Haunted Kingdom and Ghost Hunting a Practical Guide he investigated hundreds of reported hauntings during his career from famous cases such as the poltergeist girl of Battersea to cases where a client had simply taken the wrong medication before bed The most important cases from his lifetime of research are collected together in this volume alongside new research and many reports that have never previously been published This is an essential guide to the career of Britain s most famous ghost hunter and indeed to the paranormal history of our haunted kingdom Small Town Ghosts Barb The Secret Casebook of Simon Feximal Kj Charles, 2017-11-08 A story too secret too terrifying and too shockingly intimate for Victorian eyes A note to the Editor Dear Henry I have been Simon Feximal s companion assistant and chronicler for twenty years now and during that time my Casebooks of Feximal the Ghost Hunter have spread the reputation of this most accomplished of ghost hunters far and wide You have asked me often for the tale of our first meeting and how my association with Feximal came about I have always declined because it is a story too private to be truthfully recounted and a memory too precious to be falsified But none knows better than I that stories must be told So here is it Henry a full and accurate account of how I met Simon Feximal which I shall leave with my solicitor to pass to you after my death I dare say it may not be quite what you expect Robert Caldwell September 1914 Handbook for the Amateur <u>Paranormal Investigator Or Ghost Hunter</u> Brian D. Parsons, 2008-05 How to conduct paranormal investigations Guide to Ghost Hunting Leo Ruickbie, 2013-08-15 There has been an upsurge in books television programmes films and websites exploring the reality or otherwise of the spirit world Not since the founding of The Ghost Club in 1862 and the Society for Psychical Research in 1882 has ghost hunting been so popular Television and the internet in particular have fueled this new level of interest creating a modern media phenomenon that spans the globe But while the demand for information is high good information remains scarce A Brief Guide to Ghost Hunting leads us through the process of ghost hunting from initially weighing the first report to choosing equipment and investigating and identifying the phenomena with an analysis of the best places to go looking methods of contacting the spirit world how to explain paranormal activity and crucially how to survive the encounter However it is also a book about ghost hunting itself drawing on 130 years of research in the cavernous archives of the Society for Psychical Research and even older history to find the earliest ghost stories A Ghost Hunting Survey makes use of interviews with those billing themselves as ghost hunters to find out their views motivations and experiences New and original research makes use of statistics to map the nebulous world of apparitions while a Preliminary Survey of Hauntings offers an analysis of 923 reported phenomena from 263 locations across the UK This is as far as possible an objective presentation of ghosts and ghost hunting It is no wonder that mainstream science largely refuses to deal with the subject it is too complicated Without trying to convince you of any viewpoint this book is intended to help you understand more The Paranormal Casebook of Jeremiah Thorne James Barr, 2018-11-25 Three stories from the annals of hapless paranormal investigator come ghost hunter Jeremiah Thorne Aided and abetted by his sassy niece
