Lamar Waldron,2013-06-01 A groundbreaking investigation into the events of the Watergate Scandal complete with fascinating new material all exhaustively researched in the author s customary style The New York Observer While Richard Nixon s culpability for Watergate has long been established what s truly remarkable is that after almost fifty years conventional accounts of the scandal still don t address Nixon s motive Why was President Nixon willing to risk his reelection with so many repeated burglaries at the Watergate and other Washington offices in just a few weeks What motivated Nixon to jeopardize his presidency by ordering the wide range of criminal operations that resulted in Watergate What was Nixon so desperate to get at the Watergate and how does it explain the deeper context surrounding his crimes For the first time the groundbreaking investigative research in Watergate The Hidden History provides documented answers to all of those questions It adds crucial missing pieces to the Watergate story information that President Nixon wanted but couldn t get and

that wasn't available to the Senate Watergate Committee or to Woodward and Bernstein. This new information not only reveals remarkable insights into Nixon's motivation for Watergate but also answers the two most important remaining questions: What were the Watergate burglars after? And why was Nixon willing to risk his Presidency to get it? Watergate: The Hidden History reexamines the historical record including new material only available in recent years. This includes thousands of recently declassified CIA and FBI files, newly released Nixon tapes, and exclusive interviews with those involved in the events surrounding Watergate, ranging from former Nixon officials to key aides for John and Robert Kennedy. This book also builds on decades of investigations by noted journalists and historians as well as long overlooked investigative articles from publications like Time magazine, the Los Angeles Times, and the New York Times.

Hidden History of Early Richmond
Maurice Robinson, 2020 Richmond's Civil War history is familiar to every local and visitor, but fewer know the stories of the city's early days. Did you know that some of the area's earliest settlers were Huguenots fleeing religious persecution in France? Major John Clarke designed many of Richmond's first public buildings, but did you know that he was one of the masterminds behind the area's early industry as well? Tredegar Iron Works was the arsenal of the Confederacy, but Richmond area foundries at Westham and Bellona supplied weapons to the armies of the Revolution as well. Richmond's first penitentiary was designed by Benjamin Latrobe before his term as architect of the Capitol. Local author Maurice Robinson narrates the tales of early Richmond's seven hills and beyond.

The Hidden History of the Smock Frock
Alison Toplis, 2021-04-22 Winner of the Association of Dress Historians Book of the Year Award 2022. Traditionally associated with rural ways of life in England, often hand-crafted and held up as one of the only items of English folk dress to survive into the 20th century, the smock frock is an object of curiosity in many museum collections. Drawing on a wide variety of sources, from surviving garments to newspapers and photographs, this book reveals the hidden history of the smock frock to present new social histories. Discussing the smock frock in its widest contexts, Alison Toplis explores how garments were handmade and manufactured by the ready-made clothing industry and bought by men of different trades. She traces the smock frock's usage across England as well as in export markets such as Australia. Following the garment's decline in the late 19th century, the book investigates how this essentially utilitarian style of workwear came to be held up as an example of disappearing peasant craft in an emotional response to urbanisation and how it was preserved by collectors under the influence of the Arts and Crafts movement. Around the turn of the 20th century, the smock frock was reinvented as both women's and children's wear and is now regularly revived in fashion collections by the likes of Molly Goddard. Drawing together extensive visual and material cultures, Alison Toplis unravels a new history of the smock frock.

Cultural identity in the East African novel
Regina Hartmann, 2014-04-11 Inhaltsangabe Introduction. As the Black African writers have taught us, we must dance our word for in human speech, as in dance lies an offering to speak and to write is also to offer oneself to the other; it is to be reborn together. This quotation by M. Rombaut locates African literature close to the performing arts. According to his

statement African literature seems to transcend the conventional European conception of writing which is conceiving literature as something planned and permanent The idea of a literary performance in African writing places the author much closer to the story teller who is dependent on his audience and trying to keep in touch with them By processing their feelings in his performance he gives expression to a common consciousness In contrast to the Western author who often wants to stand apart from his society African authors tend to aim their participation in the formation of a shared identity This paper tries to find out how authors from the framework of East Africa conceive of cultural identity Basically I will proceed in two steps part A is dedicated to the development of a pattern within which the complex issue of identity can be adequately discussed in an East African context In Part B I will then apply this discussion scheme to three novels which as I will explain are representative for East African writing in far as this term is justified Part A starts off from some basic observations about identity on the foundation of which I want to deduce the structure of my analysis I will argue that identity is based on ones observation of the environment and on the influence of outsiders All this is to some extent true for two concepts individual and cultural identity The latter develops when a group of individuals feels or is ascribed a common bond apt to correspond to several individual self concepts These individuals may then share a feeling of home which can act as a physical but also mental commitment Departing from these ideas I will show that four issues might be interesting in dealing with cultural identity which can be expressed by some central questions 1 Identity imposed and adopted In how far can others influence our identity 2 Identity rediscovered and reinvented To what extent does our history work on identity 3 Identity displaced How does our feeling of physical or mental bond to a physical or mental space I will call home work on identity 4 Identity integrated How
