Second Grade Geometry Success (Sylvan Workbooks) Sylvan Learning, 2011-01-18 A solid foundation of basic geometry skills is essential for early success in math. Children who have a solid understanding of two and three dimensional shapes, symmetry, patterns, and location concepts will be ready for the challenges of mathematics as they advance to more complex topics. The activities in this workbook are designed to help your children catch up, keep up, and get ahead. Best of all, they'll have lots of fun doing it. Some of the great features you'll find inside are: Neighborhood Walk: After practicing shapes, children walk through the house, yard, or neighborhood finding things shaped like circles, rectangles, triangles, and octagons. Later, they look for spheres, rectangular prisms, cylinders, and cones. Robot Repair: Children draw a line from each robot head to a correct body or from each robot to its missing parts by distinguishing the shapes. Farm Fences: Farmer Green wants to put fences around all of the animal areas of his farm. Children calculate the perimeter of the areas to determine how much fencing material Farmer Green needs to buy. Dance Floor: Robin and Roscoe are looking for a light up dance floor for their dance party. All of the dance floors have the same area, so children help determine the one with the largest perimeter. Plus Game Pieces: The workbook includes pentomino pieces, pattern blocks, and tangram pieces for children to cut out and use with games, make patterns, and solve tangram puzzles. Give your child's confidence in math a boost with 2nd Grade Geometry Success.

The activities in this workbook are designed to help your children catch up, keep up, and get ahead. Best of all, they'll have lots of fun doing it. Some of the great features you'll find inside are: Hidden Word: After writing the names of shapes, students unscramble circled letters to solve a riddle. Puzzling Patterns: To practice patterns, a large grid pattern has missing pieces, and students must match sets of shapes to the place where they belong. Shape Up: Students determine the number of vertices, edges, and faces of common objects such as boxes, buildings, and more. Picture Perfect: To reinforce symmetry, students draw the missing half of different items such as letters, shapes, and faces. Plus Game Pieces: The workbook includes pentomino and tangram pieces for students to cut out and use with games, make patterns, and solve tangram puzzles. Give your child's confidence in math a boost with 3rd Grade Geometry Success.
