

Germany Ten Years After

Frank Leopold Oktavec

Germany Ten Years After:

Department Bulletin United States. Department of Agriculture, 1917 **Germany after the First World War** Richard Bessel, 1993-07-15 This is a social history of Germany in the years following the First World War Germany's defeat and the subsequent demobilization of her armies had enormous economic social and psychological consequences for the nation and it is these which Richard Bessel sets out to explore these Dr Bessel examines the changes brought by the War to Germany by the return of the soldiers to civilian life and by the demobilization of the economy He demonstrates how the postwar transition was viewed as a moral crusade by Germans desperately concerned about challenges to traditional authority and he assesses the ways in which the experiences and memories of the War affected the politics of the Weimar Republic This original and scholarly book offers important insights into the sense of dislocation both personal and national experienced by Germany and Germans after the First World War and the damaging legacy of the War for German democracy **Military Review**, 1927 **Germany as a Civilian Power?** Sebastian Harnisch, Hanns Maull, 2001 Drawing upon a multi disciplinary methodology employing diverse written sources material practices and vivid life histories Faith in the family seeks to assess the impact of the Second Vatican Council on the ordinary believer alongside contemporaneous shifts in British society relating to social mobility the sixties sexual morality and secularisation Chapters examine the changes in the Roman Catholic liturgy and Christology devotion to Mary the rosary and the place of women in the family and church as well as the enduring but shifting popularity of Saints Bernadette and Th r se Appealing to students of modern British gender and cultural history as well as a general readership interested in religious life in Britain in the second half of the twentieth century Faith in the family illustrates that despite unmistakable differences in their cultural accoutrements and interpretations of Catholicism English Catholics continued to identify with and practise the Faith of Our Fathers before and after Vatican II **Bulletin of the U.S. Department of Agriculture**, 1917 The Professional Education of Special Men Teachers of Physical Education in Prussia Frank Leopold Oktavec, 1929 Journal of the United States Artillery, 1928 **From German Prisoner of War to American Citizen** Barbara Schmitter Heisler, 2013-08-20 Among the many German immigrants to the United States over the years one group is unusual former prisoners of war who had spent between one and three years on American soil and who returned voluntarily as immigrants after the war Drawing on archival sources and in depth interviews with 35 former prisoners who made the return the book outlines the conditions that defined their unusual experiences and traces their journeys from captive enemies to American citizens Although the respondents came from different backgrounds and arrived in America at different times between 1943 and 1945 their experiences as prisoners of war not only left an indelible impression they also provided them with opportunities and resources that helped them leave Germany behind and return to the place where we had the good life **Not a Choice, Not a Job** JANICE G. RAYMOND, 2013-07-15 A generation ago most people did not know how ubiquitous and grave human trafficking was Now many people agree that the 35 7 billion business

is an appalling violation of human rights But when confronted with prostitution many people experience an odd disconnect because prostitution is shrouded in myths among them the claims that prostitution is inevitable and prostitution is a job or service like any other In *Not a Choice Not a Job* Janice Raymond challenges both the myths and their perpetrators Raymond demonstrates that prostitution is not sex but sexual exploitation and that legalizing and decriminalizing the system of prostitution as opposed to the prostituted women promotes sex trafficking expands the sex industry and invites organized crime Specifically Raymond exposes how legalized prostitution in the Netherlands Germany Australia and Nevada worsens crime and endangers women In contrast she reveals when governments work to prevent the demand for prostitution by prosecuting pimps brothels and prostitution users as in Norway Sweden and Iceland trafficking does not increase women are better protected and fewer men buy sex Raymond expands the boundaries of scholarship in women's studies making this book indispensable to human rights advocates around the world **Beer and Revolution** Tom Goyens, 2023-12-11

