Framework For Physical Education In The Early Years:

A Framework for Physical Education in the Early Years M. E. Carroll, Miss Hazel Manners, Hazel Manners, 2003-10-04

This text examines the National Curriculum Physical Education to Key Stage 1 in the light of recent changes. It identifies six basic principles which provide the foundation for the rationale, curriculum content, the teaching and the planning processes required in providing a balanced programme for children aged 3 to 7 years. Special attention is paid to movement education for children of nursery age, providing as it does a sound foundation for later work in the early years. Games, gymnastics, dance and swimming are covered in detail and sample units of work for each group provide students in initial teacher training and teachers with valuable materials for use in schools. The final chapter looks at the role of the curriculum leader or co-ordinator for physical education at Key Stage 1, offering guidance on how to agree and implement a common school policy. **A**

Education and Development 3-11 Jonathan Doherty, Peter Brennan, 2012-08-21. Physical education plays a vital role in children's development, health and well-being and is an increasingly important part of the government's strategy for healthy schools. The role and profile of physical education at primary level continues to grow as awareness of the need to encourage an active lifestyle at an early age increases. This accessible guide to teaching PE within the 3-11 age range will allow all non-specialist primary teachers to approach the subject with confidence, encouraging a better understanding of its role within schools and the special contribution it can make to children's lives. The book shows how to guide children's movement experiences from the Foundation Stage right through to adventurous activities and sports games at the end of Key Stage 2. It contains a wealth of practical advice on developmentally appropriate practical ideas, supports the PECCSL strategy, PE School Sport and Club Links of providing at least 2 hours a week on high-quality PE and school sport within schools. Written for all early years and primary students on teacher education courses, this book is also relevant for teachers, HLTAs and other non-PE specialists working with children up to the age of 11. **Mastering Primary Physical Education** Kristy Howells, Alison Carney, Neil Castle, Rich Little, 2017-09-21.

Mastering Primary Physical Education introduces the primary physical education curriculum and helps trainees and teachers learn how to plan and teach inspiring lessons that make physical education irresistible. Topics covered include: Current developments in physical education; Physical education as an irresistible activity; Physical education as a practical activity; Skills to develop in physical education; Promoting curiosity; Assessing children in physical education; Practical issues. This guide includes examples of children's work, case studies, readings to reflect upon and reflective questions that all help to exemplify what is considered to be best and most innovative practice. The book draws on the experience of four leading professionals in primary physical education: Kristy Howells, Alison Carney, Neil Castle and Rich
