**Four Lectures on Marxism** Paul M. Sweezy, 2019-02-15 One of the twentieth century's foremost Marxian economists discusses the dialectical method the contradictions of capitalism and the future of Marxism Four Lectures on Ethics

Michael Lambek, Veena Das, Didier Fassin, Webb Keane, 2015-12-15 Anthropology has recently seen a lively interest in the subject of ethics and comparative notions of morality and freedom This masterclass brings together four of the most eminent anthropologists working in this field Michael Lambek Veena Das Didier Fassin and Webb Keane to discuss via lectures and responses important topics facing anthropological ethics and the theoretical debates that surround it The authors explore the ways we understand morality across many different cultural settings asking questions such as How do we recognize the ethical in different ethnographic worlds What constitutes agency and awareness in everyday life What might an anthropology of ordinary ethics look like And what happens when ethics approaches the political in both Western and non Western societies Contrasting perspectives and methods and yet in complimentary ways this masterclass will serve as an essential guide for how an anthropology of ethics can be formulated in the twenty first century Four Lectures Stephen

Rodefer, 2025-04-22 Originally published in the 1980s and out of print until now Rodefer's four long poems are milestones in American avant garde poetry Stephen Rodefer was an innovative singular American writer a student of Charles Olson's often associated with the Language poets but whose eclectic energetic verse defies categorization and embraces a worldly lyricism all Rodefer's own *Four Lectures* first published in 1982 by Geoffrey Young's legendary press *The Figures* and long out of print is widely considered to be his masterpiece It is a book of four long poems that explore the radical possibilities of language through a generous intimate collage of sights and sounds voices and images drawn from the poet's world In city block like stanzas by turns philosophical and political playful and playing for keeps with freewheeling reference to everything from Shakespeare to Looney Tunes to Iceberg Slim and much else besides Rodefer boldly reimagines the modern philosophical poem exemplified by T S Eliot's *Four Quartets* and John Ashbery's *Self Portrait in a Convex Mirror* for an inundating fragmentary age in which there are more photographs in the world than there are bricks *Compendium of Histology. Twenty-four Lectures* Heinrich Frey, George Rogers Cutter, 2024-06-01 Reprint of the original first published in 1876

**Acts of Meaning** Jerome Bruner, 1990 Bruner argues that the cognitive revolution with its fixation on a computational model of mind has led psychology away from the deeper objective of understanding mind as a creator of meanings Only by breaking out of the limitations of this model can we grasp the interaction through which mind both constitutes and is constituted by culture *Galignani's Grammar and exercises in twenty four lectures on the Italian language ...
