advent of literary modernism **Filaments: Theological Profiles** David Tracy, 2020-04-10 Collected essays spanning five decades imposing structure on a set of reflections from one of the most visionary and expansive living theologians Journal of the American Academy of Religion In the second volume of his two volume collection of essays from the 1980s to 2018 renowned Catholic theologian David Tracy gathers profiles of significant theologians philosophers and religious thinkers These essays he suggests can be thought of in terms of Walt Whitman s filaments which are thrown out from the speaking self to others ancient medieval modern and contemporary in order to be caught elsewhere Filaments arranges its subjects in rough chronological order from choices in ancient theology such as Augustine through the likes of William of St Thierry in the medieval period and Martin Luther and Michelangelo in the early modern and finally to modern and contemporary thinkers including Bernard Lonergan Paul Tillich Simone Weil Karl Rahner Reinhold Niebuhr and Iris Murdoch Taken together these essays can be understood as a partial initiation into a history of Christian theology defined by Tracy s key virtues of plurality and ambiguity Marked by surprising insights and connections Filaments brings the work of one of North America s most important religious thinkers once again to the forefront To read Filaments is to be educated and enriched by a remarkable breadth of inquiry and depth of analysis Tracy s passion for theological conversation is fueled by a desire for justice and peace but also by wonder at the unending love and creativity of God Critical Theology **Fragments** David Tracy, 2020-04-06 David Tracy is widely considered one of the most important religious thinkers in North America known for his pluralistic vision and disciplinary breadth His first book in more than twenty years reflects Tracy s range and erudition collecting essays from the 1980s to 2018 into a two volume work that will be greeted with joy by his admirers and praise from new readers In the first volume Fragments Tracy gathers his most important essays on broad theological questions beginning with the problem of suffering across Greek tragedy Christianity and Buddhism The volume goes on to address the Infinite and the many attempts to categorize and name it by Plato Aristotle Rilke Heidegger and others In the remaining essays he reflects on questions of the invisible contemplation hermeneutics and public theology Throughout Tracy evokes the potential of fragments understood both as concepts and events to shatter closed systems and open us to difference and Infinity Covering science literature philosophy psychoanalysis and non Western religious traditions Tracy provides in Fragments a guide for any open reader to rethink our fragmenting contemporary culture Global Fragments Eduardo Mendieta, 2012-02-01 Global Fragments offers an innovative analysis of globalization that aims to circumvent the sterile dichotomies that either praise or demonize globalization Eduardo Mendieta applies an interdisciplinary approach to one of the most fundamental experiences of globalization the mega urbanization of humanity The claim that globalization unsettles our epistemic maps of the world is tested against a study of Latin America Mendieta also recontextualizes the work of three major theorists of globalization Enrique Dussel Cornel West and Jürgen Habermas to show how their thinking reflects engagement with central problems of globalization and conversely how globalization itself is exemplified through the

reception of their work Beyond the epistemic hubris of social theories that seek to accept or reject a globalized world Mendieta calls for a dialogic cosmopolitanism that departs from the mutuality of teaching and learning in a world that is global but not totalized *Creativity and Critique* Glenda Ballantyne,2007 Constructing a dialogue between the social theory of Alain Touraine and the philosophy of Paul Ricoeur this work locates the wellsprings of the renewed interpretative powers of Touraine s recent sociology of the subject and critique of modernity in an implicit and unfinished but unmistakable hermeneutical turn

Cosmic Fragments Asif A. Siddiqi,2025-05-20 Looking beyond the well trodden celebratory narratives of space exploration and the powerful nostalgia of lunar landings Cosmic Fragments focuses instead on the moral ambiguities of spaceflight Beyond the fetishization of machines men and manifest destiny and the Cold War tensions of the space race lies a history rife with violence racial inequity colonial ambitions and catastrophe This volume yields new insights on the crucial role of environmental damage Indigenous dispossession population displacements infrastructural entanglements and narratives of decline in space exploration situated within larger questions in the history of science technology and the environment Each chapter explores histories of space travel across nations and regions to better understand the destructive power of infrastructure waste and exploitative legal regimes at the height of the space age Drawing from postcolonial science studies science and technology studies and anthropology contributors suggest that phenomena designed to disenfranchise and dislocate such as the displacement of Indigenous peoples were deeply imbedded in the coloniality of space travel By confronting and challenging problematic early accounts rooted in the cultural mores of settler colonialism Cosmic Fragments offers a fundamental repositioning of the history of spaceflight

