don't postpone happiness while waiting for a one time event About the Author Denice Kronau is a veteran of corporate life During her thirty year career she has held positions of chief executive officer chief financial officer and chief diversity officer She has worked for notable global companies such as Altria Diageo PLC and Siemens AG *The Materiality of Love* Anna Malinowska,Michael Gratzke,2017-09-27 Drawing on love studies and research in material cultures this book seeks to re-examine love through materiality studies especially their recent incarnations new materialism and object oriented philosophy to spark a debate on the relationship between love objects and forms of materializing affection It focuses on love as a material form and traces connections between feelings and materiality especially in relation to the changing notion of the material as marked by digital culture as well as the developments in understanding the nature of non human affect It provides insight into how materiality in its broadest sense impacts the understanding of the meanings and practices of love today and reversely how love contributes to the production and transformation of the material world *No Greater Love* John A. A Blind Kinda Love Tumi and Matebogo,2023-04-28 Imagine if we were both blind and we fell in love based on a conversation I would not know what you look like and I would have no choice but to fall in love with the things you say your journey and your story We all have a story to tell And I want ours to be the most inspiring I imagine two people who both want the same thing and never having met each other they aspire to share their dreams and life s plans together I believe there are still amazing and incredible people out there who have been hurt so many times that they may have locked love in a vault using heavy chains They may still believe that the only key to unlock the vault will be given to that special someone So grant me this opportunity for us to speak before you make all observations based on my physical appearance Hear my story and judge me by my conversations first and let s give love a different name based on the things we hear and not what we see

A Passion for Ignorance Renata Salecl,2022-11-29 An original and provocative exploration of our capacity to ignore what is inconvenient or traumatic Ignorance whether passive or active conscious or unconscious has always been a part of the human condition Renata Salecl argues What has changed in our post truth postindustrial world is that we often feel overwhelmed by the constant flood of information and misinformation It sometimes seems impossible to differentiate between truth and falsehood and as a result there has been a

backlash against the idea of expertise and a rise in the number of people actively choosing not to know The dangers of this are obvious but Salecl challenges our assumptions arguing that there may also be a positive side to ignorance and that by addressing the role of ignorance in society we may also be able to reclaim the role of knowledge Drawing on philosophy social and psychoanalytic theory popular culture and her own experience Salecl explores how the passion for ignorance plays out in many different aspects of life today from love illness trauma and the fear of failure to genetics forensic science big data and the incel movement and she concludes that ignorance is a complex phenomenon that can on occasion benefit individuals and society as a whole The result is a fascinating investigation of how the knowledge economy became an ignorance economy what it means for us and what it tells us about the world today [1001 Ways to Be Romantic](#) Gregory J.P Godek,2010-09-01 The perfect book of couples activities and date night ideas to make every day feel romantic A 1 bestseller with over six million copies sold Ignite passion and create magical moments with 1001 Ways to Be Romantic your ultimate guide to infusing your relationship with love enchantment and connection From simple gestures to grand surprises this expanded third edition presents an extensive collection of creative ideas to express your love and make every day more special Key Features Extensive Collection Explore 1 001 enchanting ideas to ignite romance and create cherished memories Personal Touch Customize and adapt the ideas to suit your unique relationship dynamics and preferences Inspiration for All Occasions Create romantic moments on Valentine s Day anniversaries or any day of the year 1001 Ways to Be Romantic is the go to resource for couples seeking to infuse their relationship with love and romance and makes a great gift for boyfriends girlfriends husbands wives partners bachelorette bachelor parties weddings and anniversaries Let these ideas inspire unforgettable moments and create a foundation of romance that stands the test of time **Google Apps Hacks** Philipp Lenssen,2008 Google is challenging the venerable Microsoft Office suite with its own Web based office applications This book offers scores of clever hacks and workarounds that enable power users to get more out of various applications [Proceedings of the 2002-2003 Migrant Farmworker Stream Forums](#) ,2003
