**Sadlier's Dominion Fourth Reader**, 1891      Rome's Holy Mountain Jason Moralee, 2018 Rome's Holy Mountain is the first book to chart the history of the Capitoline Hill in Late Antiquity from the third to the seventh centuries CE. It investigates both the lived in and dreamed of realities of the hill in an era of fundamental political, religious, and social change.      **The Roman Martyrs** Michael Lapidge, 2018 The Roman Martyrs contains translations of forty Latin *passiones* of saints who were martyred in Rome or its near environs during the period before the peace of the Church c. 312. Some of the Roman martyrs are universally known, e.g., Agnes, Sebastian, or Laurence, for example, but others are scarcely recognized outside the ecclesiastical landscape of Rome itself. Each of the translated *passiones* is accompanied by an individual introduction and commentary; the translations are preceded by an Introduction which describes the principal features of this little-known genre of Christian literature and are followed by five Appendices which present translated texts which are essential for understanding the cult of Roman martyrs. This volume offers the first collection of the Roman *passiones* translated into a modern language. They were mostly composed during the period 425-675 by anonymous authors who were presumably clerics of the Roman churches or cemeteries which housed the martyrs' remains. It is clear that they were composed in response to the explosion of pilgrim traffic to martyrial shrines from the late fourth century onwards, at a time when authentic records, protocols of their trials and executions had long since vanished and the authors of the *passiones* were obliged to imagine the circumstances in which martyrs were tried and executed. The *passiones* are works of fiction, and because they abound in ludicrous errors of chronology, they have been largely ignored by historians of the early Church. Although they cannot be used as evidence for the original martyrdoms, they nevertheless allow a fascinating glimpse of the concerns which animated Christians during the period in question, for example, the preservation of virginity or the ever-present threat posed by pagan practices. As certain aspects of Roman life will have changed little between the second century and the fifth, the *passiones* shed valuable light on many aspects of Roman society, not least the nature of a trial before an urban prefect and the horrendous tortures which were a central feature of such trials. The *passiones* are an indispensable resource for understanding the topography of late antique Rome and its environs, as they characteristically contain detailed reference to the places where the martyrs were tried, executed, and buried.      *Rome's Italian Wars* Livy, 2013-04-04 People have it in their minds that he would have been a match for Alexander had Alexander turned his arms on Europe. So Livy characterizes Papirius Cursor, one of Rome's famous generals in the fourth century BC. In Books 6 to 10 of his monumental history of Rome, Livy deals with the period in which Rome recovered from its Gallic disaster to impose mastery over almost the entire Italian peninsula in a series of ever greater wars. Along with Papirius, Livy paints vivid portraits of other notable figures such as Camillus who rescued the city from its Gallic captors in 390, young Manlius Torquatus, victor in a David versus Goliath duel with a Gallic chieftain, and Appius Claudius who built Rome's first major highway, the Appian Way. Livy's blend of

factual narrative and imaginative recreation brings to life a critical era for the rise of Rome and Books 6 to 10 of his work are the one complete account we have as the city passes from myth and legend into the increasing light of reliable history John Yardley's fluent translation is accompanied by an introduction and notes that set Livy in the context of Roman historiography The complete Livy in English available in five volumes from Oxford World's Classics ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

**The CGIAR at 31**, 2004 The Consultative Group on International Agricultural Research CGIAR was established in 1971 to support the Rockefeller and Ford Foundations in funding four international agricultural research centres in Colombia Mexico Nigeria and the Philippines As the first global programme to receive grants from the World Bank's net income the CGIAR now consists of 16 autonomous international centres with a membership of 62 countries including 24 developing and transition economies This report evaluates the work of CGIAR and makes several recommendations to address the future challenges it faces in promoting agricultural research

**Rome's Third Samnite War, 298-290 BC** Mike Roberts, 2020-03-30 The Third Samnite War 298-290 BC was a crucial episode in the early history of Rome Upon its outcome rested mastery of central Italy and the independent survival of both Rome and the Samnites Determined to resist aggressive Roman expansion the Samnites forged a powerful alliance with the Senones a tribe of Italian Gauls Etruscans and Umbrians The result was eight years of hard campaigning brutal sieges and bitter battles that stretched Rome to the limit The desperate nature of the struggle is illustrated by the ritual self sacrifice *devotio* by the Roman consul Publius Decimus Mus at the Battle of Sentinum 295 BC which restored the resolve of the wavering Roman troops and by the Samnite Linen Legion at the Battle of Aquilonia 393 BC each man of which was bound by a sacred oath to conquer or die on the battlefield Mike Roberts who has travelled the Italian landscape upon which these events played out mines the sources which are more reliable he argues than for Rome's previous wars to produce a compelling narrative of this momentous conflict

