Eve s Apple is the story of how one lady Eve contracted and spread the most fatal disease ever known to mankind as an act of
her mind and will The name of this disease is sin This disease of sin is the root cause of all war murder stealing lies and every
other known form of evil in the world The result has been the death of every generation of mankind who has ever lived But
wait a minute you say I believe death is caused by old age or cancer a heart attack or some other physical problem or disease
and not by some religious belief called sin This is partly true But what is the root cause of all known diseases And if all known
diseases result in death isn t this just another way sin manifests itself In addition to all these facts I believe the story of Eve s
apple defines the history of the human race Ralph Waldo Emerson once wrote There is no such thing as history only
biography Well if history is a collection of biographies or stories then this story of Eve s apple ranks among the most
important of all The story of Eve s apple began mankind s conflict with a good and evil in our world This struggle by you and
me and the rest of the human race has affected our world and history more than any other challenge in life How mankind has
chosen to struggle with this conflict has shaped the history of our world If the above reasons for Eve s importance to history
and your life are not enough may I suggest one more contained in this story of Eve is the prophecy of God s answer to Eve s
sin which contains faith hope and love **Apple Turnover Murder** Joanne Fluke,2010 New York Times bestselling author
