Life At Work

Jack Levinson

Life At Work:

Making Life Work Jack Levinson, Group homes emerged in the United States in the 1970s as a solution to the failure of the large institutions that for more than a century segregated and abused people with intellectual and developmental disabilities Yet community services have not for the most part delivered on the promises of rights self determination and integration made more than thirty years ago and critics predominantly portray group homes simply as settings of social control Making Life Work is a clear eyed ethnography of a New York City group home based on more than a year of field research Jack Levinson shows how the group home needs the knowledgeable and voluntary participation of residents and counselors alike The group home is an actual workplace for counselors but for residents group home work involves working on themselves to become more autonomous Levinson reveals that rather than being seen as the antithesis of freedom the group home must be understood as representing the fundamental dilemmas between authority and the individual in contemporary liberal societies No longer inmates but citizens these people who are presumed rightly or wrongly to lack the capacity for freedom actually govern themselves Levinson a former group home counselor demonstrates that the group home depends on the very capacities for independence and individuality it cultivates in the residents At the same time he addresses the complex relationship between services and social control in the history of intellectual and developmental disabilities interrogating broader social service policies and the role of clinical practice in the community

Life's Work Jonathan Valin, 2012-12-01 Cincinnati Cougars Billy Parks was All Pro and missing Harry Stoner's job was to find him and get him into shape for the season But Billy's photo told Stoner he didn't like the man or the shape he was in The eye revealed a killer mentality a player who crushed mangled and sacked with pleasure Billy's disappearing act might be part of a contract dispute or something far more deadly For Stoner suspected that Billy had become a mean machine who went on scoring in a sordid world of drugs and violence where death hit with a blind side tackle and life lasted only until the final cut

Feminism as Life's Work Mary K. Trigg, 2014-06-23 With suffrage secured in 1920 feminists faced the challenge of how to keep their momentum going As the center of the movement shrank a small self appointed vanguard of modern women carried the cause forward in life and work Feminism as Life's Work profiles four of these women the author Inez Haynes Irwin the historian Mary Ritter Beard the activist Doris Stevens and Lorine Pruette a psychologist Their life stories told here in full for the first time embody the changes of the first four decades of the twentieth century and complicate what we know of the period Through these women's intertwined stories Mary Trigg traces the changing nature of the women's movement across turbulent decades rent by world war revolution global depression and the rise of fascism Criticizing the standard division of feminist activism as a series of historical waves Trigg exposes how Irwin Beard Stevens and Pruette helped push the U S feminist movement to victory and continued to propel it forward from the 1920s to the 1960s decades not included in the wave model At a time widely viewed as the doldrums of feminism the women in this book were in fact taking the cause to

new sites the National Women s Party sexuality and relations with men marriage and work and financial independence In their utopian efforts to reshape work sexual relations and marriage modern feminists ran headlong into the harsh realities of male power the sexual double standard the demands of motherhood and gendered social structures In *Feminism as Life s Work* Irwin Beard Stevens and Pruette emerge as the heirs of the suffrage movement guardians of a long feminist tradition and catalysts of the belief in equality and difference Theirs is a story of courage application and perseverance a story that revisits the bleak and lonely years of the U S women s movement and emerges with a fresh perspective of the history of this pivotal era **Flourishing in Life, Work and Careers** Ronald J. A Conscious Life Funmi Oyetunji, 2016-07-16 In my observation of lives around me I often wonder What happened there I imagine what that person might have done to contribute to the success or failure of their own life Usually a life attracts my attention because of its exceptionality for good or for bad Over time I have come to see that many people seem to wander through life just to wake up one day usually at about middle age and realize that their life had happened while they were not looking This is a clarion call and encouragement to consciousness and deliberateness in living the life one would be proud of in the end It is also a summary of the lessons I have learned from my own experiences or from books and other resources I have used in my quest for answers on the subject of life The chapters are arranged based on the different stages and aspects to point out signposts road junctions and time lines that the reader can expect to navigate on the journey of life It is to bring consciousness to the consideration and planning that the different aspects of life need for your own particular journey The book must not be read in a particular sequence you can read particular chapters or aspects as required by your particular stage situation or need for counsel at different times Different chapters will be more applicable and enlightening for different readers at different times It could be growing up and career building time for some marriage and parenting for others It might be about maneuvering middle and old age for yet another In the end no one can control all aspects of life all the time but you can be awake and write your own story by making things happen instead of just waiting and watching them happen accepting whatever life brings Make your life happen
