

Ivor Horton's

"I've been working with Microsoft Visual C++ since its first incarnation and I've been teaching programmers how to get the best from every version since. With this tutorial I'll help you understand the tools and libraries that Visual C++ provides to make development easier."

"You will progress from the basics of the programming environment to using the Microsoft Foundation Classes & Templates to develop Windows applications and components. Along the way you'll see how to use a range of new features exclusive to this new release of Visual C++."

"By the end of the book, you'll be ready to strike out on your own using the full power of Visual C++ to create the applications that you need."
