France Observed:

The History of France, from the Earliest Times to the Accession of Louis the Sixteenth; with Notes, Critical and Explanatory; by J. G. John GIFFORD (pseud. [i.e. John Richard Green.]), 1793 *France and the Grand Tour* J. Black, 2003-04-15 In this innovative study of the Grand Tour Black relies on archival sources to provide an exploration of the real tourist experience rather than as for the majority of studies of the Grand Tour an account that is essentially based on travel literature While sensitive to wider cultural dimensions the author demonstrates his interest in the experience of tourists particularly the circumstances they encountered and the impact of the Grand Tour on British Society **Punch** Mark Lemon, Henry Mayhew, Tom Taylor, Shirley Brooks, Francis Cowley Burnand, Owen Seaman, 1861 **The History of Modern Europe** William Russell, 1836 pt.I. From the rise of the modern kingdoms to the peace of Westphalia, in 1648 William Russell, 1857 *The History of Modern Europe. With an Account of the Decline and Fall of the Roman Empire, and a View of the Progress of Society from the Rise of Modern Kingdoms to the Peace of Paris, in 1763. In a Series of Letters from a Nobleman to His Son. A New Edition Enlarged, Etc* William RUSSELL (LL.D., Historical Writer.), 1786 **Shell Shocked** G r me Truc, 2018-02-09 What is it that leaves us shell shocked in the face of the massacres carried out in New York on 9 11 or in Paris on 13 November 2015 How are we to explain the intensity of the reaction to the attacks on Charlie Hebdo Answering these questions involves trying to understand what a society goes through when it is subjected to the ordeal of terrorist attacks And it impels us to try to explain why millions of people feel so concerned and shaken by them even when they do not have a direct connection with any of the victims In Shell Shocked sociologist G r me Truc sheds new light on these events returning to the ways in which ordinary individuals lived through and responded to the attacks of 9 11 of 11 March 2004 in Madrid and 7 July 2005 in London Analysing political language and media images demonstrations of solidarity and minutes of silence as well as the tens of thousands of messages addressed to the victims his investigation brings about the complexity of our feelings about the Islamists attacks It also uncovers the sources of the solidarity that in our individualistic societies ultimately finds expression in the first person singular rather than the first person plural I am Charlie I am Paris This timely and path breaking book will appeal to students and scholars in sociology and politics and to anyone interested in understanding the impact of terrorism in contemporary societies **History of the French Revolution** Christopher Kelly, 1831 **Fiery Dragons** Sean Turnell, 2009 This book tells the story of Burma s financial system of its banks moneylenders and microfinanciers from colonial times to the present day It argues that Burma s financial system matters and that the careful study of this system can tell us something more general about Burma not least about how the richest country in Southeast Asia at the dawn of the twentieth century became the poorest at the dawn of the twenty first While financial systems and institutions matter in all countries Turnell argues that they especially count in Burma as events in the financial and monetary sphere have been unusually spectacularly prominent in Burma s turbulent modern history The

story of Burma's financial system and its players is one that has shaped the country. It is a dramatic story of interest beyond the confines of economics and development studies.

Cometography Gary W. Kronk, 1999 *Cometography* is a catalog of every comet observed throughout history. It is the most complete and comprehensive collection of data on comets available. *Cometography* comes in four sequential volumes and this the first covers ancient times through to the end of the eighteenth century. *Cometography* uses the most reliable orbits known to determine all the key parameters of each well observed comet. *Cometography* also provides non technical details to help the reader understand how the comet may have influenced various cultures at the time of its appearance. All the information in *Cometography* has been sourced directly from the original documents including European monastic histories, Roman, Greek and Muslim texts, Chinese, Japanese and Korean scripts. In many cases dates of important historical events can be corrected based on the appearance of a comet. In this way *Cometography* will be valuable to historians of science as well as providing amateur and professional astronomers with a definitive reference on comets through the ages.

Britain's Maritime Empire John McAleer, 2017 Analyses the critical role played by the maritime gateway to Asia around the Cape of Good Hope in the development of the British Empire. Focusing on a region that connected the Atlantic and Indian oceans at the centre of a vital maritime chain linking Europe with Asia, the book re-examines and reappraises Britain's oceanic empire.

Human Rights and Political Dissent in Central Europe Jakub Tyszkiewicz, 2021-12-06 This volume examines to what extent the positive atmosphere created by the Helsinki Accords contributed to the change in political circumstances seen in the countries of Central Europe under Soviet domination. It focuses in particular on firstly a consequent new impetus to bolster human rights in international politics as Western democracies, especially the US, integrated human rights concerns into its foreign policy relations with Soviet Bloc countries and secondly how this Western embrace of human rights seemed to create new incentives for increased dissident activity in Central and Eastern Europe and from 1976 onward. Finally, the book reminds us of the significant role of the Helsinki Accords in developing democratic practices in Eastern European societies under Soviet domination in 1975-1989 and in creating the conditions for the peaceful transition to democratic government in the years that followed. This book will be of key interest to scholars and students of the history of communism, post-Soviet Russian and central and East European politics, the history of human rights and democratization.
