The London, Edinburgh and Dublin Philosophical Magazine and Journal of Science ,1910 **Philosophical Magazine** ,1910 *Women in Presidential Cabinets* Maria C. Escobar-Lemmon,Michelle M. Taylor-Robinson,2016-07-01 Though parity is still rare presidential cabinets contain more women than ever before Who are these women and what types of political capital resources do they bring to the administration Are they new types of political players or very much like the men who have traditionally run the government And once they gain office are they treated equally in the cabinet Do they have the capacity to be as effective as their male counterparts Drawing on data from five presidential democracies Argentina Chile Colombia Costa Rica and the United States *Women in Presidential Cabinets* examines the backgrounds connections and credentials of all full rank cabinet ministers in presidential administrations over the course of two decades to determine if women and men bring similar numbers and diversity of political capital resources to the administration Maria C Escobar Lemmon and Michelle M Taylor Robinson find that with a few notable exceptions presidents select men and women with similar work and education backgrounds political experience and linkages to related interest groups There are however differences across types of posts and countries They evaluate the treatment and effectiveness of similarly credentialed male and female ministers on four benchmarks Specifically they examine whether women with equal qualifications can really obtain all posts or whether glass ceilings persist in some areas They then turn to the ability of women to hold onto a post considering the nature and circumstances surrounding their departures from office and how long they remain in office In doing so they uncover evidence that female ministers in Latin America stand on an unequal playing field when it comes to the ability to enact policy through legislation Ultimately Escobar

Lemmon and Taylor Robinson show conclusively that while women lack numerical equality they are no longer tokens instead appearing positioned to exercise power at the highest levels within the executive branch **Federal Register** ,2013
