Higher Education Challenges, Choices and Consequences OECD,2020-06-18 Investment in higher education in OECD countries has increased substantially over the last 20 years as a result of higher enrolment increasing costs government priorities related to skills and research and innovation Faced with economic and fiscal challenges public authorities across the OECD need now more than ever to make thoughtful decisions about how to mobilise allocate and manage financial and human resources in higher education *The Transformational Potential of Higher Education Inclusion* Jesús Humberto Pineda Olivieri,2017 In the field of higher education research one of the most fascinating observations is the consistent and permanent expansion of higher education systems worldwide since the end of the Second World War Undoubtedly the predominant approach to address these developments has been through quantitative analysis as well as international comparisons The following work examines the particularities of the Venezuelan context with the aim of identifying specific features of this worldwide phenomenon in this South American case Through a combination of qualitative methods the author proposes a biographical approach for the study of higher education inclusion processes which takes into account the

perspectives and experiences of those who have been targeted by an ambitious higher education expansion process The most distinctive feature of this work would be its methodological contribution to the field of higher education research One could also argue that the ethnographic account of the Bolivarian Missions of education in Chavez's Venezuela is both original and unprecedented Furthermore the writing approach bridges the interests of both academics practitioners of the field and members of the general public

The Politics of Public Higher Education Tom Anderes, 2019-10-08 The Politics of Public Higher Education Strategic Decisions Forged From Constituency Competition Cooperation and Compromise is the third in a set of three books that provides higher education leaders faculty and system and institutional planners a reality based view of decision making in higher education The focus is on how issues and related problems are translated into strategic initiatives that become the basis for leadership solutions How the decisions are arrived at is very much influenced by the constituencies within higher education such as faculty staff students and institutional leaders and their interaction with those external to higher education like a governor and legislators The interactions are political On one level they represent the internal politics of higher education constituencies seeking to highlight their priorities and on another level they represent the external politics of elected officials and their representatives seeking support from the public There is often substantial conflict and competition to gain advantages in funding or as an organizational priority In this book we assess the politics within and between the internal and external parties and how those politics should be defined within any strategic planning process The Strategic Decision

Making Model SDMM is applied to help identify and resolve problems The model consists of six components that ensure that all constituencies are heard and that alternative solutions recognize the key variables necessary to guide a leader's final choices The six model components are strategic thinking as an organizational mentality maximizing the amounts and quality of data and information for comprehensive reporting scanning the future globally implementing comprehensive strategic planning supporting transparency of process and decision making and using a framework to consistently assess all planning issues strategies and outcomes

Higher Education Act of 1965 United States. Congress. Senate. Committee on Labor and Public Welfare. Subcommittee on Education, 1965 **American Higher Education in Crisis?** Goldie

Blumenstyk, 2014-09-15 American higher education is at a crossroads Technological innovations and disruptive market forces are buffeting colleges and universities at the very time their financial structure grows increasingly fragile Disinvestment by states has driven up tuition prices at public colleges and student debt has reached a startling record high of one trillion dollars Cost minded students and their families and the public at large are questioning the worth of a college education even as study after study shows how important it is to economic and social mobility And as elite institutions trim financial aid and change other business practices in search of more sustainable business models racial and economic stratification in American higher education is only growing In *American Higher Education in Crisis* What Everyone Needs to Know Goldie Blumenstyk who has been reporting on higher education trends for 25 years guides readers through the forces and trends that have brought the education system to this point and highlights some of the ways they will reshape America's colleges in the years to come Blumenstyk hones in on debates over the value of post secondary education problems of affordability and concerns about the growing economic divide Fewer and fewer people can afford the constantly increasing tuition price of college Blumenstyk shows and yet college graduates in the United States now earn on average twice as much as those with only a high school education She also discusses faculty tenure and growing administrative bureaucracies on campuses considers new demands for accountability such as those reflected in the U S Department of Education's College Scorecard and questions how the money chase in big time college athletics revelations about colleges falsifying rankings data and corporate style presidential salaries have soured public perception Higher education is facing a serious set of challenges but solutions have also begun to emerge Blumenstyk highlights how institutions are responding to the rise of alternative educational opportunities and the new academic and business models that are appearing and considers how the Obama administration and public organizations are working to address questions of affordability diversity and academic integrity She addresses some of the advances in technology colleges are employing to attract and retain students outlines emerging competency based programs that are reshaping conceptions of a college degree and offers readers a look at promising innovations that could alter the higher education landscape in the near future An extremely timely and focused look at this embattled and evolving arena this primer emphasizes how open ended the conversation about higher education's future remains and

illuminates how big the stakes are for students colleges and the nation

Interdisciplinarity and Problem-Based

Learning in Higher Education Annie Aarup Jensen, Diana Stentoft, Ole Ravn, 2019-09-14 This book addresses the relation between Problem Based Learning PBL and interdisciplinarity and challenges the often implicit assumption that PBL leads to interdisciplinarity by default The book examines theoretical and philosophical aspects of PBL and interdisciplinary learning The first part of the book conceptualises the notions of problem based learning and interdisciplinary learning and highlights some key overlaps and ways of conceiving of their interrelatedness It discusses the role of problem based medical education in relation to interdisciplinary professionalism in medical education Taking the reader into the realm of techno anthropology the book discusses the role of problems and projects in transgressing disciplines and presents an analysis of three challenges facing new students when entering interdisciplinary and problem based higher education The second part of the book focuses on practicing interdisciplinarity in problem based higher education It explores how the construction of problems in interdisciplinary PBL projects can be seen from the perspectives of multicultural groups and examines group processes in interdisciplinary PBL projects It concludes by taking a closer look at student practices in interdisciplinary PBL and at how students are positioned and position themselves in the complex transdisciplinary PBL project

Unintended

Consequences of Internationalization in Higher Education Shahrzad Kamyab, Rosalind Latiner Raby, 2023-02-08 By presenting case studies of internationalization in institutions of higher education around the world this volume identifies unforeseen or unintended impacts within and across countries With contributions from Africa Asia Europe Latin America Middle East and North America the volume considers the nature and origin of positive and negative unintended consequences of internationalization policy and practice in national contexts while also offering uniquely comparative insights Chapters consider how internationalization is reflected in curricula teaching research and mobility initiatives to highlight common pitfalls as well as best practice for effective sustainable and equitable internationalization globally Using a critical lens the book explores how internationalization offers opportunities for learning for entrepreneurial change and for knowledge dissemination and generates paradoxes and dilemmas in terms of political and ethical issues for individuals communities and the institutions themselves Foregrounding the study of internationalization in countries not typically studied this book is a valuable resource for researchers and academics with an interest in internationalization comparative and international education and the sociology of education

Shaping Work-Life Culture in Higher Education Laura Koppes Bryan, Cheryl A. Wilson, 2014-07-11 *Shaping Work Life Culture in Higher Education* provides strategies to implement beneficial work life policies in colleges and universities As compared to the corporate sector higher education institutions have been slow to implement policies aimed at fostering diversity and a healthy work life balance which can result in lower morale job satisfaction and productivity and causes poor recruitment and retention Based on extensive research this book argues that an effective organizational culture is one in which managers and supervisors recognize that professional and

personal lives are not mutually exclusive With concrete guidelines recommendations techniques and additional resources throughout this book outlines best practices for creating a beneficial work life culture on campus and documents cases of supportive department chairs and administrators A necessary guide for higher education leaders this book will inform administrators about how they can foster positive work life cultures in their departments and institutions
