**Endorsements in Advertising** Kerry Segrave,2015-01-24 The use of endorsements and testimonials to sell anything imaginable is a modern development though the technique is centuries old Before World War I endorsement ads were tied to patent medicine and were left with a bad reputation when that industry was exposed as quackery The reputation was well

earned claims of a product's curative powers sometimes ran opposite the endorser's obituary and Lillian Russell once testified that a certain compound had made her feel like a new man. Distrusted by the public, banished from mainstream publications, endorsements languished until around 1920 but returned with a vengeance with the growth of consumerism and modern media. Despite its questionable effectiveness, endorsement advertising is now ubiquitous, costing advertisers and consequently consumers hundreds of millions of dollars annually. This exploration of modern endorsement advertising paid or unsolicited testimonials endorsing a product follows its evolution from a marginalized, mistrusted technique to a multibillion dollar industry. Chapters recount endorsement advertising's changing form and fortunes from Lux Soap's co-opting of early Hollywood to today's lucrative industry dependent largely on athletes. The social history of endorsement advertising is examined in terms of changing ethical and governmental views, shifting business trends, and its relationship to the growth of modern media, while the money involved and the question of effectiveness are scrutinized. The illustrated text includes five appendices that focus on companies, celebrities, athletes, and celebrity endorsements.

The authors draw not only from management and marketing research but also from other disciplines such as cultural media studies and sociology to offer a rounded and critical perspective on the subject for those looking to achieve high grades and understand advertising as a social phenomenon in addition to its business function and purpose. New to the third edition: chapter on strategy and creativity; additional case studies with increased global coverage including emerging markets; images of classic and recent ads from the street, print, online, and television; increased coverage of the internet, social media, and their effects on advertising; companion website materials including relevant videos, journal articles, and a Jeopardy-style game for the classroom. The textbook is now also supported by a new author-written blog which keeps readers updated on interesting, topical examples relating to advertising and promotion from current affairs and popular culture.
