

Recommendations for Library Instruction @ Reference Desk

Changes to Ref Card

- Omit “mark all the apply”
- Librarians need to give clearer instructions on how to fill it out.
- SLO 3 had the least # of responses – is this due to Ref Card design, students did not need help, or Librarian did not cover?

Changes in Instruction

- Librarians need to be more proactive in checking in with student's progress.
- Librarians need to avoid “observer bias”.
- Aim for a higher Kappa score

Library Instruction For Librarians

Anne F. Roberts

Library Instruction For Librarians:

Library Instruction for Librarians Anne F. Roberts, 1982 Text reference provides librarians and students with a theoretical practical and historical framework for library instruction Written from the conviction that librarians can draw on personal talents and use interdisciplinary approaches to aid individual users in developing information skills Annotation copyrighted by Book News Inc Portland OR

Teaching Library Use James Rice, 1981-09-30 Introduction to library instruction Getting people involved in library instruction Planning an instructional program Strategies for library orientation Strategies for library instruction Strategies for bibliographic instruction Testing and evaluation Library instruction through the library s design

The New Instruction Librarian Candice Benjes-Small, Rebecca K. Miller, 2016-11-16 The sheer amount of resources on the subject of information literacy is staggering Yet a comprehensive but concise roadmap specifically for librarians who are new to instruction or who are charged with training someone who is has remained elusive Until now This book cuts through the jargon and rhetoric to ease the transition into library instruction offering support to all those involved including library supervisors colleagues and trainees Grounded in research on teaching and learning from numerous disciplines not just library literature this book shows how to set up new instruction librarians for success with advice on completing an environmental scan strategies for recruiting efficiently and a training checklist walks readers step by step through training a new hire or someone new to instruction complete with hands on activities and examples explores the different roles an instruction librarian is usually expected to play such as educator project manager instructional designer and teaching partner demonstrates the importance of performance evaluation and management including assessment and continuing education both formal and informal and provides guided reading lists for further in depth study of a topic A starter kit for librarians new to instruction this resource will be useful for training coordinators as well as for self training

Changing the Scope of Library Instruction in the Digital Age Bhattacharyya, Swati, Patnaik, K Rama, 2018-01-05 The current digital age is impacting the contents and delivery of instructional service in many ways Instructional sessions not only describe various features of a resource but these sessions also bring issues like the ethical use of information copyrights and the value of open knowledge to light Librarians are required to help users to learn use these tools Changing the Scope of Library Instruction in the Digital Age provides emerging information on data visualization tools creating effective instructions and instructional design in library sciences While highlighting the challenges of effectively training new and seasoned librarians in these various aspects of data technology and teaching methods readers will learn the importance of giving librarians the tools they need to complete their new responsibilities This book is an important resource for entry level and seasoned librarians researchers and instructional design specialists seeking current research on up to date library instruction in the modern technology age

Embedded Librarians Cassandra Kvenild, Kaijsa Calkins, 2014-05-14 Showcases strategies for successfully embedding librarians and library services across higher education Chapters feature case studies

and reports on projects from a wide variety of colleges and universities from publisher description **Fundamentals of Library Instruction** Dr. Monty L. McAdoo, 2012-04-09 In this book veteran instruction services librarian McAdoo lays out the fundamentals of the discipline in easily accessible language **Instruction and Pedagogy for Youth in Public Libraries** Casey Rawson, 2018-09-25 There seems to be little resistance to the idea that children and teens learn in public library spaces However many public librarians do not see themselves as teachers This implies that much of the learning that happens in public libraries is incidental tangential to the real purpose and design of these spaces and programs In this book we make the case that public librarians should embrace an explicit instructional role as a core part of their professional practice Inside you ll find both a comprehensive review of what is known so far about instruction for youth in public libraries and a primer on core educational concepts and frameworks for current and future public librarians Each chapter includes real world examples of libraries and librarians who are already practicing powerful teaching Critical Library Instruction Maria T. Accardi, Emily Drabinski, Alana Kumbier, 2010 A collection of articles about various ways of applying critical pedagogy and related educational theories to library instruction Provided by publisher **Teaching Technology in Libraries** Carol Smallwood, Lura Sanborn, 2017-02-06 Libraries are charged with fostering new skills and capabilities a challenging task in an era of rapid technological change Developing new ways of teaching and learning within budget and time constraints is the key to keeping up to date Written by librarians this collection of new essays describes an array of technology outreach and instruction programs from the theoretical to the practical for public academic and school libraries based on case studies and discussions of methodology Content includes out of the box lessons outreach successes and technology instruction programs applicable to patrons and staff at public academic and school libraries **Transforming Academic Library Instruction** Amanda Nichols Hess, 2018-09-25 Academic librarians working in instruction are at the crux of professional higher educational and societal change While they work with disciplinary faculty to ensure learners are critical information consumers and producers in 21st century ways how do academic librarians develop a sense of their own identities as post secondary instructors Using both broad and in depth data from practicing instruction librarians this book identifies the catalysts and influences in academic librarians perspective development process From these factors then instruction librarians and librarians to be can hone their own instructional identities and transform their teaching practices This focus on understanding this perspective transformation process around instructional identities offers both working academic librarians and LIS graduate students an innovative way to think about their roles as educators While many books explore the practical or how to aspects of teaching in libraries Transforming Academic Librarianship How to Hone Your Instructional Identity and Adopt Best Teaching Practice takes a step up and examines how academic librarians think about or approach instruction as a part of their work Through explicating this metacognitive process this book helps both academic librarians and librarians to be to more intentionally consider their teaching practices and professional identities Planning

