Fourteenth Century England I

Fourteenth Century England I:

Fourteenth Century England Chris Given-Wilson, 2010 The essays collected here present the fruits of the most recent research on aspects of the history politics and culture of England during the long fourteenth century roughly speaking from the reign of Edward I to the reign of Henry V Based on a range of primary sources they are both original and challenging in their conclusions Several of the articles touch in one way or another upon the subject of warfare but the approaches which they adopt are significantly different ranging from an analysis of the medieval theory of self defence to an investigation of the relative utility of narrative and documentary sources for a specific campaign Literary texts such as Barbour's Bruce are also discussed and a re evaluation of one particular set of records indicates that in this case at least the impact of the Black Death of 1348-9 may have been even more devastating than is usually thought Chris Given-Wilson is Professor of Late Mediaeval History at the University of St Andrews Contributors Susan Foran Penny Lawne Paula Arthur Graham E St John Diana Tyson David Green Jessica Lutkin Rory Cox Adrian R Bell

English Identity and Political Culture in the Fourteenth Century Andrea Ruddick, 2013-11-21 This broad ranging study explores

the nature of national sentiment in fourteenth century England and sets it in its political and constitutional context for the first time Andrea Ruddick reveals that despite the problematic relationship between nationality and subjecthood in the king of England's domains a sense of English identity was deeply embedded in the mindset of a significant section of political society Using previously neglected official records as well as familiar literary sources the book reassesses the role of the English language in fourteenth century national sentiment and questions the traditional reliance on the English vernacular as an index of national feeling Positioning national identity as central to our understanding of late medieval society culture religion and politics the book represents a significant contribution not only to the political history of late medieval England but also to the growing debate on the nature and origins of states nations and nationalism in Europe **John Gower,**

Poetry and Propaganda in Fourteenth-century England David Richard Carlson, 2012 John Gower's works examined as part of a tradition of official writings on behalf of the Crown John Gower has been criticised for composing verse propaganda for the English state in support of the regime of Henry IV at the end of his distinguished career However as the author of this book shows using evidence from Gower's English French and Latin poems alongside contemporary state papers pamphlet literature and other historical prose Gower was not the only medieval writer to be so employed in serving a monarchy's goals Professor Carlson also argues that Gower's late poetry is the apotheosis of the fourteenth century tradition of state official writing which lay at the origin of the literary Renaissance in Ricardian and Lancastrian England David Carlson is Professor in the Department of English University of Ottawa **War, Politics and Culture in 14th-Century England** James

Sherborne, 1994-07-01 These essays offer a detailed insight into the planning of English campaigns in France in the late 14th century and into the structure and financing of the English armies and navies James Sherborne's scholarship went beyond military matters and focused also on the wider political and cultural scene Parliament and Political Pamphleteering in

Fourteenth-century England Clementine Oliver, 2010 Sixty years before the advent of the printing press the first political pamphlets about parliament were circulated in the city of London These handwritten pamphlets reported on victories against the crown and point to the existence of a market of readers hungry for news of parliament *Anglo-Papal Relations in the*

Early Fourteenth Century Barbara Bombi, 2019-07-23 This volume is concerned with diplomacy between England and the papal curia during the first phase of the Anglo French conflict known as the Hundred Years War 1305 1360 On the one hand Barbara Bombi compares how the practice of diplomacy conducted through both official and unofficial diplomatic communications developed in England and at the papal curia alongside the formation of bureaucratic systems On the other hand she questions how the Anglo French conflict and political change during the reigns of Edward II and Edward III impacted on the growth of diplomatic services both in England and the papal curia Through the careful examination of archival and manuscript sources preserved in English French and Italian archives this book argues that the practice of diplomacy in fourteenth century Europe nurtured the formation of a shared language of diplomacy The latter emerged from

the need to translate different traditions thanks to the adaptation of house styles formularies and ceremonial practices as well as through the contribution of intermediaries and diplomatic agents acquainted with different diplomatic and legal traditions This argument is mostly demonstrated in the second part of the book where the author examines four relevant case studies the papacy's move to France after the election of Pope Clement V 1305 and the succession of Edward II to the English throne 1307 Anglo papal relations between the war of St Sardos 1324 and the deposition of Edward II in 1327 the outbreak of the Hundred Years Wars in 1337 and lastly the conclusion of the first phase of the war which was marked in 1360 by the agreement between England and France known as the Treaty of Br tigny Calais **Edward III** W. M.

