**A Fourteenth-Century Scholar and Primate: Richard Fitzralph in Oxford, Avignon and Armagh. [Mit Faks.] - Oxford: Clarendon Press 1981. XVIII, 518 S. 8°** Katherine Walsh,1981 *Richard FitzRalph in Oxford, Avignon, and Armagh* Katherine Walsh,1981 Presents the first full length study of a key figure in the cultural intellectual and ecclesiastical relations between medieval Ireland and western Christendom **Parisian Scholars in the Early Fourteenth Century** William J. Courtenay,1999-03-25 This study of the social geographical and disciplinary composition of the scholarly community at the University of Paris in the early fourteenth century is based on the reconstruction of a remarkable document the financial record of tax levied on university members in the academic year 1329 1330 Containing the names financial level and often addresses of the majority of the masters and most prominent students it is the single richest source for the social history of a medieval university before the late fourteenth century After a thorough examination of the financial account the history of such collections and the case a rape by a student that precipitated legal expenses and the need for a collection the book explores residential patterns the relationship of students masters and tutors social class and levels of wealth interaction with the royal court and the geographical background of university scholars The Gawain-Poet and the Fourteenth-Century English Anticlerical Tradition Ethan Campbell,2018-04-15 Ethan Campbell argues that a central feature of the Gawain poet s Middle English works moral rhetoric is anticlerical critique Written in an era when clerical corruption was a key concern for polemicists such as Richard FitzRalph and John Wyclif as well as satirical poets such as John Gower William Langland and Geoffrey Chaucer the Gawain poems feature an explicit attack on hypocritical priests in the opening lines of Cleanness as well as more subtle critiques embedded within depictions of flawed priest like characters

**Calculating Ethics in the Fourteenth Century** ,2024-06-24 Calculating Ethics in the Fourteenth Century addresses a moment in the history of ethics when discoveries in natural philosophy blurred the boundary between the possible and the impossible and made the impossible a preferred territory in discussions on practical reason The volume studies the onset and expansion of a new movement in constructing ethics as the methods arguments and cases adopted from logic and natural philosophy came to be extensively applied at Oxford and swiftly disseminated among other Oxonians eventually making their way outside Oxford It shows how the Oxford Calculators triggered a unique and durable transformation in ethics Contributors are Pascale Bermon Valeria Buffon Michael W Dunne Marek Gensler Simon Kemp Edit A Luk cs Monika Michowska and Andrea Nannini *Studies in Manuscript Illumination, 1200-1400* Lucy Freeman Sandler,2007-12-31 The author is Helen Gould Sheppard Professor of Art History at New York University Institute of Fine Arts and a leading authority on English medieval manuscript illumination This volume bring together twenty six of Professor Sandler s studies focusing on illustrated manuscripts produced in England in the thirteenth and fourteenth centuries particularly on the illuminated psalters The marginal illustrations in these psalters are a topic of particular interest and there are a number of iconographic

studies derived from this material A separate section deals with the illustrated encyclopedias of the period particularly the *Omne bonum* **Defenders and Critics of Franciscan Life** Michael F. Cusato, Guy Geltner, 2009 The essays in this volume were presented at a conference honoring John V Fleming at Princeton University on April 21-22 2004 The aim of the conference was to revisit Fleming's 1977 book *An Introduction to the Franciscan Literature of the Middle Ages* from a number of different perspectives including social religious and literary history as well as art exegesis political thought and the history of education A prominent but not exclusive theme of the contributions is the distinction between defenders and critics of medieval Franciscanism Recent scholarship has shown that the dividing line between medieval defenders and critics of Franciscan life was not as sharp or as clear as had once been thought This more nuanced approach to medieval Franciscanism is a reflection of the many scholarly developments that have occurred since and as a result of Fleming's volume The present work offers a selection of current approaches to the question **Imagining Peace** Ben

