Fragments Tunisiens:

The Lost Libraries of Tunis Laura Hinrichsen, 2024-08-19 Only little is known about the book culture of Tunis although the city had been a centre for teaching and learning throughout af id rule in Ifr qiya c 1230 to 1574 The libraries of Tunis are considered lost since the sack of the city by the armies of the emperor Charles V in the summer of 1535 This study reconstructs for the first time the original holdings of Tunis medieval libraries and shows what can still be learned from these recovered fragments An in depth analysis of a wide range of texts and artefacts shows that the af id libraries were looted and their collections redistributed mostly among European collectors The Lost Libraries of Tunis brings Early Modern scholarship on Arabic texts and language into context by utilising the manuscripts from Ifr qiya as a source to map the interest in and scholarship on Arabic manuscripts in Early Modern Europe With an art historical and sociohistorical interpretation of the reconstructed manuscript corpus The Lost Libraries of Tunis challenges views accepted among Islamic art historians and describes a dynamic and vivid regional book culture of the Maghreb embedded in the wider Arabic manuscript tradition precisely showing strong interaction and exchange

under the French T. Wemyss Reid, 2025-03-02 In *The Land of the Bey Being Impressions of Tunis Under the French* T. Wemyss Reid presents a vivid and insightful portrayal of Tunisia during the French colonial period Through his eloquent prose Reid intricately weaves together observations of local customs landscapes and the socio-political climate encapsulating a time of significant transformation His literary style is marked by a blend of travel writing and ethnographic exploration allowing readers to immerse themselves in the rich tapestry of Tunisian life while offering critical reflections on imperialism and cultural exchange This work occupies an important place within the genre of colonial narratives as it reveals the complexities of cross-cultural interactions in an era of European expansionism T. Wemyss Reid was a contemporary observer whose experiences in North Africa informed his perspective as an author His background as a journalist and his keen interest in foreign lands propelled him to explore Tunisia an area then emerging under French influence Reid's encounters with both the indigenous population and the colonial forces enabled him to provide a nuanced critique of colonialism as well as a celebration of Tunisian heritage This book is highly recommended for readers interested in historical accounts of colonialism travel literature and cultural studies Reid's reflections offer essential insights that remain relevant today inviting readers to consider the lasting impacts of colonial narratives while celebrating the vibrant culture of Tunis **Egypt in 1855 and**

Revolutions Hèla Yousfi, 2017-08-07 This book traces the role of the UGTT the Tunisian General Labour Union during Tunisia's 2011 revolution and the transition period that ensued Tunisia being the Arab country where trade unionism was the strongest and most influential in shaping the outcomes of the uprising The UGTT From its role as the cornerstone of the nationalist movement in the colonial era has always had a key place in Tunisian politics not so much a labour union but as an organisation that has always linked social struggles to political and national demands Examining the role played by the UGTT

in Tunisia's revolution and more generally in the restructuring of the Tunisian political arena during the three years following the popular uprising. This book asks searching questions such as how did UGTT interact with the popular uprising that led to the departure of Ben Ali. What was the role played by the UGTT in the political transition leading to the adoption on January 26, 2014, of the first democratic constitution in the country's history? How successful was the UGTT in neutralizing the risk of self-implosion caused by the different political and social crises? And what are the challenges that the UGTT faces in the new political landscape? This volume will be of key reading interest to scholars and researchers of social movements, labour movements, organizational studies, political transitions, and Arab revolutions, and also likely to be of interest to practitioners, especially among activists, unionists, and advocates within civil society.
