Get It Done! Ian McMahan,1996 American Book Publishing Record ,1997 **Bibliographic Guide to Psychology** New York Public Library. Research Libraries,1997 *The Cumulative Book Index* ,1998 A world list of books in the English language **Visible Learning: The Sequel** John Hattie,2023-03-20 When the original Visible Learning was published in 2008 it instantly became a publishing sensation Interest in the book was unparalleled it sold out in days and was described by the TES as revealing teaching s Holy Grail Now John Hattie returns to this ground breaking work The research underlying this book is now informed by more than 2 100 meta analyses more than double that of the original drawn from more than 130 000 studies and has involved more than 400 million students from all around the world But this is more than just a new edition This book is a sequel that highlights the major story taking in the big picture to reflect on the implementation in schools of Visible Learning how it has been understood and at times misunderstood and what future directions research should take Visible Learning The Sequel reiterates the author s desire to move beyond claiming what works to what works best by asking crucial questions such as Why is the current grammar of schooling so embedded in so many classrooms and can we improve it Why is the learning curve for teachers after the first few years so flat How can we develop teacher mind frames to focus more on learning and listening How can we incorporate research evidence as part of the discussions within schools Areas covered include The evidence base and reactions to Visible Learning The Visible Learning model The intentional alignment of learning and teaching strategies The influence of home students teachers classrooms schools learning and curriculum on achievement The impact of technology Building upon the success of the original this highly anticipated sequel expands Hattie s model of teaching and learning based on evidence of impact and is essential reading for anyone involved in the field of education either as a researcher teacher student school leader teacher trainer or policy maker

teachers pupils and parents *Handbook of Research on Student Engagement* Sandra L. Christenson, Amy L. Reschly, Cathy Wylie, 2012-02-23 For more than two decades the concept of student engagement has grown from simple attention in class to a construct comprised of cognitive emotional and behavioral components that embody and further develop motivation for learning Similarly the goals of student engagement have evolved from dropout prevention to improved outcomes for lifelong learning This robust expansion has led to numerous lines of research across disciplines and are brought together clearly and comprehensively in the Handbook of Research on Student Engagement The Handbook guides readers through the field's rich history sorts out its component constructs and identifies knowledge gaps to be filled by future research Grounding data in real world learning situations contributors analyze indicators and facilitators of student engagement link engagement to motivation and gauge the impact of family peers and teachers on engagement in elementary and secondary grades Findings on the effectiveness of classroom interventions are discussed in detail And because assessing engagement is still a relatively new endeavor chapters on measurement methods and issues round out this important resource Topical areas addressed in the Handbook include Engagement across developmental stages Self efficacy in the engaged learner Parental and social influences on engagement and achievement motivation The engaging nature of teaching for competency development The relationship between engagement and high risk behavior in adolescents Comparing methods for measuring student engagement An essential guide to the expanding knowledge base the Handbook of Research on Student Engagement serves as a valuable resource for researchers scientist practitioners and graduate students in such varied fields as clinical child and school psychology educational psychology public health teaching and teacher education social work and educational policy

**Opportunities on improving student motivation at all levels of education** Julien S. Bureau, Frédéric Guay, Woon Chia Liu, Katrien De Cocker, 2023-09-26 **The Power of Implicit Theories for Learning in Different Educational Contexts** Yves Karlen, Silke Hertel, 2021-12-20 *Homework, Learning and Academic Success: The Role of Family and Contextual Variables* Antonio Valle, Susana Rodríguez, Pedro Rosário, Mar Lorenzo Moledo, 2020-02-24 The main purpose of this Research Topic is to analyze and identify the main family and contextual variables that are involved in the process of carrying out homework This will require studying the role played by teachers students and families in order to ensure that schoolwork is a useful learning tool Although the role of the student is obviously crucial in homework research has focused on the cumulative time spent by the student carrying out homework However the time spent on homework is not in itself evidence of the student's involvement nor is time spent indicative of quality time Indeed an excess of time can sometimes denote low competence in a field of knowledge while spending less time on homework could be indicative of high competence It is more likely that a high dedication of time spent on homework reflects high motivation or comprehension deficits rather than commitment to learning or academic motivation In tandem with the role of the student teachers as responsible for prescribing homework assignments for students also become central players in the process of completing homework

assignments The decisions that teachers make about homework prescriptions and the amount and type of tasks they set will determine to a large extent the quality of the homework process including the student's motivation and the student's level of engagement with homework Furthermore the fact that homework is useful interesting and motivating for students will depend on how the teacher prescribes those tasks and the connection established with classroom learning Teacher feedback also acquires particular relevance for this point by helping the students to accurately estimate the quality of their progress and overcome the difficulties they may have encountered in carrying out their homework Lastly the effectiveness of teacher feedback depends on its contribution to the student's educational progress and how that student will perform in the future In addition to the student who performs the task and the teacher who prescribes and corrects it we must not lose sight of parents' role Although there are discrepancies regarding the role that parents play in relation to homework it is evident that their implication has important consequences not only on the final result of those tasks but also on the very process of carrying them out Everything seems to indicate that the family environment and more specifically the support and feedback provided by parents is a factor that can determine the involvement of students in school duties In this way providing emotional support encouraging children to get involved can contribute positively to improving their motivation and interest in the performance of homework The objective of this Research Topic is to provide researchers and professionals in psychology and education settings with some of the most recent empirical evidence regarding the homework process its prescription and correction Overall we aim to cease making homework a source of conflict and controversy at the socio-educational level in order to provide useful instruments for improving the quality of student learning This work was developed with the financing of the research projects EDU2013 44062 P MINECO EDU2017 82984 P MEIC
