America's Military Adversaries John C. Fredriksen, 2001-12-05 This work chronicles the lives and accomplishments of over 200 enemies who have fought plotted spied on and in some instances defeated U S forces over the past three centuries Books on American

military heroes abound But this book is the first to focus on America's talented enemies the generals admirals Indian chiefs and warriors submarine captains fighter pilots and spies who opposed the United States with military force or other means Often these military leaders were among the best minds of their times For more than two centuries the new nation's most constant military opponents were the Native Americans led by such capable chiefs as American Horse and Little Wolf Under D Iberville Canada's French colonialists became formidable foes but they were soon surpassed by the rigorously disciplined redcoats of Great Britain under Howe and Cornwallis Ironically the most effective enemies in the history of the United States were not the leaders of foreign military forces like Mexico's Santa Anna Japan's Yamamoto or Vietnam's Vo Nguyen Giap They arose from among its own citizens during the Civil War the bloodiest conflict in American history

Hitler's Ostkrieg and the Indian Wars Edward B. Westermann, 2016-10-13 As he prepared to wage his war of annihilation on the Eastern Front Adolf Hitler repeatedly drew parallels between the Nazi quest for Lebensraum or living space in Eastern Europe and the United States's westward expansion under the banner of Manifest Destiny The peoples of Eastern Europe were he said his redskins and for his colonial fantasy of a German East he claimed a historical precedent in the United States's displacement and killing of the native population Edward B Westermann examines the validity and value of this claim in Hitler's Ostkrieg and the Indian Wars The book takes an empirical approach that highlights areas of similarity and continuity but also explores key distinctions and differences between these two national projects The westward march of American empire and the Nazi conquest of the East offer clear parallels not least that both cases fused a sense of national purpose with racial stereotypes that aided in the exclusion expropriation and killing of peoples Westermann evaluates the philosophies of Manifest Destiny and Lebensraum that justified both conquests the national and administrative policies that framed Nazi and U S governmental involvement in these efforts the military strategies that supported each nation's political goals and the role of massacre and atrocity in both processes Important differences emerge a goal of annihilation versus one of assimilation and acculturation a planned military campaign versus a confused strategy of pacification and punishment large scale atrocity as routine versus massacre as exception Comparative history at its best Westermann's assessment of these two national projects provides crucial insights into not only their rhetoric and pronouncements but also the application

of policy and ideology on the ground His sophisticated and nuanced revelations of the similarities and dissimilarities between these two cases will inform further study of genocide as well as our understanding of the Nazi conquest of the East and the American conquest of the West
