 America s War on Drugs is just the most recent skirmish in a standoff between global drug trafficking and state power From
 Britain s nineteenth century Opium Wars in China to the activities of Colombia s drug cartels and their suppression by U S
 backed military forces today conflicts over narcotics have justified imperial expansion global capitalism and state violence
 even as they have also fueled the movement of goods and labor around the world In *Drug Wars* cultural critic Curtis Marez
 examines two hundred years of writings graphic works films and music that both demonize and celebrate the commerce in
 cocaine marijuana and opium providing a bold interdisciplinary exploration of drugs in the popular imagination Ranging from
 the writings of Sigmund Freud to pro drug lord Mexican popular music gangsta rap and Brian De Palma s 1983 epic *Scarface*
Drug Wars moves from the representations and realities of the Opium Wars to the long history of drug and immigration
 enforcement on the U S Mexican border and to cocaine use and interdiction in South America Middle Europe and among
 American Indians Throughout Marez juxtaposes official drug policy and propaganda with subversive images that challenge
 and sometimes even taunt government and legal efforts As Marez shows despite the state s best efforts to use the media to
 obscure the hypocrisies and failures of its drug policies be they lurid descriptions of Chinese opium dens in the English
 popular press or Nancy Reagan s Just Say No campaign marginalized groups have consistently opposed the expansion of
 state power that drug traffic has historically supported Curtis Marez is assistant professor of critical studies at the University
 of Southern California School of Cinema Television The American Tyler-keystone ,1922 *Michigan Christian Advocate*
