High Adventure 37:

Reckless Fellows Edward Bujak, 2015-09-25 The Royal Flying Corps later the Royal Air Force was formed in 1912 and went to war in 1914 where it played a vital role in reconnaissance supporting the British Expeditionary Force as air cavalry and also in combat establishing air superiority over the Imperial German Air Force Edward Bujak here combines the history of the air war including details of strategy tactics technical issues and combat with a social and cultural history The RFC was originally dominated by the landed elite in Lloyd George's phrase from the stateliest houses in England and its pilots were regarded as knights of the air Harlaxton Manor in Lincolnshire seat of landed gentry became their major training base Bujak shows how within the circle of the RFC the class divide and unconscious superiority of Edwardian Britain disappeared absorbed by common purpose technical expertise and by an influx of pilots from Canada Australia New Zealand and South Africa He thus provides an original and unusual take on the air war in World War I combining military social and cultural history

Powering the Dream Alexis Madrigal, 2011-03-29 Few today realize that electric cabs dominated Manhattan's streets in the 1890s that Boise Idaho had a geothermal heating system in 1910 or that the first megawatt turbine in the world was built in 1941 by the son of publishing magnate G P Putnam a feat that would not be duplicated for another forty years Likewise while many remember the oil embargo of the 1970s few are aware that it led to a corresponding explosion in green technology research that was only derailed when energy prices later dropped In other words We've been here before Although we may have failed America has had the chance to put our world on a more sustainable path Americans have in fact been inventing green for more than a century Half compendium of lost opportunities half hopeful look toward the future Powering the Dream tells the stories of the brilliant often irascible inventors who foresaw our current problems tried to invent cheap and energy renewable solutions and drew the blueprint for a green future

The Holy Lover Marie Conway Oemler, 1927

The Hunter Elite Tara Kathleen Kelly, 2018-03-15 At the end of the nineteenth century Theodore Roosevelt T S Van Dyke and other elite men began describing their big game hunting as manly sport with the rifle They also began writing about their experiences publishing hundreds of narratives of hunting and adventure in the popular press and creating a new literary genre in the process But why did so many of these big game hunters publish What was writing actually doing for them and what did it do for readers In exploring these questions The Hunter Elite reveals new connections among hunting narratives publishing and the American conservation movement Beginning in the 1880s these prolific hunter writers told readers that big game hunting was a test of self restraint and manly virtues and that it was not about violence They also opposed their sportsmanlike hunting to the slaughtering of game by British imperialists even as they hunted across North America and throughout the British Empire Their references to Americanism and manliness appealed to traditional values but they used very modern publishing technologies to sell their stories and by 1900 they were reaching hundreds of thousands of readers every month When hunter writers took up conservation as a cause they used that

reach to rally popular support for the national parks and for legislation that restricted hunting in the US Canada and Newfoundland The Hunter Elite is the first book to explore both the international nature of American hunting during this period and the essential contributions of hunting narratives and the publishing industry to the North American conservation movement **Fallen Giants** Maurice Isserman, Stewart Angus Weaver, Dee Molenaar, 2010-01-01 In the first comprehensive history of Himalayan mountaineering in 50 years the authors offer detailed original accounts of the most significant climbs since the 1890s and they compellingly evoke the social and cultural worlds that gave rise to those expeditions The Boy Generals Adolfo Ovies, 2021-06-11 First in a trilogy a study of the strategy tactics and rivalry between two leaders of the Army of the Potomac's cavalry during the American Civil War George Armstrong Custer's career has attracted its fair share of coverage but most Custer related studies focus on his decision making and actions to the exclusion of other important factors including his relationships with his fellow officers Custer developed his tactical philosophy within the politically ridden atmosphere of the Army of the Potomac's Cavalry Corps His relationship with his immediate superior Wesley Merritt was so acrimonious that even Custer's wife Libbie described him as her husband's enemy The Boy Generals examines in detail the steadily deteriorating relationship of two cavalymen with opposing tactical philosophies and how this relationship affected events in the field Custer was a hussar a firm believer in the shock power of the mounted saber charge while Merritt was a dragoon his tactics rooted in the belief that the purpose of the horse was to transport the trooper to the battlefield where he could fight dismounted with his carbine With these diametrically opposed belief systems it was inevitable that these officers would clash What has often been described as a spirited rivalry was in fact something much darker an association that moved from initial distaste to acrimony and finally outright insubordination on Custer's part Author Adolfo Ovies mined deeply official reports regimental histories and contemporary newspaper accounts together with unpublished and little used primary sources of men who fought in their commands This rich and satisfying study exposes the depths of one of the most dysfunctional and influential relationships in the Army of the Potomac and how it affected cavalry operations in the Eastern Theater The Boy Generals will change the way Civil War readers think of the premier Union army's mounted arm as well as George Custer's legacy Praise for The Boy Generals A grand effort a Must Read It will be a standard bearer a marvelous book that should remain among the very best It will certainly grace my library Frederic C Wagner III author of The Strategy of Defeat at the Little Big Horn Well written thoroughly researched and entertaining This is one you cannot miss Eric J Wittenberg award winning author of The Devil's to Pay John Buford at Gettysburg A History and Walking Tour AAHS Journal American Aviation Historical Society, 1983 Backcountry Adventures Utah Peter Massey, Jeanne Wilson, 2006-05 Backcountry Adventures Utah provides detailed directions for 175 backcountry roads throughout Utah all suitable for stock sport utility vehicles All you need is an SUV a sense of adventure and your copy of Backcountry Adventures Utah Book jacket **Media/scope** ,1964 *Boys' Life* ,1976-08 Boys Life is the official youth magazine for the Boy Scouts of America

Telling the Untold Story Steve Weinberg, 1992 Author of his own controversial unauthorized biography of Armand Hammer Steve Weinberg here shows how a new generation of biographers is revealing the lives of powerful individuals in dramatic and important new ways Trained as investigative journalists today s writers have entered a domain once dominated by university scholars Unlike their more academic predecessors who often wrote nonjudgmental books on the public lives of long dead individuals these new biographers are willing to tackle such powerful living subjects as Nancy Reagan Henry Kissinger Hugh Hefner Pete Rose and Fidel Castro Few of these books are adoring

Without cooperation from their subjects and sometimes under threat of lawsuit these writers are probing into private lives and enabling readers to make up their own minds about public figures Tracing the evolution of the craft of biography up to the present day Weinberg draws on interviews with some of today's best biographers as well as his own experience with the Hammer biography to highlight the careers of some of the writers whose work exploded the boundaries of traditional biography When Robert Caro became the first journalist to win a Pulitzer Prize for Biography for his book on Robert Moses it marked the dawn of a new approach to the craft Weinberg also explores the techniques of Philadelphia Inquirer journalists Donald Barlett and James Steele whose jointly authored biographies of Howard Hughes and Nelson Rockefeller mark another sign of how far the genre of biography has come The book is enriched by samples of investigative biography at its best including a scathingly honest profile of the reigning queen of unauthorized biography Kitty Kelley and Calvin Trillin's fascinating New Yorker profile of the Miami Herald's inimitable police reporter Edna Buchanan The living of a life is more difficult than the chronicling of it but the chronicling is certainly no simple task writes Weinberg Telling somebody else's life fully fairly and compellingly is probably an impossible task But it is important to keep pushing the limits of the possible For writers reviewers publishers and general readers Telling the Untold Story is a fascinating look at how a new kind of biographer has forever changed our expectations of the genre and continues to push biography to exciting new limits
