Lieder Line By Line No 2 And Word For Word:

German Song Onstage Natasha Loges, Laura Tunbridge, 2020-05-05 A singer in an evening dress a grand piano A modest sized audience mostly well dressed and silver haired equipped with translation booklets A program consisting entirely of songs by one or two composers This is the way of the Lieder recital these days While it might seem that this style of performance is a long standing tradition *German Song Onstage* demonstrates that it is not For much of the 19th century the songs of Beethoven Schubert Schumann and Brahms were heard in the home salon and no less significantly on the concert platform alongside orchestral and choral works A dedicated program was rare a dedicated audience even more so The Lied was a genre with both more private and more public associations than is commonly recalled The contributors to this volume explore a broad range of venues singers and audiences in distinct places and time periods including the United States the United Kingdom Russia and Germany from the mid 19th century through the early 20th century These historical case studies are set alongside reflections from a selection of today's leading musicians offering insights on current Lied practices that will inform future generations of performers scholars and connoisseurs Together these case studies unsettle narrow and elitist assumptions about what it meant and still means to present German song onstage by providing a transnational picture of historical Lieder performance and opening up discussions about the relationship between history and performance today

The Cambridge Companion to the Lied James Parsons, 2004-07 Beginning several generations before Schubert the Lied first appears as domestic entertainment In the century that follows it becomes one of the primary modes of music making By the time German song comes to its presumed conclusion with Richard Strauss's 1948 *Vier letzte Lieder* this rich repertoire has moved beyond the home and keyboard accompaniment to the symphony hall This is a 2004 introductory chronicle of this

fascinating genre In essays by eminent scholars this Companion places the Lied in its full context at once musical literary and cultural with chapters devoted to focal composers as well as important issues such as the way in which the Lied influenced other musical genres its use as a musical commodity and issues of performance The volume is framed by a detailed chronology of German music and poetry from the late 1730s to the present and also contains a comprehensive bibliography

Schubert's Poets and the Making of Lieder Susan Youens,1999-10-28 Lieder began with words with the composer's discovery of a poet and a poetic work but the scholarly study of lieder has tended to bypass those origins Schubert's choice of poets has traditionally come under fire for the preponderance of mediocre talent and yet many of these writers were highly esteemed in their day In her highly acclaimed study Susan Youens has chosen four such poets Gabriele von Baumberg Theodor Körner Johann Mayrhofer and Ernst Schulze in order to re-examine their lives works and Schubert's music to their verse All four poets were vivid inhabitants of a vivid era and their tribulations afford us added insight into the upheavals the manners and mores of their day

Women and the Nineteenth-Century Lied Aisling Kenny,Susan Wollenberg,2016-03-03 This book bridges a gap in existing scholarship by foregrounding the contribution of women to the nineteenth century Lied Building on the pioneering work of scholars in recent years it consolidates recent research on women's achievements in the genre and develops an alternative narrative of the Lied that embraces an understanding of the contributions of women and of the contexts of their engagement with German song and related genres Lieder composers including Fanny Hensel Clara Schumann Pauline Viardot Garcia and Josephine Lang are considered with a stimulating variety of analytical approaches In addition to the focus on composers associated with history and theory of the Lied the various chapters explore the cultural and sociological background to the Lied's musical environment as well as engaging with gender studies and discussing performance and pedagogical contexts The range of subject matter reflects the interdisciplinary nature of current research in the field and the energy it generates among scholars and performers **Women and the Nineteenth Century Lied** aims to widen readers' perception of the genre and help promote awareness of women's contribution to nineteenth century musical life through critical appraisal of the cultural context of the Lied encouraging acquaintance with the voices of women composers and the variety of their contributions to the repertoire

Current Contents,1999 **The Nineteenth-Century German Lied** Lorraine Gorrell,2005-11-01 The development of the piano together with changes in culture and society led to the transformation of song into a major musical genre This study of the great lieder of 19th century composers Schubert Schumann Brahms and Hugo Wolf also includes lesser known composers such as Louis Spohr and Robert Franz plus significant contributions from women composers and performers

Catalogue of Music British Museum,1886 A Dictionary of Hymnology John Julian,1892 **Catalog of Copyright Entries**,1913

Catalog of Copyright Entries Library of Congress. Copyright Office,1909 **Death in Winterreise** Lauri Suurpää,2014-01-06 Lauri Suurpää brings together two rigorous methodologies Greimassian semiotics and Schenkerian

analysis to provide a unique perspective on the expressive power of Franz Schubert's song cycle. Focusing on the final songs, Suurp deftly combines textual and tonal analysis to reveal death as a symbolic presence if not actual character in the musical narrative. Suurp demonstrates the incongruities between semantic content and musical representation as it surfaces throughout the final songs. This close reading of the winter songs coupled with creative applications of theory and a thorough history of the poetic and musical genesis of this work brings new insights to the study of text-music relationships and the song cycle.
