Gracias a mi investigación personal logré evitar muchos problemas de la menopausia que siempre han afectado a todas las mujeres de mi familia. No es casualidad que la antigua medicina china considere la menopausia como la segunda primavera de la mujer. Cuando la menopausia se vive bien y no se obstaculiza el cambio energético que desencadena libera la energía de la mujer que estaba dedicada al objetivo natural de la procreación para otros fines muy interesantes que te invito a descubrir. Estrategias para Recordar tus Sueños Anna Mancini, 2018-03-25. La historia de Aladín y la maravillosa lámpara se relaciona con el antiguo conocimiento de los sueños y la psiquis. Esto significa que podemos hacer muchas cosas a través de los sueños. Por ejemplo encontrar un objeto perdido tener noticias de personas desaparecidas distantes o en estado de coma ver su futuro ser alertado antes de que ocurran desastres naturales o accidentes comunicarse con un hijo que aún está en el vientre administrar mejor la salud física emocional y energética. Al contrario de lo que muchas personas imaginan no es difícil lograr estos resultados basta solo soñar bien y de forma natural. Cuando comencé a enseñar mis descubrimientos sobre los sueños al público no pensé que tantas personas me dijeran que no sueñan nunca soñaron o recuerdan ocasionalmente sus sueños y sobretodo sus pesadillas. Gracias a estas personas a quienes les hubiera gustado disfrutar de todos los beneficios de los sueños pero que no les recuerdan me di cuenta de que se necesita también enseñar a la gente métodos para recuperar la capacidad de recordar los sueños. Este libro está destinado a todos aquellos que dicen que nunca sueñan o que dejaron de soñar y que desean disfrutar de los poderes de los sueños y del subconsciente para vivir mejor su vida y desarrollarse personalmente. En este libro explico lo que bloquea el recuerdo de los sueños y cómo superar estos bloqueos de forma natural. Mi enfoque del fenómeno de los sueños es muy diferente de los enfoques habituales. Tiene en cuenta al ser humano como un todo cuerpo mente energía vital condiciones materiales comida y en sus intercambios con los demás y con su entorno material. Mi enfoque no es ni psicoanalítico ni religioso. Es necesariamente espiritual porque no es posible observar durante más de veinticinco años los vínculos entre los sueños y la realidad de las personas sin descubrir toda la dimensión espiritual del ser humano.
