**Kundalini** Pandit Gopi Krishna, 2019-03-07 What happened to me that early morning during the Christmas of 1937 changed the course of my life and outlook I sat in a small room in a house on the outskirts of Jammu I was meditating Practice had accustomed me to sit in the same posture for hours without discomfort and as I sat breathing slowly and rhythmically my attention was drawn towards the crown of my head contemplating an imaginary lotus in full bloom radiating light I sat unmoving and erect My whole being was so engrossed in the contemplation of the lotus that for several minutes I lost touch with my body and surroundings The only object of which I was aware was a lotus of brilliant colour emitting rays of light During a spell of intense concentration I suddenly felt a strange sensation below the base of the spine at the place touching the seat while I sat cross legged on a folded blanket spread on the floor The sensation was so extraordinary and pleasing that my attention was forcibly drawn towards it My heart beat wildly and I found it difficult to bring my attention to the required degree of fixity The sensation extended upwards growing in intensity Then suddenly with a roar like that of a waterfall I felt a stream of liquid light entering my brain through the spinal cord What had happened to me Was I hallucinating Or had I by some strange fate succeeded in experiencing the Transcendental I had read glowing accounts written by learned men of great benefits resulting from concentration and of the miraculous powers acquired by yogis through meditation Was there after all really some truth in the repeated claims of the sages and ascetics of India made for thousands of years that it was possible to apprehend reality in this life if one practised meditation in a certain way Little did I realize that from that day onwards I was never to be my old normal self again I had unwittingly and without adequate knowledge roused to activity the most powerful power in man I had stepped unknowingly upon the key to the most guarded secret of the ancients and thenceforth for a long time I had to live suspended by a thread swinging between life and death between sanity and insanity between lights and darkness between heaven and earth An extraordinary autobiographical account of what happens in the mind and body when Kundalini gets spontaneously aroused one of the clearest journals documenting spiritual transformation and mental evolution onto a higher plane of consciousness Higher Consciousness

**Seminal Retention and Higher Consciousness** J. J. Semple, 2015-06-14 Higher consciousness and sexual sublimation diverting sexual energy to the brain are inextricably linked in most of the world's meditation methods especially those that target Kundalini activation So where does seminal retention fit in Seminal retention techniques can be used by male practitioners who want to continue sexual relations without the loss of psychic fuel derived from semen and without suffering the deleterious effects associated with ejaculation Seminal Retention and Higher Consciousness JJ Semple, 2015-05-25 Higher consciousness and sexual sublimation diverting sexual energy to the brain are inextricably linked in most of the world's meditation methods So where does seminal retention fit in Seminal retention techniques can be used by male practitioners who want to continue sexual relations without the deleterious effects linked to ejaculating While best meditation practices dictate renouncing ejaculation and sexual relations seminal retention techniques do provide a compromise for males not able or not willing to give up sex In the East people have always known about the connection between higher consciousness and what goes on below the waist Seminal Retention and Higher Consciousness The Sexology of Kundalini explores this connection and its sexological implications First there's a limited amount of semen in the male body Neither you nor I can change this it's a biological fact Second although you can't replenish what's been lost you can conserve what's left Today it's

understandable that young vital individuals working on kundalini activation techniques want to maintain a normal sex life. Formerly the only way to avoid the deleterious physiological effects linked to ejaculation was to avoid sex altogether after activating kundalini. That is not acceptable to this generation. The sex drive is too powerful to simply put it on the back burner in favor of abstinence or abstention. Today's seekers want instant gratification free license to ejaculate at will at the same time they pursue higher consciousness. Fortunately there is a way to reconcile the two: a series of seminal retention techniques I discovered after activating kundalini. But before revealing these secret techniques let's examine some of the effects various authorities on kundalini had to deal with. First Gopi Krishna writing in 1977: "At the present time we can say that perhaps twice a week to once in two weeks would be a safe measure for indulgence in the sexual act. This is of absolute importance for those who would like to awaken the Serpent Power. On one occasion after months of abstention I prematurely had a contact with my wife. The next moment because the energy did not come up to feed the brain I seemed to sink into a pit of horror and terror so much so that I thought that if nothing happened to save me from this terrible situation I would die. People realize these mistakes when they are sixty or seventy years old. There have been many cases in which men of advanced age have repented the folly of their youth." Second, before I mastered retention techniques I discovered first hand how much the brain needs the elixir and I wrote about it in *Deciphering the Golden Flower: One Secret at a Time*. "My head is imploding and the elixir is being summoned to my brain for life support. I curl up in a fetal position. To no avail my nerves are like an electrical fire searing the very conduits that enclose them and there isn't enough elixir to cool them. Certainly if I try to lead a normal sex life I'll simply exhaust my resources. I can feel the elixir waning and as Gopi Krishna put it: a tongue of golden flame searching my stomach for food. I learned the hard way but you don't have to. Not if you take the time to master the techniques discussed in this book. Yes I suffered bouts of physical pain like the ones described above that led me to seek and ultimately find techniques that not only allowed me to continue sexual relations but also allowed me and my partners to experiment with new pleasures. In ancient times sex relations and higher consciousness were a no-no. Today seekers want both. And they can have them within reason. The biology hasn't changed. Kundalini still needs the energy. But if you can control the energy as it surges up the spine into the brain and not allow it to flow out you can navigate the tricky waters between sublimation and ejaculation."
