*Theatres in Los Angeles* Suzanne Tarbell Cooper, Amy Ronnebeck Hall, Marc Wanamaker, 2008 Los Angeles and the movies grew up together and a natural extension of the picture business was the premium presentation of the product the biggest best and brightest theatres imaginable The magnificent movie palaces along Broadway in downtown Los Angeles still represent the highest concentration of vintage theatres in the world With Hollywood and the movies practically synonymous the theatres in the studios neighborhood were state of the art for showbiz whether they were designed for film vaudeville or stage productions From the elegant Orpheum and the exotic Grauman's Chinese to the modest El Rey this volume celebrates the architecture and social history of Los Angeles's unique collection of historic theatres past and present The common threads that connect them all from the grandest movie palace to the smallest neighborhood theatre are stories and the ghosts of audiences past waiting in the dark for the show to begin

**The White Headhunter** Nigel Randell, 2013-08-22 Shanghaied in San Francisco in 1868 teenage Scots sailor Jack Renton then found himself on a voyage into the heart of darkness Escaping from his floating prison in an open whaleboat Renton drifted for 2000 miles only to be washed up on the shores of a Pacific island shunned by 19th century mariners Malaita in the Solomon Islands There he was stripped of his clothes by headhunters and forced to go native to survive Initially a slave to their chief Kabou he eventually became the man's most trusted warrior and adviser Renton's own account of his eight year exile published after he was rescued remains the only authenticated account of a mental and physical ordeal that still haunts the imagination to this day It caused a sensation at the time though it is now clear that it airbrushed out most of the key events Researching the Renton legend Nigel Randell spent several years talking to the Malaitans and piecing together a very different account from Renton's sanitised version The ultimate irony is that a man so keen to conceal his crimes should have bequeathed their evidence a necklace of 60 human teeth to a collector who donated it to a national museum

**Progress in Statistical Mechanics Research** Javier S. Moreno,2008 Statistical mechanics is the application of probability theory which includes mathematical tools for dealing with large populations to the field of mechanics which is concerned with the motion of particles or objects when subjected to a force It provides a framework for relating the microscopic properties of individual atoms and molecules to the macroscopic or bulk properties of materials that can be observed in everyday life therefore explaining thermodynamics as a natural result of statistics and mechanics classical and quantum at the microscopic level In particular it can be used to calculate the thermodynamic properties of bulk materials from the spectroscopic data of individual molecules This ability to make macroscopic predictions based on microscopic properties is the main asset of statistical mechanics over thermodynamics Both theories are governed by the second law of thermodynamics through the medium of entropy

Simak,2018-12-18 A collection of masterpieces from a Hugo and Nebula Award winning Grand Master of Science Fiction who has never written a bad book Theodore Sturgeon The Big Front Yard and Other Stories Handyman Hiram likes things he can understand and fix But he has a true mystery on his hands when a new ceiling appears in his basement a ceiling with the ability to repair televisions so they re better than before Winner of the Hugo Award for Best Novelette The Big Front Yard is a powerful story about what happens when an ordinary man finds reality coming apart around him Along with the other stories in this collection it is some of the most lyrical science fiction ever published To read science fiction is to read Simak A reader who does not like Simak stories does not like science fiction at all Robert A Heinlein Time Is the Simplest Thing Space travel has been deemed too dangerous and expensive and now the Fishhook company holds a

monopoly on interstellar exploration using telepaths who can expand their minds throughout the universe But when Fishhook employee Shepherd Blaine is implanted with a copy of an alien consciousness he becomes something more than human and soon there is no safe place for him to hide This Hugo Award finalist is a richly imagined tale of prejudice corporate greed oppression and ultimately transcendence Simak is the most underrated great science fiction writer alive and has never written a bad book Theodore Sturgeon *The Goblin Reservation* In this unabashedly tongue in cheek novel Professor Peter Maxwell of the College of Supernatural Phenomena is murdered but he s even more dismayed when he turns up at a matter transmission station several weeks later and discovers he s not only dead but also unemployed This alternate Maxwell soon learns he s being used as a vessel by a strange alien race to carry knowledge of remarkable technology back to Earth and it seems someone does not want the information shared The finest novel in a merry mood that Simak has yet given us Fritz Leiber This brilliant volume represents the genre at its very best reaffirming that without Simak science fiction would have been without its most humane element its most humane spokesman for the wisdom of the ordinary person and the value of life lived close to the land James Gunn
