High Flight Jonathan Franklin William Vance, 2002-01-01      **High Flight** Jonathan F. Vance,      Climate Change and Writing the Canadian Arctic Renée Hulan, 2017-11-29 Climate Change and Writing the Canadian Arctic explores the impact of climate change on Canadian literary culture Analysis of the changing rhetoric surrounding the discovery of the lost ships of the Franklin expedition serves to highlight the political and economic interests that have historically motivated Canada's approach to the Arctic and shaped literary representations A recent shift in Canadian writing away from national sovereignty to circumpolar stewardship is revealed in detailed close readings of Kathleen Winter's *Boundless* and Sheila Watt Cloutier's *The Right to Be Cold*      Canada 1919 Tim Cook, J.L. Granatstein, 2020-06-15 With compelling insight *Canada 1919* examines the year following the Great War as the survivors attempted to right the country and chart a path into the future Veterans returned home full of both sorrow and pride in their accomplishments wondering what would they do and how they would fit in with their families The military stumbled through massive demobilization The government struggled to hang on to power And a new Canadian nationalism was forged This book offers a fresh perspective on the concerns of the time the treatment of veterans including nurses and Indigenous soldiers the place of children the influenza pandemic the rising farm lobby the role of labour Canada's international standing and commemoration of the fallen *Canada 1919* exposes the ways in which war shaped and changed Canada and the ways it did not      **The Industrial Transformation of Subarctic Canada** Liza

Piper, 2010-01-01 Between 1821 and 1960 industrial economies took root in the North transgressing political geographies and superseding the historically dominant fur trade Imported southern scientists and sojourning labourers worked the Northwest and its industrial history bears these newcomers' imprint This book reveals the history of human impact upon the North It provides a baseline grounded in historical and scientific evidence for measuring subarctic environmental change Liza Piper examines the sustainability of industrial economies the value of resource exploitation in volatile ecosystems and the human consequences of northern environmental change She also addresses northern communities' historical resistance to external resource development and their fight for survival in the face of intensifying environmental and economic pressures

*Arctic Modernities* Heidi Hansson, Anka Ryall, 2018-01-23 Less tangible than melting polar glaciers or the changing social conditions in northern societies the modern Arctic represented in writings visual images and films has to a large extent been neglected in scholarship and policy making However the modern Arctic is not only a natural environment dramatically impacted by human activities It is also an incongruous amalgamation of exoticized indigenous tradition and a mundane everyday The chapters in this volume examine the modern Arctic from all these perspectives They demonstrate to what extent the processes of modernization have changed the discursive signification of the Arctic They also investigate the extent to which the traditions of heroic Arctic images whether these traditions are affirmed contested or repudiated have continued to shape influence and inform modern discourses Sometimes the Arctic is seen as synonymous with modernity itself

Sometimes it appears as a utopian space signalling a different future However it still often represents the continued survival within modernity of the past as nostalgia longing dream and myth

*Canada and the First World War, Second Edition* David MacKenzie,2018-12-03 The First World War is often credited as being the event that gave Canada its own identity distinct from that of Britain France and the United States Less often noted however is that it was also the cause of a great deal of friction within Canadian society The fifteen essays contained in *Canada and the First World War* examine how Canadians experienced the war and how their experiences were shaped by region politics gender class and nationalism Editor David MacKenzie has brought together some of the leading voices in Canadian history to take an in depth look into the tensions and fractures the war caused and to address the way some attitudes about the country were changed while others remained the same The essays vary in scope but are strongly unified so as to create a collection that treats its subject in a complete and comprehensive manner *Canada and the First World War* is a tribute to esteemed University of Toronto historian Robert Craig Brown one of Canada's greatest authorities on the Great War World War One The collection is a significant contribution to the on going re examination of Canada's experiences in war and a must read for students of Canadian history

