Introduction To Reformed Dogmatics:

Introduction to Reformed Dogmatics Auguste Lecerf, 2003-05 Auguste Lecerf was one of the ablest reformed theologians of the twentieth century His lectures at the University of Paris were praised for their succinctness controversial skill and deep learning His Introduction to Reformed Dogmatics was incomplete at the time of his death in 1943 The first two volumes translated here entitled *De la Nature de la Connaissance Religieuse* and *De Fondement et de la Specification de la Connaissance Religieuse* stand on their own and form a major contribution to theology Part I discusses the nature of religious knowledge whereas Part II concentrates on the question of apologetics in Calvinism whilst exploring philosophy and dogma Lecerf's work forms a profound study of the nature and basis of religious knowledge and offers a valuable critique of European philosophy from the standpoint of authentic or classical Calvinism The work has become an influential and widely regarded Calvinist work and is valued for its penetrating insights and strong Biblical emphasis Anyone with an interest in Calvinism should remember the enigmatic words of the visitor to Lecerf's door in 1930 who introduced himself with these words 'M Lecerf is a unique personality they say he is in fact the last of the Calvinists and when he dies the type will be extinct So whatever happens do not fail to pay him a visit' *An Introduction to Reformed Dogmatics* Auguste

Reformed Dogmatics: Introduction Louis Berkhof, 1932

Introduction À la Dogmatique Réformée. An

Introduction to Reformed Dogmatics. Translated by S.L.-H. Auguste LECERF, S. L. H., 1949 An Introduction to Dogmatic Theology Revere Franklin Weidner, 1895 In this Introduction we closely follow the outline of Luthardt but though we follow his outline and plan it is not a translation nor a condensation nor simply an adaptation but we have made an attempt to rewrite the work for the special wants of the Church in this country The writer would also record his great indebtedness to the manuscript lectures of Dr Krauth which have been freely used and from which we have derived constant stimulus and suggestion *Systematic Theology, Volume 1, Fourth Edition* James Leo Garrett, 2014-09-14 Rivals the major systematic theologies of this century Baptist History and Heritage Journal July 1996 One of the characteristics of Garrett's system that needs especially to be noted is its balanced judicious and nearly invariably objective presentation of materials While holding true to the teachings of his own Baptist faith Garrett so carefully and judiciously presents alternatives that teachers and students from other confessional and denominational positions will find his work instructive Consensus 1997 If one is searching for an extensive exposition of the biblical foundations and historical developments of the various loci of systematic theology there is no more complete presentation in a relatively short work than this Pastors will especially find this feature to be a real help in teaching theology It is an indispensable contribution to the task of systematic theology Journal of the Evangelical Theological Society September 1999 Many students and pastors will find all they need here and will in addition be helped to relate their knowledge to recent developments in the theological world The Churchman A Journal of

The Covenant of Works J. V. Fesko, 2020-09-14 The doctrine of the covenant of works arose to prominence in the late sixteenth century and quickly became a regular feature in Reformed thought Theologians believed that when God first created man he made a covenant with him all Adam had to do was obey God's command to not eat from the tree of knowledge and obey God's command to be fruitful multiply and subdue the earth The reward for Adam's obedience was profound eternal life for him and his offspring The consequences of his disobedience were dire God would visit death upon Adam and his descendants In the covenant of works Adam was not merely an individual but served as a public person the federal head of the human race The Covenant of Works explores the origins of the doctrine of God's covenant with Adam and traces it back to the inter testamental period through the patristic and middle ages and to the Reformation The doctrine has an ancient pedigree and was not solely advocated by Reformed theologians The book traces the doctrine's development in the seventeenth century and its reception in the eighteenth nineteenth and twentieth centuries Fesko explores the reasons why the doctrine came to be rejected by some even in the Reformed tradition arguing that interpretive methods influenced by Enlightenment thought caused theologians to question the doctrine's scriptural legitimacy
