Gert Fram:

Maps in a Mirror Orson Scott Card, 2009-11-30 Maps in a Mirror brings together nearly all of Orson Scott Card's short fiction written between 1977 and 1990. For those readers who have followed this remarkable talent since the beginning here are all those amazing stories gathered together in one place with some extra surprises as well. For the hundreds of thousands who are newly come to Card here is chance to experience the wonder of a writer so versatile that he can handle everything from traditional narrative poetry to modern experimental fiction with equal ease and grace. The brilliant story telling of the Alvin Maker books is no accident; the breathless excitement evoked by the Ender books is not a once in a lifetime experience. In this enormous volume are forty-six stories plus ten long intensely personal essays unique to this volume. In them the author reveals some of his reasons and motivations for writing with a good deal of autobiography into the bargain. One of the genre's most convincing storytellers. An important volume. Library Journal. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Gert Fram Nancy Allen Black, 1991 *The First Formic War* Orson Scott Card, Aaron Johnston, 2017-02-14 This discounted ebundle includes The First Formic War Trilogy by bestselling authors Orson Scott Card and Aaron Johnston. Earth Unaware, Earth Afire, Earth Awakens. One hundred years before Ender Wiggin decisively defeated the alien formics in Ender's Game, a pulse-pounding tale of first contact gone horribly wrong, Ender's Game opens in the last desperate days of Earth's war against the implacable insectoid aliens. We are told early on that the Battle School is training generals for the Third Formic War, the war that will end the war; the Earth will finally defeat the Buggers. This is the story of the First Formic Wars, back when humans thought they were alone in the galaxy. Humanity was slowly making their way out from Earth to the planets and asteroids of the Solar System, exploring and mining and founding colonies. Then a ship's telescopes pick up a fast-moving object coming in system. Earth Unaware. When mining ship El Cavadore's telescopes pick up a fast-moving object coming in system, it's hard to know what to make of it. It's massive and moving at a significant fraction of the speed of light. But the ship has other problems. Their systems are old and failing. Worrying about a distant object that might or might not be an alien ship seems not important. Earth Afire. Victor Delgado beats the alien ship to Earth but not soon enough to convince skeptical governments that there was a threat. That is until space stations and ships and colonies went up in sudden flame. And when that happened, only Mazer Rackham and the Mobile Operations Police could organize in time to meet the threat. Earth Awakens. Politics slowed the response on Earth and on Luna; corporate power struggles seemed more urgent than distant deaths. It's up to Mazer Rackham's squad in China who have developed a method to destroy the alien landers one by one, and Lem Jukes and his crew on the Moon who may have the key to destroying the Formic mother ship in orbit.
