 the entities people programs etc that are actively engaged in processes S BPM has become one of the most widely discussed  
 approaches for process professionals Its potential particularly lies in the integration of advanced information technology with  
 organizational and managerial methods to foster and leverage business innovation operational excellence and intra and inter  
 organizational collaboration Thus S BPM can also be understood as a stakeholder oriented and social business process

 communication and synchronization problems involving humans and or machines in an organization All the activities needed  
 in order to implement a business process are shown step by step it starts by analyzing the problem continues with modeling