the Library Instruction Program Patricia Senn Breivik,1982 Discusses the importance of library instruction tells how to determine the needs of patrons and outlines the techniques used to prepare and evaluate a presentation

Curriculum-Based Library Instruction Amy Blevins,Megan Inman,2014-09-26 The rampant nature of technology has caused a shift in information seeking behaviors In addition current trends such as evidence based medicine and information literacy mean that one time instructional sessions cannot provide our patrons with all of the skills they need For this reason many librarians are working to develop curriculum based instruction that is semester long or consisting of many sessions throughout an academic program In addition to teaching librarians are also becoming embedded in the curriculums they support by serving as web based course designers problem based learning facilitators or members of curriculum committees Although it is fairly obvious that library instruction is important and that librarians should be equipped to provide this instruction the majority of ALA accredited programs offer only one course on library instruction the courses are only available as electives and they are often only offered once a year Librarians need to gain their instructional experiences through real life experiences mentors and of course books like this one Many books commonly discuss one shot sessions and provide tips for getting the most out of that type of instruction There are not as many that discuss curriculum based instruction in a section let alone an entire book Curriculum Based Library Instruction From Cultivating Faculty Relationships to Assessment highlights the movement beyond one shot instruction sessions specifically focusing on situations where academic librarians have developed curriculum based sessions and or become involved in curriculum committees This volume describes and provides examples of librarians varied roles in the curriculum of education programs These roles include semester long or multi session instructor web based course designer problem based learning facilitator and member of a curriculum committee In addition to describing the roles that librarians have in supporting curriculum the book describes how to carry out those roles with sections devoted to adult learning theory teaching methods developing learning objectives and working with faculty to develop curriculum Examples of library sessions devoted to information literacy evidence based practice information literacy and biomedical informatics are included This book is not limited to one mode of delivering information and covers examples of face to face distance and blended learning initiatives *Library Instruction Guide* Violet E. Peterson,1965 The Fortuitous Teacher Sarah Cisse,2016-03-03 The Fortuitous Teacher A Guide to Successful One Shot Library Instruction discusses how librarians have become accidental teachers in the academic university setting It covers how if at all librarians are prepared by MILS programs to teach compares typical characteristics of teachers versus librarians and presents tactics on how to learn effective teaching skills on the job In addition readers will learn about the history of library instruction the different types of library instruction and the dynamics of one shot library instruction classroom culture faculty buy in and collaboration Examines how MILS programs prepare librarians to teach Compares the typical characteristics of effective teachers and librarians Offers advice for new academic librarians who take on the role of

classroom teacher Explores future trends in library instruction and how to apply this to one shot instruction sessions

Research within the Disciplines Peggy Keeran, Michael Levine-Clark, 2014-04-28 Research within the Disciplines is designed to help reference librarians and students studying to become librarians gain that deeper understanding of disciplinary differences that allows them to comfortably solve information needs rather than merely responding to questions and practical knowledge about how to work with researchers in a library setting The book has three chapters that cover the disciplines at the broadest level humanities social sciences and sciences plus supplemental chapters that focus on associated disciplines research in history business and engineering research using government sources and across disciplines interdisciplinary and critical information literacy For the second edition of Research within the Disciplines several chapters have been added that together give a broader and deeper overview of research across all subject areas research practices of creative and performing artists and of clinical scientists research in international documents research strategies for foreign language materials and visual literacy across the disciplines Major shifts in technology have been accounted for that have changed how we do research and have expanded the range of resources available to researchers in all disciplines All of the chapters have been rewritten or heavily revised this is much more a new book than a new edition

