*High Priests, Quantum Genes* Michael Hayes, 2004 Michael Hayes makes a wide ranging journey through religious experience astrophysics spiritualism molecular biology quantum physics and history *The Future of Everything* David Orrell, 2008-02-26 Hurricane Katrina the internet stock bubble disease outbreaks are these predictable preventable events or are we merely the playthings of chaos A compelling irreverent elegantly written history of our future that addresses the most important issues of our time Apollo's Arrow examines such questions as How well can we predict the future Can past discoveries help us understand tomorrow's weather patterns or tell us what our financial future will look like Will scientists ever be able to forecast catastrophes or will we always be at the mercy of Mother Nature waiting for the next storm epidemic or economic crash to thunder through our lives David Orrell looks back to show us how past scientists and some charlatans predicted the future and where we are on the path to truly understanding what comes next He asks how today's scientists can claim to predict future climate events when even three day forecasts prove a serious challenge Can we predict and control epidemics Can we accurately foresee our financial future Or will we only find out about tomorrow when tomorrow arrives

**Critical Approaches to Science and Religion** Myrna Perez Sheldon, Ahmed Ragab, Terence Keel, 2023-03-21 *Critical Approaches to Science and Religion* offers a new direction for scholarship on science and religion that examines social political and ecological concerns long part of the field but never properly centered The works that make up this volume are not preoccupied with traditional philosophical or theological issues Instead the book draws on three vital schools of thought critical race theory feminist and queer theory and postcolonial theory Featuring a diverse array of contributors it develops critical perspectives by examining how histories of empire slavery colonialism and patriarchy have shaped the many relationships between science and religion in the modern era In so doing this book lays the groundwork for scholars interested in speaking directly to matters such as climate change structural racism immigration health care reproductive justice and sexual identity Religion, Science and the Modern World Robert Charles Wallace, 1952

**The Chase for Zero Gravity** Rolf Sjöström,2019-09-12 For the first time an explanation is provided to the driving force behind the four natural forces gravitational force magnetism and the two types of intra atomic nuclear forces The consistent and coherent theory sought by scientists working on the field paves also the way to a logical explanation for the forces behind electricity and for those we call for chemical bonds In the latter an explanation to something that controls the formation of all molecules why atoms try to have 8 electrons on their outer shell is provided Because everything is connected we get also an explanation to phenomena such as the tunnel effect Cooper pair superconductor and super liquid are In addition the book shows that the photon does not exist and further that it does not need to exist to explain changes in an atom's weight observed upon fusions fissions And the cosmic background radiation despite all the fancy details scientific research has given us is nothing but waves and noise from the Ocean of Strings It is this Ocean together with islands of stars and planets that forms our Universe See and understand the comprehensive picture of the reality The book presents a clear and well defined picture where all the puzzle pieces find their place A picture of which only parts of the outside have been revealed so far with the help of mathematical formulas figures and graphs based on among others Lorentz's factor a factor that according to the book should have never been given a stage The photon does not exist The Big Bang never happened And the Emperor does indeed have no new clothes *Bulletin - Council on the Study of Religion* Council on the Study of Religion,1978

**Balancing God, Science, and Technology in the End Times** Juanita Werrett,2021-04-19 It is critical in this day of discovery and augmented scientific knowledge that we come to an accurate balance of understanding between foundational science and foundational religion We are facing a technology that is moving at enormous speed We need to understand the precarious status of humans as we enter and live through the future technology era that is upon us Humanity could be negatively affected by technology either unintentionally or by design As we move forward ethical and moral decisions will be confronted as to how we manage AI artificial intelligence robots avatars and the huge data gathering process associated with the tech industries being formulated at this moment Controversy will rage but solutions will percolate The truth is you and I are the product in the new global technology paradigm and our

information will feed AI the data eating beast Pandora's box is open Science and technology are leapfrogging forward at an exponential pace There is no mechanism to stop it except God God's children are weighted and wired for spiritual success True doctrines and ordinances of the Gospel of Christ fortify faith and give Christians hope in His return Spiritual development and power comes to those who are prepared and willing to stand with Christ The fuller blessings may be ours in spite of the underlying challenges Perhaps it is fortunate that we live in the fullness of time and the fast approaching premillennial era The righteous will be saved in life or death Some may be blessed to witness the glorious Second Coming of the Savior

*Don't Go to College* Timothy Gordon, Michael Robillard, 2022-08-02 An examination of how America's colleges have become an intellectual hell on Earth for anyone who wishes to think rationally and seek truth and wisdom as well as a plan for how young citizens can claim and safeguard the learning and heritage to which they are entitled From safe spaces and trigger warnings to grievance studies and neo Marxist indoctrination to sexual degeneracy and hook up culture to student loan indentured servitude to useless degrees with no translatable real world application the modern day American university now functions as the complete inversion of its original purpose Rather than creating civically minded competent citizens and adults able to provide for themselves their families and their society America's universities now function as institutional assembly lines for the production of the new 21st century global citizen serf atomized infantilized dependent and pacified This book provides the definitive diagnosis of what exactly happened to America's universities while giving the reader a blueprint for how young citizens parents and local communities alike can safeguard escape and begin resisting such pernicious indoctrination and illogical woke nonsense

*The Dynamics and Contradictions of Evangelisation in Africa* Peter Acho Awoh,2011 This book critically discusses missionary Christianity and colonization in Africa as twin enterprises with a common ambition While the colonialist set out to invest capital and reap profit the missionary desire was to tend and turn African souls from damnation It was this desire that drove the missionaries into the interior propelled by the belief that no land was too remote to escape their attention and vigilance It equally kept missionary zeal buoyant The clarification of the concept of salvation within the Roman Catholic Church during the Vatican II Council set in motion the current lethargy that has in some places crippled the mission itself In retrospect one can begin to wonder why Africans became Christians What reasons motivated the early adherents to cling to this foreign religion Were there some internal deficiencies in African traditional religions which the Africans hoped to remedy by joining the new religion Or was it just part of the wholesale flirting with whatever was foreign and perceived to be modern What baits were used by the missionaries to entice Africans Christianity posed a danger to many of the time honoured answers to African problems These were the values Africans converting to Christianity were expected to abandon Why have Christians continually returned to their abandoned roots in time of crisis This moving well argued richly documented and empirically substantiated study concludes by cautioning against the stubborn drive at radical conversion to Christianity with scant regard to the imperatives of enculturation **Intersex, Theology, and the Bible** Susannah Cornwall,2016-01-26

Intersex bodies have been figured as troubling by doctors parents religious institutions and society at large In this book scholars draw on constructive and pastoral theologies biblical studies and sociology suggesting intersex s capacity to trouble is positive challenging unquestioned norms and assumptions in religion and beyond **New Scientist and Science**
