A. Reis Monteiro

Getting A Free Education:

School Education ,1911 **Revolution of the Right to Education** A. Reis Monteiro,2021-07-19 The author argues in his essay on the Revolution of the Right to Education that the birth of the human right to education after a millennia long gestation has opened up a new chapter in the History of Education Moreover its normative jurisprudential doctrinal and programmatic developments are constituents of an International Education Law that is now the highest source in the hierarchy of the contemporary normativity on education to which the Education Law in States Parties should conform Therefore it should be recognised and studied as a new legal and educational discipline the source of principles of legitimacy and quality of education This book offers an interdisciplinary and topical introduction to the International Education Law broadly defined It explains in what ways the normative integrity of the right to education carries far reaching revolutionary significance corollary of the Revolution of Human Rights and the Revolution of the Rights of the Child *School Is A Joke* Immaculata Chukwunyere,2021-10-28 *School Is a Joke* Ethnography of Inner City Public School Students Perception and Sensemaking of School and Schooling explored minority and low SES inner city high school students perception and sense making of school schooling learning academic behaviors and academic achievement through an integrated theory of human development learning and achievement The author sought an understanding of the reason behind the persistent academic failure of inner city minority and low SES high school students as well as the academic achievement gap within and between this subgroup of students Conducted in a high poverty high minority comprehensive inner city high school in the south of the United States of America the aim of the study was threefold First the author explored the factors operating in high school students thoughts feelings actions and reactions to school and academic achievement Second she examined the mechanisms by which these factors operate Third she utilized an integrated humanistic paradigm in analyzing student learning and academic behavior the interaction between student characteristics and school processes and the school culture that emerged from the interaction The integrated framework for the study comprised of Bronfenbrenner s bioecological model of human development Bandura s sociocognitive theory of learning and Bourdieu s concept of habitus The study s findings have implication for student learning academic behavior and academic achievement school organization and functioning as well as administrative behavior and school culture *American Education* ,1974 Getting Even Mustafa Talpur,2019-12-16 Asia s phenomenal economic growth during last few decades is a remarkable success story in the fight against poverty Between 2005 and 2012 alone the number of people living in extreme poverty in Asia Pacific was reduced by 1.1 billion accounting for more than 90 per cent of the total poverty reduction achieved worldwide However these achievements have been overshadowed by the sharp rise in income and wealth inequality The concentration of private wealth is of a greater concern In several countries in Asia the richest top 5% control close to 70% of the nation s total private wealth the top 1% control more than 50% This level of disparity has pervasive consequences for everyone It stifles social mobility undermines social

cohesion hurts long term growth and reinforces inequality of opportunities It encourages crime sparks corruption and can lead to violent conflict Left unchecked growing inequality undermines the fight to end poverty and more people living with little hope Such stark inequality is not inevitable it is the consequence of political and economic choices Deliberate policy choices have fostered the extremes of income wealth seen across Asia today It is against this context that book brings together a select group of academics across Asia to examine and bring forth positive stories about public policies introduced in last decade to address economic inequality Scholarly written papers scrutinize the extent to which these policies have been successful The book seeks to generate evidence across a range of contexts to demonstrate what kind of governments programmes and policies have positive impact to reduce inequality and how these could be designed These inspirational stories will fill the vital knowledge gap in Asia to foster peace and shared prosperity How to Get Free Money for College!

Nutrition and Human Needs--1970 United States. Congress. Senate. Select Committee on Nutrition and Human Needs,1971 Invisible Children in the Society and Its Schools Sue Books,2015-04-24 The authors in this book use the metaphors of invisibility and visibility to explore the social and school lives of many children and young people in North America whose complexity strengths and vulnerabilities are largely unseen in the society and its schools These invisible children are socially devalued in the sense that alleviating the difficult conditions of their lives is not a priority children who are subjected to derogatory stereotypes who are educationally neglected in schools that respond inadequately if at all to their needs and who receive relatively little attention from scholars in the field of education or writers in the popular press The chapter authors some of the most passionate and insightful scholars in the field of education today detail oversights and assaults visible and invisible but also affirm the capacity of many of these young people to survive flourish and often educate others despite the painful and even desperate circumstances of their lives By sharing their voices providing basic information about them and offering thoughtful analysis of their social situation this volume combines education and advocacy in an accessible volume responsive to some of the most pressing issues of our time Although their research methodologies differ all of the contributors aim to get the facts straight and to set them in a meaningful context New in the Third Edition Chapters retained from the previous edition have been thoroughly revised and updated and five totally new chapters have been added on the topics of young people pushed into the school to prison pipeline the environmental landscape of two out of school Mexican migrant teens in the rural Midwest the perceptions and practices in and outside schools that construct African American boys as school failures negative portrayals of blackness in the context of understanding the collateral damage of continued white privilege and working class pregnant and parenting teens efforts to create positive identities for themselves

Of interest to a broad range of researchers students and practitioners across the field of education this compelling book is accessible to all readers It is particularly appropriate as a text for courses that address the social context of education cultural and political change and public policy including social foundations of education sociology of education multicultural education curriculum studies and educational policy **Delivering an Elusive Dream of Democracy** Joleen Steyn

Kotze,2018-09-07 This book analyses the decline of the ANC in Nelson Mandela Bay the economic hub of the Eastern Cape also known as the party s heartland Over the course of last twenty four years party dominant dilemmas have plagued the ANC in the Nelson Mandela Bay This includes corruption political factionalism blurring the line between party and state as well as engaging in spoils politics While this metro had encapsulated the Dream of 94 since the inception of democracy in South Africa weak quality of governance lack of political efficacy and mediocre if not anorexic service delivery effectively led to the ANC losing this symbolically important metropolitan municipality With the loss of Nelson Mandela Bay voters effectively demonstrated that they are no longer willing to accept the liberation narrative and elusive promise of a better tomorrow The ANC can no longer rely on the political capital of the liberation struggle in securing and maintaining its electorally dominant position The loss of Nelson Mandela Bay coupled with Johannesburg and Tshwane could potentially signal the end of ANC electoral dominance The author tracks the electoral decline of the ANC and analyses the dynamics that impact on its ability to potentially sustain its political and electoral dominant position in future elections Popular