Ideas for Librarians who Teach Naomi Lederer, 2005 Containing nearly one thousand individual ideas and bits of advice for teaching Ideas for Librarians Who Teach is tailored primarily to librarians but most of the suggestions put forth can be applied to anyone who will be getting up in front of a group to teach e g teachers business trainers workshop leaders craft instructors If someone has some knowledge or skill to share this book will help him or her teach it with confidence Chapters cover diverse topics that range from preparing for a session to looking over the classroom and from dealing with questions to using visuals Web pages and handouts There are suggestions for teaching audiences with different learning styles as well as teaching foreign students and vice versa Group learning ideas and practical suggestions for what to put on feedback forms are also included Promoting library instruction teaching via distance education dealing with disruptive students and coping with burnout are addressed with applicable recommendations There is an extensive bibliography and recommended resources throughout for additional or more detailed descriptions of some of the ideas Also example syllabi and a workshop outline are provided as appendixes Whether using this book as a base for a semester long course or for a workshop on teaching librarians who teach or who are about to start teaching will find this book very helpful Every academic public school and corporate library should have this book

Flipped Library Instruction Laura Heinz, 2018-03 This valuable book introduces the flipped classroom and explains how flipped instruction techniques can be used by academic librarians to help students achieve deeper mastery of course content and empower undergraduates to take responsibility for their own learning Explains why flipping instruction will work for and may come to be expected by students who are now entering college and university Includes data from a survey of experienced librarians including the author who are successfully using flipped instruction Discusses the ACRL

Framework for Information Literacy in Higher Education and describes how to use the framework to create a series of flipped instruction for the novice freshman to the experienced senior undergraduate learner Offers a bibliography of resources that support flipped instruction **Maximizing the One-Shot** Jill Markgraf,Kate Hinnant,Eric Jennings,Hans Kishel,2015-04-08 Designed for librarians who offer library instruction within the constraints of the hour long one shot this book proposes a method for redesigning one shot instruction that is both realistic and integrated into the larger curriculum Working with faculty teams from academic departments the authors used the collaborative Lesson Study method to redesign undergraduate research instruction They describe how to winnow the one shot down to a manageable active learning experience while simultaneously augmenting it with extra sessional prerequisites and learning activities They also discuss how to conceptualize the role of the one shot within a course a curriculum and the larger information literacy goals of the institution This book offers customizable strategies sample lesson plans and generalized observations based on the experiences of the authors Maximizing the One Shot Connecting Library Instruction with the Curriculum covers the following aspects of one shot development Understanding the role of the one shot institutionally and its limits Setting realistic goals The Lesson Study approach Collaborating with departmental faculty Assessment of the one shot Supporting the one shot with additional materials Expanding one shot development to other departments and programs In addition the book provides interviews with collaborating faculty members of academic departments who have partnered with library faculty New Methods of Teaching and Learning in Libraries Ann Whitney Gleason,2016-10-20 New Methods of Teaching and Learning in Libraries is a one stop introduction to the role of technology in teaching and learning in libraries Emerging models of library instruction and library support of instruction will be presented Increasingly librarians are called upon to partner with educational faculty and community members to deliver content and support innovative educational initiatives Since libraries reach across academic disciplines and provide resources for the greater community they are uniquely positioned to provide services and technologies that are available to many bringing innovation out of silos and facilitating innovation in the community Chapters covered include Active Learning in Collaborative Spaces Creating Library Spaces that Foster Creation Teaching Beyond the Library Walls Teaching Skills for Career Success Multimedia in Library Education The Future of Mobile Libraries Teaching and Learning in the Library of the Future Innovative programs will be highlighted and practical examples will be provided *Directory of Library Instruction Programs in California Academic Libraries* ,1986

Decoding **Library Instruction For Librarians**: Revealing the Captivating Potential of Verbal Expression

In an era characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its capability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring. Within the pages of "**Library Instruction For Librarians**," a mesmerizing literary creation penned by a celebrated wordsmith, readers attempt an enlightening odyssey, unraveling the intricate significance of language and its enduring effect on our lives. In this appraisal, we shall explore the book's central themes, evaluate its distinctive writing style, and gauge its pervasive influence on the hearts and minds of its readership.