Lowe, 2010-11-01 In this book Ben Lowe examines the developing language of peace in late medieval and Renaissance England He challenges the popular assumption that this was simply an age of war during which ideas of peace exercised very little impact on society and government He offers a close reading of English writers on peace integrating this analysis with careful attention to the political context particularly during times of war when calls for peace were more vocal Lowe traces the concept of peace from its early Christian usage up to the sixteenth century He focuses on the long period of foreign wars 1349-1560 often punctuated by domestic unrest when theories of peace were increasingly discussed within the larger context of war and policymaking Such practical concerns invariably led to a richer and more varied peace discourse For instance Lowe is able to show a shift in discussion away from platitudes such as the restoration of goodwill among Christians toward a more hard-headed set of foreign policy problems such as famine inflation disruption of trade and the maintenance of the king's honor He draws on an extraordinarily wide variety of sources including theological and philosophical works sermons official prayers moral treatises commentaries military handbooks legal texts state papers chronicles fiction popular ballads diaries and personal letters *Imagining Peace* will appeal to others beyond historians of late medieval and early modern England Lowe applies methods from other disciplines especially literary and cultural studies and political theory His analysis takes into account the problems and limitations of reconstructing past thought and determining authorial intent Nonetheless the text remains surprisingly free of technical jargon making this a timely book for anyone interested in the origins of pacifism

**William Langland's Piers Plowman** Kathleen M. Hewett-Smith, 2013-09-13 This collection of newly written essays provides a fresh examination of some of the issues central to the study of this poem including an exploration of its relevance to contemporary literary theory and to 14th century culture and ideology **The Benedictines in the Middle Ages** James G. Clark, 2014-11-20 The men and women that followed the 6th century customs of Benedict of Nursia c 480-c 547 formed the most enduring influential numerous and widespread religious order of the Latin Middle Ages This text follows the

Benedictine Order over 11 centuries from their early diaspora to the challenge of continental reformation      **Testimony, Narrative and Image: Studies in Medieval and Franciscan History, Hagiography and Art in Memory of Rosalind B. Brooke**, 2022-03-16 This volume unites a team of distinguished scholars from France Germany Italy the UK and the USA to celebrate Rosalind B Brooke s immense contribution to Franciscan studies over the last 60 years It is divided into four sections beginning with an appraisal of Dr Brooke s influence upon Franciscan studies The second section contains a series of historical studies and expressions of the Franciscan spirit Hagiographical studies occupy the third section reflecting the friars ministry and the thirst for the renewal of the Franciscan vision The fourth part explores the art and iconographical images of St Francis and his friars These innovative studies reflect new insights into and interpretations of Franciscan life in the Middle Ages Contributors are in order of appearance Michael W Blastic O F M Maria Pia Alberzoni Bert Roest Michael F Cusato O F M Jens R hrkasten David Luscombe Luigi Pellegrini Peter Murray Jones Maria Teresa Dolso Michael J P Robson Andr Vauchez David Burr William R Cook Nigel Morgan and Kathleen Giles Arthur      **The Magnificent Ride** Thomas A. Fudge, 2018-03-29 The Magnificent Ride examines the social and religious dimensions of the Hussite revolutionary movement in 15th century Bohemia It argues that the magnificent ride was in fact the first reformation and not merely a precursor to the reformations of the 16th century The religious revival which had begun in Prague in the later middle ages reached its zenith in the period between Jan Hus and the Council of Basel This book reconstructs the Hussite myth and shows how that myth evolved into the historical phenomenon of heresy Acts of heretical practice in Bohemia condemnation of Jan Hus defiance of ecclesiastical authority and attempts by the official church to deal with the dissenters are fascinating chapters in the history of late medieval Europe      *Johannes Klenkok* Christopher Ocker, 1993 An account of the life and circumstances of a little known Augustinian friar with an interesting career Johannes Klenkok Author Christopher Ocker attempts to reconstruct his biography more accurately than has been achieved up to now but in so doing he considers as much as possible the organizations and habits that Klenkok shared with those among his contemporaries of a similar station in life namely mendicant friars The sources led Ocker to pay particular attention to the character of education within the mendicant orders and to Klenkok s campaign against the Sachsenspiegel the first written code of traditional German laws      **Cultural Exchange and Identity in Late Medieval Ireland** Sparky Booker, 2018-03-22 Irish inhabitants of the four obedient shires a term commonly used to describe the region at the heart of the English colony in the later Middle Ages were significantly anglicised taking on English names dress and even legal status However the processes of cultural exchange went both ways This study examines the nature of interactions between English and Irish neighbours in the four shires taking into account the complex tensions between assimilation and the preservation of distinct ethnic identities and exploring how the common colonial rhetoric of the Irish as an enemy coexisted with the daily reality of alliance intermarriage and accommodation Placing Ireland in a broad context Sparky Booker addresses the strategies the colonial community used to deal with the

difficulties posed by extensive assimilation and the lasting changes this made to understandings of what it meant to be English or Irish in the face of such challenges

