Newbery, Metropolitan Museum of Art (New York, N.Y.),2007 The Robert Lehman Collection at The Metropolitan Museum of Art houses one of the finest collections of frames in the world The collection Robert Lehman bequeathed to the Museum includes nearly 400 frames most of them Italian and French and dating from the 14th to the 18th century Although he bought most of these frames to display his paintings and drawings a number of them were acquired as works of art in their own right Using the documentary evidence that survives this volume attempts to place these frames on the pictures and in the interiors for which they were intended For each frame the author has provided a profile drawing that is a key to its design origin date and application This volume is the 13th in a series of 16 on the Robert Lehman Collection Metropolitan Museum of Art website

Pattern Recognition Cheng-Lin Liu,Changshui Zhang,Liang Wang,2012-09-04 This book constitutes the refereed proceedings of the Chinese Conference on Pattern Recognition CCPR 2012 held in Beijing China in September 2012 The 82 revised full papers presented were carefully reviewed and selected from 137 submissions The papers are organized in topical sections on pattern recognition theory computer vision biometric recognition medical imaging image and video analysis document analysis speech processing natural language processing and information retrieval *Real Estate Asset Inventory* ,1992 **Antipodean Childhoods** Helga Ramsey-Kurz,Ulla Ratheiser,2020-05-15 Though obvious the productiveness of combining the three concepts of childhood otherness and the postcolonial has not inspired much academic inquiry so far The essays assembled in this book make up for this omission and address aspects of growing up in Australia and New Zealand from various angles They base their argument on the premise that whether in settler migrant or indigenous communities children tend to be ascribed a space of their own mostly outside but never independent of that of adults How adults configure this space both practically and imaginatively for instance in the arts in adult and children s literature in film and photography or in historical documents is one of the questions answered in the process How these configurations have developed with time and under the influence of specific historical circumstances is another Thus the individual papers are more than a contribution to the current re discovery of the theme of childhood in European cultures in that Antipodean Childhoods remains centrally concerned with the cultural specificity of childhoods lived in Australia and New Zealand and with the theoretical relevance of this specificity to postcolonial literary cultural and historical studies

[Fra Angelico](#) Stephan Beissel,2023-12-28 Secluded within cloister walls a painter and a monk and brother of the order of the Dominicans Angelico devoted his life to religious paintings Little is known of his early life except that he was born at Vicchio in the broad fertile valley of the Mugello not far from Florence that his name was Guido de Pietro and that he passed his youth in Florence probably in some bottega for at twenty he was recognised as a painter In 1418 he entered in a Dominican convent in Fiesole with his brother They were welcomed by the monks and after a year's novitiate admitted to the brotherhood Guido taking the name by which he was known for the rest of his life Fra Giovanni da Fiesole for the title of Angelico the Angel or Il Beato The Blessed was conferred on him after his death Henceforth he became an example of two personalities in one man he was all in all a painter but also a devout monk his subjects were always religious ones and represented in a deeply religious spirit yet his devotion as a monk was no greater than his absorption as an artist Consequently though his life was secluded within the walls of the monastery he kept in touch with the art movements of his time and continually developed as a painter His early work shows that he had learned of the illuminators who inherited the Byzantine traditions and had been affected by the simple religious feeling of Giotto's work Also influenced by Lorenzo Monaco and the Sienese School he painted under the patronage of Cosimo de' Medici Then he began to learn of that brilliant band of sculptors and architects who were enriching Florence by their genius Ghiberti was executing his pictures in bronze upon the doors of the Baptistery Donatello his famous statue of St George and the dancing children around the organ gallery in the Cathedral and Luca della Robbia was at work upon his frieze of children singing dancing and playing upon instruments Moreover Masaccio had revealed the dignity of form in painting Through these artists the beauty of the human form and of its life and movement was being manifested to the Florentines and to the other cities Angelico caught the enthusiasm and gave increasing reality of life and movement to his figures
