Higher Learning And Catholic Traditions:

Higher Learning & Catholic Traditions Robert E. Sullivan, 2001 This is the inaugural volume in the Erasmus Institute Books series Founded in 1997 the institute strives to build bridges between Catholic thought and secular scholarship by encouraging the application of Catholic intellectual traditions to research in the humanities and social sciences including the arts and professional fields such as law The institute also supports parallel work grounded in the intellectual traditions of other Christian faiths of Judaism and of Islam The essays in this volume began as papers delivered at a conference on Higher Learning and Catholic Traditions held at the University of Notre Dame in October 1999 In *Higher Learning and Catholic Traditions* a number of distinguished academics from various disciplines and different religious convictions present their views on the complex relations between some important aspects of Catholic thought and modern academic culture and knowledge The contributors discuss the development of specialized disciplines the fragmentation of academic knowledge and the apparent isolation of Christian intellectual traditions from the discourse of the modern university More tellingly some of the contributors also subvert t Catholic Higher Education Melanie Morey, John Piderit, 2010-05-28 Today Catholic colleges and universities are dealing with critical questions about what constitutes Catholic collegiate identity Based on their research Morey and Piderit describe the present situation and offer concrete suggestions for enhancing Catholic identity culture and mission at all Catholic colleges and universities The authors define the critical issues and analyze and address them by using the rich construct of culture particularly organizational culture and they provide four different models of how Catholic colleges and universities can operate and successfully compete as religiously distinctive institutions in the higher education market **Catholic Higher Education in America** Edward J. Garcia, 2012-08-31 There are currently no books on Catholic higher education that offer a theological foundation for academic freedom This book presents a theologically grounded understanding of academic freedom that builds on extends and completes the prevailing secular understanding for Catholic higher education **The Future of Catholic Higher Education** James Heft, 2021 After many years of scholarship administrative experience and leadership in Catholic higher education James Heft has written a book

CHRISTIAN HIGHER EDUCATION Christopher Toote, 2022 History recounts that the least memorable period for Christian higher education had

been from 1920 to 1960 when numerous church affiliated institutions followed the state universities and elite private institutions in the movement toward secularization Research indicates that significant numbers of colleges begin with a Christ centered mission but change their original intent to quasi secularization or secularization This book examines the mission of Christian colleges in an effort to understand the shift from Christian to secularized foundation by exploring participants from the founding membership colleges of the Council of Christian Colleges and Universities CCCU and ten other colleges or universities that were once Christ centered and are now secularized The author used a qualitative research approach to examine the mission statements of Christian colleges by exploring participants from the founding membership colleges of the Council of Christian Colleges and Universities CCCU and ten other colleges and universities that have shifted to secularization The objective was to discover why Christian colleges changed their Christian mission to secularization and determine the necessary components for Christian colleges to remain true to the original intent of their establishment This is a fundamentally sound reliable historical resource