**Promissory Notes on the Treasury of Merits** Robert Swanson, 2018-11-12 Promissory Notes on the Treasury of Merits is a volume of 12 essays by a distinguished team of international scholars dealing with the place of indulgences in the religious life of Europe between roughly 1250 and the outbreak of the Reformation Some of the articles offer regional analyses stretching from Spain to the Netherlands from England to Bohemia and Italy Others deal with the theology and theological and practical controversies provoked by indulgences or with thematic issues like the place of indulgences in fifteenth century crusades in pilgrimage and the early exploitation of print in their distribution The complementary nature of the articles builds into a fuller picture of the central but hitherto neglected role which indulgences had in late medieval European religious life

**Moral Philosophy on the Threshold of Modernity** Jill Kraye, Risto Saarinen, 2006-03-30 Over the past twenty years the transition from the late Middle Ages to the early modern era has received increasing attention from experts in the history of philosophy In part this new interest arises from claims made in literature aimed at a less specialist readership that this transition was responsible for the subsequent philosophical and theological problems of the Enlightenment Philosophers like Alasdair MacIntyre and theologians like John Milbank display a certain nostalgia for the medieval synthesis of Thomas Aquinas and consequently evaluate the period from 1300 to 1700 in rather negative terms Other historians of philosophy writing for the general public such as Charles Taylor take a more positive view of the Reformation but nevertheless conclude that modernity has been shaped by 1 conflicts which stem from early modern times Ethics and moral thought occupy a central place in these theories It is assumed that we have lost something the concept of virtue for instance or the source of common morality Yet those who put forward such notions do not treat the history of ethics in detail From the historian s perspective their far reaching theoretical assumptions are based on a quite small body of textual evidence In reality there was a rich variety of approaches to moral thinking and ethical theories during the period from 1400 to 1600

*Atomism in Late Medieval Philosophy and Theology*, 2009-01-31 This book is the result of a collective attempt to give a general survey of the development of atomism and its critics in the late Middle Ages All the contributors focussed on the thirteenth and fourteenth centuries atomists and anti atomists with a thorough examination

of some important figures as Nicholas of Autrecourt or John Wyclif and lesser known as Gerard of Odo or William Crathorn for example From those essays on particular authors a new way of understanding the discussions of atomism in late medieval philosophy and theology emerges This volume demonstrates the existence of strong and complicated connections between natural philosophy mathematics and theology in the medieval discussions of the atomistic hypothesis All chapters present a new research that will be of interest to historians of medieval philosophy science and theology Contributors include Jo l Biard Sander W de Boer Jean Celeyrette Christophe Grellard El bieta Jung Emily Michael John E Murdoch Robert Podko ski Aur lien Robert and Rega Wood Medieval and Early Modern Science 9

The Cambridge History of Ireland: Volume 1, 600-1550 Brendan Smith, 2018-03-31 The thousand years explored in this book witnessed developments in the history of Ireland that resonate to this day Interspersing narrative with detailed analysis of key themes the first volume in The Cambridge History of Ireland presents the latest thinking on key aspects of the medieval Irish experience The contributors are leading experts in their fields and present their original interpretations in a fresh and accessible manner New perspectives are offered on the politics artistic culture religious beliefs and practices social organisation and economic activity that prevailed on the island in these centuries At each turn the question is asked to what extent were these developments unique to Ireland The openness of Ireland to outside influences and its capacity to influence the world beyond its shores are recurring themes Underpinning the book is a comparative outward looking approach that sees Ireland as an integral but exceptional component of medieval Christian Europe
