**Fourteenth Century Verse Prose (Classic Reprint)** Kenneth Sisam,2015-07-20 Excerpt from Fourteenth Century

Verse Prose Two periods of our early history promise most for the future of English literature the end of the seventh with the eighth century the end of the twelfth century with the thirteenth In the first a flourishing vernacular poetry is secondary in importance to the intellectual accomplishment of men like Bede and Alcuin to name only the greatest and the last of a line of scholars and teachers who drawing their inspiration from Ireland and still more from Italy direct made all the knowledge of the time their own and learned to move easily in the disciplined forms of Latin prose During the second the impulse again came from without In twelfth century France the creative imagination was set free In England which from the beginning of the tenth century had depended more and more on France for guidance the nobles clergy and entertainers in whose hands lay the fortunes of literature had a community of interest with their French compeers that has never since been approached So England shared early in the break with tradition and during the thirteenth century the native stock is almost hidden by the brilliant growth of a new graft Every activity of the mind was quickened A luxuriant invention of forms distinguished the Gothic style in architecture All the decorative arts showed a parallel enrichment About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      *Fourteenth*