Understanding an infamous political movement's grounding in festivity and defiance *Beer and Revolution* examines the rollicking life and times of German immigrant anarchists in New York City from 1880 to 1914 Offering a new approach to an often misunderstood political movement Tom Goyens puts a human face on anarchism and reveals a dedication less to bombs than to beer halls and saloons where political meetings public lectures discussion circles fundraising events and theater groups were held Goyens brings to life the fascinating relationship between social space and politics by examining how the intersection of political ideals entertainment and social activism embodied anarchism not as an abstract idea but as a chosen lifestyle for thousands of women and men He shows how anarchist social gatherings were themselves events of defiance and resistance that aimed at establishing anarchism as an alternative lifestyle through the combination of German working class conviviality and a dedication to the principle that coercive authority was not only unnecessary but actually damaging to full and free human development as well Goyens also explores the broader circumstances in both the United States and Germany that served as catalysts for the emergence of anarchism in urban America and how anarchist activism was hampered by police surveillance ethnic insularity and a widening gulf between the anarchists' message and the majority of American workers *Public Affairs Information Service Bulletin*, 1928 **David Days, Mona Nights** Andreas Steinhöfel, Anja Tuckermann, 2004 Translated from the German this award winning novel for young people captures the thrill of words writing and letters invoking a feeling that phone calls and email cannot ever match **Nordic, Central, and Southeastern Europe 2023-2024** Wayne C. Thompson, 2023-06-23 Nordic Central and Southeastern Europe 2020-2022 provides students with vital information on these countries through a thorough and expert overview of political and economic histories current events and emerging trends **Europe and Asia in Space**, 1993 **The Survey**, 1928 *A History of Modern Germany* Dietrich Orlow, 2016-11-03 Covering the entire period of modern German history from nineteenth century imperial Germany right through the present this well established text presents a balanced general survey of the country's political division in

1945 and runs through its reunification in the present Detailing foreign policy as well as political economic and social developments A History of Modern Germany presents a central theme of the problem of asymmetrical modernization in the country's history as it fully explores the complicated path of Germany's troubled past and stable present

The Profession of Government Brian Chapman, 2024-06-26 Originally published in 1959 and using material collected from eight languages much of which was previously unpublished this is a genuine comparative study not merely describing each country separately but an analysis of the most important questions facing 20th century public administration A substantial historical introduction traces from Roman to modern times the concept and practice of public service and brings out the underlying unity of European experience

A Social History of Germany, 1648-1914 Eda Sagarra, 2017-07-12 This volume is a pioneering effort to examine the social demographic and economic changes that befell the Jewish communities of Central Europe after the dissolution of the Habsburg Empire It consists of studies researched and written especially for this volume by historians sociologists and economists all specialists in modern Central European Jewish affairs The era of national rivalry economic crises and political confusion between the two World Wars has been preceded by a pre World War I epoch of Jewish emancipation and assimilation During that period Jewish minorities had been harbored from violent anti-Semitism by the Empire and they became torchbearers of industrialization and modernization This common destiny encouraged certain common characteristics in the three major components of the Empire Austria Hungary and the Czech territories despite the very different origins of the well over one million Jews in those three lands The disintegration of the Habsburg Empire created three small economically marginal national states inimical to each other and at liberty to create their own policies toward Jews in accord with the preferences of their respective ruling classes Active and openly discriminatory anti-Semitic measures resulted in Austria and Hungary The only liberal heir country of the Empire was Czechoslovakia although simmering anti-Semitism and below surface discrimination were widespread in Slovakia While one might have expected Jewish communities to return to their pre World War I tendencies to go their independent ways after the introduction of these policies social and economic patterns which had evolved in the Habsburg era persisted until the Anschluss in Austria German occupation in Czechoslovakia and World War II in Hungary Studies in this volume attest to continuing similarities among the three Jewish communities testifying to the depth of the Empire's long lasting impact on the behavior of Jews in Central Europe

Ten Years of German Unification Jörn Leonhard, Lothar Funk, 2002-04-30 In May 2000 scholars of history law politics and economics gathered in London to compare their various methodological and empirical perspectives on the 1989-90 collapse of the Germanies into a unity and the aftermath of the event from the perspective of a decade on Their 14 studies cover histo

Routledge Library Editions: World Empires Various, 2021-07-09 The 16 volumes in this set originally published between 1919 and 1998 draw together research by leading academics in the area of World Empires and provide an examination of related key issues The books examine French Colonialism the German Empire and the Ottoman Empire as

well as the effect European colonialism had in Africa and Asia This set will be of particular interest to students of world history