Wilcox,2015-05-14 Armies are virtually never ready to fight major wars Warfare continues to change over time which means no two wars are exactly alike Armys leaders struggle to anticipate the next war yet it is unrealistic to predict with perfection The advent of new technology and tactics unexpected adversaries the vast size and complexity of military organizations undetectable capabilities and unforeseen goals signify gaps will exist between the war an army expects to fight and the war it must fight Yet throughout history there has been no army on Earth that has been accused of total unpreparedness than those that went to war in Europe in August of 1914 There is no conflict that more vividly conjures up the image of wasteful military incompetence than the First World War in which a wholesale chain of command on both sides utterly failed to foresee the scale duration and character of a war transformed by modern weaponry and mass mobilization The millions cut down among the artillery barrages machine gun fire and gas clouds have become the quintessential symbol of military unpreparedness and the inability to adapt *In Plain Site* Joel L. From,2019-10-01

On the morning of April 9 1917 troops of the Canadian Corps under General Julian Byng attacked the formidable German defences of Vimy Ridge Since then generations of Canadians have shared a deep emotional attachment to the battle inspired partly by the spectacular memorial on the battlefield Although the event is considered central in Canadian military history most people know very little about what happened during that memorable Easter in northern France Vimy Ridge A Canadian Reassessment draws on the work of a new generation of scholars who explore the battle from three perspectives The first assesses the Canadian Corps within the wider context of the Western Front in 1917 The second explores Canadian leadership training and preparations and details the story of each of the four Canadian divisions The final section concentrates on the

commemoration of Vimy Ridge both for contemporaries and later generations of Canadians This long overdue collection based on original research replaces mythology with new perspectives new details and a new understanding of the men who fought and died for the remarkable achievement that was the Battle of Vimy Ridge Co published with the Laurier Centre for Military Strategic and Disarmament Studies *Exhibiting War* Jennifer Wellington,2017-09-21 What does it mean to display war Examining a range of different exhibitions in Britain Canada and Australia Jennifer Wellington reveals complex imperial dynamics in the ways these countries developed diverging understandings of the First World War despite their cultural political and institutional similarities While in Britain a popular narrative developed of the conflict as a tragic rupture with the past Australia and Canada came to see it as engendering national birth through violence Narratives of the war's meaning were deliberately constructed by individuals and groups pursuing specific agendas to win the war and immortalise it at the same time Drawing on a range of documentary and visual material this book analyses how narratives of mass violence changed over time Emphasising the contingent development of national and imperial war museums it illuminates the way they acted as spaces in which official academic and popular representations of this violent past intersect **Bearing Witness** Sherrill Grace,Patrick Imbert,Tiffany Johnstone,2012-10-01 As the centenary of the Great War approaches citizens worldwide are reflecting on the history trauma and losses of a war torn twentieth century It is in remembering past wars that we are at once confronted with the profound horror and suffering of armed conflict and the increasing elusiveness of peace The contributors to *Bearing Witness* do not presume to resolve these troubling questions but provoke new kinds of reflection They explore literature the arts history language and popular culture to move beyond the language of rhetoric and commemoration provided by politicians and the military Adding nuance to discussions of war and peace this collection probes the understanding and insight created in the works of musicians dramatists poets painters photographers and novelists to provide a complex view of the ways in which war is waged witnessed and remembered A compelling and informative collection *Bearing Witness* sheds new light on the impact of war and the power of suffering heroism and memory to expose the human roots of violence and compassion Contributors include Heribert Adam Simon Fraser University Laura Brandon Carleton University Mireille Calle Gruber Universit La Sorbonne Nouvelle Janet Danielson Simon Fraser University Sandra Djwa emeritus Simon Fraser University Alan Filewod University of Guelph Sherrill Grace University of British Columbia Patrick Imbert University of Ottawa Tiffany Johnstone PhD Candidate University of British Columbia Martin L schnigg Graz University Lauren Lydic PhD University of Toronto Conny Steenman Marcusse Netherlands Jonathan Vance University of Western Ontario Aritha van Herk University of Calgary Peter C van Wyck Concordia University Christl Verduyn Mount Allison University and Anne Wheeler filmmaker *Her Daughter the Engineer* Richard I.
