High Adventure 43:

Three Revolutions Simon Hall, 2025-07-01 A salve for our current reactionary times ANDREW HARTMAN The gripping untold story of how six epic journeys launched the three communist revolutions that changed world history forever From the streets of Petrograd during the heady autumn of 1917 to Mao's stunning victory in October 1949 and Fidel's triumphant arrival in Havana in January 1959 the history of the twentieth century was transformed in dramatic and profound ways by the Russian Chinese and Cuban revolutions In *Three Revolutions* the stories of these epoch defining events are told together for the first time At the heart of each revolution was an epic journey Lenin's 1917 return to Russia from exile in Switzerland Mao's Long March of 1934-35 covering some 6 000 miles across China and Fidel Castro's return to Cuba in 1956 following his exile in Mexico Told in tandem with these are the corresponding journeys of three extraordinary journalists John Reed Edgar Snow and Herbert L Matthews whose electric testimony from the frontlines of each revolution would make a decisive contribution to how these revolutions were understood in the wider world Here in Simon Hall's masterful retelling these six remarkable journeys are brought vividly to life Featuring a stellar cast extraordinary drama and an epic sweep *Three Revolutions* raises fundamental questions about the nature of political power the limits of idealism and the role of the journalist questions that remain of utmost urgency today *HCA Comics and Comic Art Auction Catalog #7021, Dallas, TX*

Rickels,2020 Critique of Fantasy Vol 1 Between a Crypt and a Date Mark addresses both the style or genre of fantasy and the mental faculty long the hot property of philosophical ethics Freud passed it along in his 1907 essay on the poetics of daydreaming when he addressed omnipotent wish fantasy as the source and resource of the aspirations and resolutions of art which however the artwork can never look back at or acknowledge By grounding his genre in the one fantasy that is true the Gospel J R R Tolkien obviated and made obvious the ethical mandate of fantasy s restraining order With George Lucas s Star Wars we entered the borderlands of the fantasy and science fiction genres a zone resulting from and staggering a contest which Tolkien inaugurated in the 1930s The history of this contested borderland marks changes that arose in expectation of what the new media held in store changes realized but outside the box of what had been projected upon the arrival of the unanticipated digital relation which at last seemed to award the fantasy genre the contest prize Freud s notion of the Zeitmarke datemark the indelible impress of the present moment that triggered the daydream that denies it already introduced the import of fantasy s historicization Science fiction won a second prize that keeps it in the running No longer bound to projecting the future the former calling which in light of digitization it flunked science fiction becomes allegorical and reading in the ruins of its failed predictions illuminates all the date marks and crypts hiding out in the borderlands it traverses with fantasy To motivate the import of an evolving science fiction genre Critique of Fantasy

Telling the Untold Story Steve Weinberg, 1992 Author of his own controversial unauthorized biography of Armand Hammer Steve Weinberg here shows how a new generation of biographers is revealing the lives of powerful individuals in dramatic and important new ways Trained as investigative journalists today's writers have entered a domain once dominated by university scholars Unlike their more academic predecessors who often wrote nonjudgmental books on the public lives of long dead individuals these new biographers are willing to tackle such powerful living subjects as Nancy Reagan Henry Kissinger Hugh Hefner Pete Rose and Fidel Castro Few of these books are adoring Without cooperation from their subjects and sometimes under threat of lawsuit these writers are probing into private lives and enabling readers to make up their own minds about public figures Tracing the evolution of the craft of biography up to the present day Weinberg draws on interviews with some of today's best biographers as well as his own experience with the Hammer biography to highlight the careers of some of the writers whose work exploded the boundaries of traditional biography When Robert Caro became the first journalist to win a Pulitzer Prize for Biography for his book on Robert Moses it marked the dawn of a new approach to the craft Weinberg also explores the techniques of Philadelphia *Inquirer* journalists Donald Barlett and James Steele whose jointly authored biographies of Howard Hughes and Nelson Rockefeller mark another sign of how far the genre of biography has come The book is enriched by samples of investigative biography at its best including a scathingly honest profile of the reigning queen of unauthorized biography Kitty Kelley and Calvin Trillin's fascinating *New Yorker* profile of the *Miami Herald*'s inimitable police reporter Edna Buchanan The living of a life is more difficult than the chronicling of it but the chronicling is certainly no simple task writes Weinberg Telling somebody else's life fully fairly and compellingly is probably an impossible task But it is important to keep pushing the limits of the possible For writers reviewers publishers and general readers *Telling the Untold Story* is a fascinating look at how a new kind of biographer has forever changed our expectations of the genre and continues to push biography to exciting new limits
