Frankenstein his very name conjures up images of plundered graves secret laboratories electrical experiments and reviving the dead Within these pages the maddest doctor of them all and his demented disciples once again delve into the Secrets of Life as science fiction meets horror when the world s most famous creature lives again The Mammoth Book of Frankenstein collects together for the first time twenty four electrifying tales of cursed creation that are guaranteed to spark your interest with classics from the pulp magazines by Robert Bloch and Manly Wade Wellman modern masterpieces from Ramsey Campbell Dennis Etchison Karl Edward Wagner David J Schow and R Chetwynd Hayes and contributions from Graham Masterson Basil Copper John Brunner Guy N Smith Kim Newman Paul J McAuley Roberta Lannes Michael Marshall Smith Daniel Fox Adrian Cole Nancy Kilpatrick Brian Mooney and Lisa Morton Plus you re sure to get a charge from three complete novels The Hound of Frankenstein by Peter Tremayne The Dead End by David Case and Mary W Shelley s original masterpiece Frankenstein or The Modern Prometheus As an electrical storm rages overhead the generators are charged up and beneath the sheet a cold form awaits its miraculous rebirth Now it s time to throw that switch and discover all that Man Was Never Meant to Know [Annihilation](#) Mark Levene, 2013-12-19 From the years leading up to the First World War to the aftermath of the Second Europe experienced an era of genocide As well as the Holocaust this period also witnessed the Armenian genocide in 1915 mass killings in Bolshevik and Stalinist Russia and a host of further ethnic cleansings in Anatolia the Balkans and Eastern Europe Crisis of Genocide seeks to integrate these genocidal events into a single coherent history

Over two volumes Mark Levene demonstrates how the relationship between geography nation and power came to play a key role in the emergence of genocide in a collapsed or collapsing European imperial zone the Rimlands and how the continuing geopolitical contest for control of these Eastern European or near European regions destabilised relationships between diverse and multifaceted ethnic communities who traditionally had lived side by side An emergent pattern of toxicity can also be seen in the struggles for regional dominance as pursued by post imperial states nation states and would be states Volume II Annihilation covers the period from 1939 to 1953 particularly focussing on the Second World War and its aftermath the Holocaust and its lasting impact and the latter part of the Stalinist regime Levene demonstrates that while the attempted Nazi mass murder of the entirety of European Jewry represents the most thoroughgoing and extreme consequence of efforts aimed at political and social reformulation of the Rimlands arena in particular the accumulation and concentration of genocidal violence against many minority groups would suggest that anti Semitism or racism alone is insufficient to provide a comprehensive explanation for genocide
