Vinay, 2001-11-28 This volume contains the proceedings of the 21st international conference on the Foundations of Software Technology and Theoretical Computer Science FSTTCS 2001 organized under the auspices of the Indian Association for Research in Computing Science IARCS This year's conference attracted 73 submissions from 20 countries Each submission was reviewed by at least three independent referees In a departure from previous conferences the final selection of the papers making up the program was done through an electronic discussion spanning two weeks without a physical meeting of the Program Committee PC Since the PC of FSTTCS is distributed across the globe it is very difficult to fix a meeting whose time and venue is convenient for a substantial fraction of

the PC Given this it was felt that an electronic discussion would enable all members to participate on a more equal footing in the selection All reviews scores and comments were posted on a secure website with a mechanism for making updates and automatically sending notifications by email to relevant members of the PC All PC members participated actively in the discussion The general feedback on the arrangement was very positive so we hope to continue this in future years We had ve invited speakers this year Eric Allender Sanjeev Arora David Harel Colin Stirling and Uri Zwick We thank them for having readily accepted our invitation to talk at the conference and for providing abstracts and even full papers for the proceedings