Ormrod,2012-01-24 Edward III 1312 1377 was the most successful European ruler of his age Reigning for over fifty years he achieved spectacular military triumphs and overcame grave threats to his authority from parliamentary revolt to the Black Death Revered by his subjects as a chivalric dynamo he initiated the Hundred Years War and gloriously led his men into battle against the Scots and the French In this illuminating biography W Mark Ormrod takes a deeper look at Edward to reveal the man beneath the military muscle What emerges is Edward's clear sense of his duty to rebuild the prestige of the Crown and through military gains and shifting diplomacy to secure a legacy for posterity New details of the splendor of Edward's court lavish national celebrations and innovative use of imagery establish the king's instinctive understanding of the bond between ruler and people With fresh emphasis on how Edward's rule was affected by his family relationships including his roles as traumatized son loving husband and dutiful father Ormrod gives a valuable new dimension to our understanding of this remarkable warrior king *Philosophical Debates at Paris in the Early Fourteenth Century* Stephen F.

Brown,Thomas Dewender,Theo Kobusch,2009-05-20 This collection of essays papers originally delivered at conferences in Bonn and Boston show in a detailed way the tone and nature of philosophical and theological issues and arguments at the University of Paris in the early fourteenth century They touch on a large number of authors and a broad spectrum of subjects and present these discussions with regard to the intellectual framework set by the earlier Parisian generation of Thomas Aquinas Henry of Ghent and Godfrey of Fontaine It becomes evident that the principal contributors to the new intellectual energy in early fourteenth century discussions at Paris are Meister Eckhart John Duns Scotus Hervaeus Natalis Durandus of St Pour ain Walter Burley and Petrus Aureoli Thirteenth Century England VIII Michael Prestwich,R. H. Britnell,Robin Frame,2001 This series is home to scholarship of the highest order covering a wide range of themes from politics and warfare to administration justice and society The topics of the papers in this book range from the sublime to the macabre romance rape money politics and religion Wide ranging papers cover many themes the role of knights in the civil war at the end of John's reign the politics of Ireland at the time of Richard Marshal's rebellion the crusading context of the de Montfort family the Petition of the Barons of 1258 and the government of England during Edward I's absence on crusade form one group of papers which illuminate the politics of the period The history of the Jews in their final days in England is examined

as are the techniques used to supply Edward I's armies. Legal matters are considered with papers on manorial courts, capital punishment and the offence of rape. Romance is treated in a historical context with Edward I's marriage plans of 1294. Also included is discussion of the dissemination of the Sarum rite, the building of Westminster Abbey, ecclesiastical mints and Matthew Paris's maps. Contributors: MARTIN ALLEN, DAVID CARPENTER, DAVID CROOK, KATHERINE FAULKNER, PETER EDBURY, PAUL HARVEY, RICHARD HUSCROFT, NIGEL MORGAN, MARK ORMROD, ZEFIRA ROKEAH, CORINNE SAUNDERS, BRENDAN SMITH, KATHERINE STOCKS, HENRY SUMMERSON, MARK VAUGHN. *Public Order and Law Enforcement* Anthony Musson, 1996. The period from 1294 to 1350 witnessed the final phase of the Angevin administrative advances in England and was crucial in determining the shape and principal features of England's new judicial system. This study challenges the received orthodoxy on judicial development in the first half of the 14th century. It concentrates on the personnel of local justice and the wider administrative context to build up a composite picture of attitudes to public order and law enforcement through a systematic examination of the surviving legal records. **Creativity, Contradictions and Commemoration in the Reign of Richard II** Jessica Lutkin, J. S. Hamilton, 2022. Aspects of the turbulent rule of Richard II freshly examined. The reign of Richard II is well known for its political turmoil as well as its literary and artistic innovations, all areas explored by Professor Nigel Saul during his distinguished career. The present volume interrogates many familiar literary and narrative sources including works by Froissart, Gower, Chaucer, *Clanvow* and the *Continuation of the Eulogium Historiarum*, along with those less well known such as coroners' inquests and gaol delivery proceedings. The reign is also notorious for its larger-than-life personalities, not least Richard himself. But how was he shaped by other personalities? A prosopographical study of Richard's bishops, a comparison of the literary biographies of his father, the Black Prince, and Bertrand du Guesclin, and a reconsideration of Plantagenet family politics all shed light on this question. Meanwhile, Richard II's tomb reflects his desire to shape a new vision of kingship. Commemoration more broadly was changing in the late fourteenth century, and this volume includes several studies of both individual and communal memorials of various types that illustrate this trend again appropriately for an area. Professor Saul has made his own.