God, the Gift, and Postmodernism John D. Caputo,Michael J. Scanlon,1999-12-22 Pushing past the constraints of postmodernism which cast reason and religion in opposition God the Gift and Postmodernism seizes the opportunity to question the authority of the modern and open the limits of possible experience including the call to religious experience as a new millennium approaches Jacques Derrida the father of deconstruction engages with Jean Luc Marion and other religious philosophers to entertain questions about intention givenness and possibility which reveal the extent to which deconstruction is structured like religion New interpretations of Kant Heidegger Husserl and Derrida emerge from essays and discussions with distinguished philosophers and theologians from the United States and Europe The result is that God the Gift and Postmodernism elaborates a radical phenomenology that stretches the limits of its possibility and explores areas where philosophy and religion have become increasingly and surprisingly convergent Contributors include John D Caputo John Dominic Crossan Jacques Derrida Robert Dodaro Richard Kearney Jean Luc Marion Frangoise Meltzer Michael J Scanlon Mark C Taylor David Tracy Merold Westphal and Edith Wyschogrod

Fragments of the City Colin McFarlane,2021-10-05 Cities are becoming increasingly fragmented materially socially and spatially From broken toilets and everyday things to art and forms of writing fragments are signatures of urban worlds and provocations for change In Fragments of the City Colin McFarlane examines

City and Modernity in Georg Simmel and Walter Benjamin Vincenzo Mele,2023-01-10 This book reconstructs and compares the social theories of modernity of Georg Simmel and Walter Benjamin two classic thinkers in German social thought The author focuses on five main topics the historical sociological method through which they investigate modernity how are the concepts of history and society possible the consequences of modern metropolis on the construction of individual subjectivity the aestheticization of everyday life caused by the expansion of commodity culture and the female culture as a counter power to the domination of masculine objective culture In the decades since Simmel and Benjamin urban reality has undergone profound changes and we may even question the very existence of the subject of analysis what is the city the metropolis in today s context of globalization and capital flows Simmel s and Benjamin s metropolis has thus become an endless city beyond the physical and geographical confines of urban reality

Social Theory and Regional Studies in the Global Age Saïd Amir Arjomand,2014-05-19 In this pioneering volume leading international scholars argue for the development of a new approach to social theory that draws on regional studies for the conduct of comparative analysis in the global age Social Theory and Regional Studies in the Global Age moves beyond facile generalizations based on the historical experience of modernization in the West by highlighting differences rather than similarities and contrasts rather than commonalities and by examining civilizational processes and culturally specific developmental patterns distinctive of different world regions Essays combine comparative and historical sociology with civilizational analysis and the study of multiple and alternative modernities Different patterns of modernization are compared within the framework of global local compressed communication and interaction that results from globalization The introductory chapter puts the present effort in the context of the seminal work of three generations of comparative sociologists and what follows is a penetrating analysis of modernization and globality opening the way for rectifying the erasure of the historical experience of a very sizeable portion of humankind from the foundation of social theory

cultural product mediated by modernist art and writing spotlights a key moment of reception which has shaped how we present and consume antiquity today *The Fragment* William Tronzo, 2009 The universe may well have begun with an immense act of fragmentation the big bang that sent particles flying in all directions to perform spectacular acts of creation and destruction The fragment volatile and unpredictable is not simply the static part of a once whole thing but itself something in motion Drawing upon art history archaeology literature numismatics philosophy and film this book explores the significance of the fragment and addresses the powerful drives that have impelled it into the cultural mainstream Book jacket

Routledge Revivals: In Modernity's Wake (1989) Michael Phillipson, 2017-02-17 First published in 1988 this book attempts to tackle the problem of how to write about art culture and the issues of postmodernism in a style appropriate to what is being claimed The letters are written on art's behalf to a range of institutions and individuals and have as their recurring concern the relation between art culture and representation both art as representation and how art is represented to and for the surrounding culture They explore the context and viability of art through a range of themes including writing the aestheticisation of everyday life style design pleasure fragmentation hyphenation technology and the museum drawing on materials from the visual arts music literature post structuralism contemporary criticism philosophy and sociology