*Nuclear Science Abstracts*, 1972 *Roman Children's Sarcophagi* Janet Huskinson, 1996 This book is the first major study of the themes which were used in the decoration of sarcophagi made for children in Rome and Ostia from the late first to early fourth century AD It provides a selective catalogue of examples of each type followed by discussion of how these fit into the general pattern This allows certain themes to be identified which are virtually exclusive to children's sarcophagi The second part of the book discusses the choice of subjects and how these reflect the standing of children in Roman society to what extent for instance was childhood shown as a differentiated stage of life or was it dominated by aspirations of the adult world How is the death of a child treated in art There are separate sections on the role of workshops and customers in the development of child specific imagery and on material from the early Christian era providing some

interesting differences resulting from differing attitudes towards children and beliefs about life and death     Hope Against Hope Nadezhda Mandelstam, 2023-11-14 Nadezhda Mandelstam's memoir of life with her husband the poet Osip Mandelstam is a vital eyewitness account of Stalin's Soviet Union and one of the most moving testaments to the value of literature and imaginative freedom ever written In 1933 Osip Mandelstam 1891-1938 wrote a satiric poem about Joseph Stalin and the result of his defiance was arrest interrogation and exile followed by re-arrest and death in a transit camp of the Siberian gulag In 1938 Osip's wife Nadezhda 1899-1980 loyally accompanied him into exile in the Urals and later worked courageously to rescue the manuscripts of his poems and to discover the truth about his death Hope Against Hope is her harrowing account of their last years together and a window into Stalin's persecution of Russia's literary intelligentsia in the 1930s and beyond But it is also a profoundly inspiring love story that relates their determination to keep both love and art alive in the most desperate circumstances After years of circulating privately in the Soviet Union Hope Against Hope was smuggled out and published in the West in 1970 and has since achieved the status of a classic not only for its essential testimony to a dramatic period of history but also for the enduring brilliance of Mandelstam's writing Everyman's Library pursues the highest production standards printing on acid-free paper with full cloth cases with two-color foil stamping decorative endpapers silk ribbon markers European style half-round spines and a full-color illustrated jacket Contemporary Classics include an introduction a select bibliography and a chronology of the author's life and times     Building Mid-Republican Rome Seth Bernard, 2018-08-16 Building Mid-Republican Rome offers a holistic treatment of the development of the Mid-Republican city from 396 to 168 BCE As Romans established imperial control over Italy and beyond the city itself radically transformed from an ambitious central Italian settlement into the capital of the Mediterranean world Seth Bernard describes this transformation in terms of both new urban architecture much of it unprecedented in form and extent and new socioeconomic structures including slavery coinage and market exchange These physical and historical developments were closely linked building the Republican city was expensive and meeting such costs had significant implications for urban society Building Mid-Republican Rome brings both architectural and socioeconomic developments into a single account of urban change Bernard a specialist in the period's history and archaeology assembles a wide array of evidence from literary sources to coins epigraphy and especially archaeological remains revealing the period's importance for the decline of the Roman state's reliance on obligation and dependency and the rise of slavery and an urban labor market This narrative is told through an investigation of the evolving institutional frameworks shaping the organization of public construction A quantitative model of the costs of the Republican city walls reconstructs their economic impact A new account of building technology in the period allows for a better understanding of the social and demographic profile of the city's builders Building Mid-Republican Rome thus provides an innovative synthesis of a major Western city's spatial and historical aspects shedding much needed light on a seminal period in Rome's development     *Fisheries Review* ,1986     *The Peoples*

of *Ancient Italy* Gary D. Farney, Guy Bradley, 2017-11-20 Although there are many studies of certain individual ancient Italic groups e g the Etruscans Gauls and Latins there is no work that takes a comprehensive view of each of them the famous and the less well known that existed in Iron Age and Roman Italy Moreover many previous studies have focused only on the material evidence for these groups or on what the literary sources have to say about them This handbook is conceived of as a resource for archaeologists historians philologists and other scholars interested in finding out more about Italic groups from the earliest period they are detectable early Iron Age in most instances down to the time when they begin to assimilate into the Roman state in the late Republican or early Imperial period As such it will endeavor to include both archaeological and historical perspectives on each group with contributions from the best known or up and coming archaeologists and historians for these peoples and topics The language of the volume is English but scholars from around the world have contributed to it This volume covers the ancient peoples of Italy more comprehensively in individual chapters and it is also distinct because it has a thematic section **The Changing Landscapes of Rome's Northern Hinterland** Helen Patterson, Robert Witcher, Helga Di Giuseppe, 2020-09-03 This study presents a new regional history of the middle Tiber valley as a lens through which to view the emergence and transformation of the city of Rome from 1000 BC to AD 1000 Setting the ancient city within the context of its immediate territory the authors reveal the diverse and enduring links between the metropolis and its hinterland Politics and culture in international history Adda BrÅ¼mmer Bozeman, **Daniel** Colin Chapman, 2025-04-17 To say that Daniel is a difficult book would be an understatement We can easily be seduced by seemingly intelligent but actually misguided interpretations of Daniel s esoteric visions Or we can be tempted to just give up trying to understand them There is a better way In this informed and readable book Colin Chapman guides us towards making good sense of the Book of Daniel Far from being impenetrable or irrelevant Chapman shows us how to hear its important message for the people of God today Participation of the United States Government in International Conferences Including the Composition of United States Delegations and Summaries of the Proceedings United States.
