Framing The Child:

Framing Childhood in Eighteenth-century English Periodicals and Prints, 1689-1789 Anja Müller, 2009 Shedding light on an important and neglected topic in childhood studies Anja Müller interrogates how different concepts of childhood proliferated and were construed in eighteenth century periodicals and satirical prints In examining links between text and image Müller uncovers the role these media played in the genealogy of childhood prior to the 1790s challenging the myth that situates the origin of childhood in late eighteenth century England The Child, 1919 Storming Zion Stuart A. Wright, Susan J. Palmer, 2015-11-06 While scholars media and the public may be aware of a few extraordinary government raids on religious communities such as the U S federal raid on the Branch Davidians in 1993 very few people are aware of the scope of these raids or the frequency with which they occur Inspired by the Texas State raid on the Fundamentalist Church of Latter day Saints in 2008 authors Stuart A Wright and Susan J Palmer decided to collect data on all the raids of this kind that have taken place in Western style democracies over the last six decades They thus established the first archive of raided groups and then used it see if any patterns could be identified Their findings were shocking there were far more raids than expected and the vast majority of them had occurred since 1990 reflecting a nearly exponential increase What could account for this sudden and dramatic increase in state control of minority religions In Storming Zion Wright and Palmer argue that the increased use of these high risk and extreme types of enforcement corresponds to expanded organization and initiatives by opponents of unconventional religions Anti cult organizations provide strategic frames that define potential conflicts or problems in a given community as inherently dangerous and construct narratives that draw on stereotypes of child and sexual abuse brainwashing and even mass suicide The targeted group is made to appear more dangerous than it is resulting in an overreaction by authorities Wright and Palmer explore the implications of heightened state repression and control of minority religions in an increasingly multicultural globalized world At a time of rapidly shifting demographics within Western societies this book cautions against state control of marginalized groups and offers insight into the reasons why the responses to these groups are often so reactionary Six Steps to Successful Child Advocacy Amy Conley Wright, Kenneth J. Jaffe, 2013-11-26 Six Steps to Successful Child Advocacy Changing the World for Children by Amy Conley Wright and Kenneth J Jaffe offers an interdisciplinary approach to child advocacy nurturing key skills through a proven six step process that has been used to train child advocates and create social change around the world The approach is applicable for micro advocacy for one child mezzo advocacy for a community or group of children and macro advocacy at a regional national or international level This practical text offers skill building activities and includes timely topics such as how to use social media for advocacy Case studies of advocacy campaigns highlight applied approaches to advocacy across a range of issues including child welfare disability early childhood and education Words of wisdom from noted child advocates from the U S and around the world including a foreword from Dr Jane Goodall illustrate key concepts Readers are guided through the

process of developing a plan and tools for a real life child advocacy campaign **The Child and the Book: a Manual of Method, for Sunday School Teachers and Other Religious Instructors. ... Second Thousand** Robert DUNNING (and HASSELL (Joseph)),1871 *The Child's Curriculum* Colwyn Trevarthen,Jonathan Delafield-Butt,Aline-Wendy Dunlop,2018-08-30 All children are born with emotional talent But if left untended those talents can wane during the first five years of life Children are sensitive and social beings from birth exhibiting an innate enthusiasm for communication that must be satisfied for healthy development If their feelings agency and motivations are met with affection if they are respected and nurtured then children will respond creatively and that inherent desire for companionship will flourish However with the recent changes in political and educational systems early years education has seen a decline in focus on the emotional wellbeing of children and the development of their creativity Those systems need to adapt if educators are to bring out the best in our future generations By nurturing creativity and emotional wellbeing in the first five years of life long term social benefits can be wrought The book focusses on children s readiness for learning It addresses the natural joy explicit in children s early conversations and engagement with music and their development through play with both adults and other children This kind of education allows children to develop their bodies and skills accept and understand their feelings build relationships and progress both their imagination and their problem solving skills In this way play with others drives development With contributors from the fields of psychological educational and political spheres this book will be of interest to anyone concerned for the future of our children Emblemes and Epigrames. Dr Jane Pilcher,Jane Pilcher,Stephen Wagg,2005-06-28 That childhood is a social construction is understood both by social scientists and in society generally The authors of this book examine the political issues surrounding childhood including law making social policy government provisions and political activism This text examines current social and political issues involving childhood It looks at the impact of the New Right who talk of family values parent power in schools irresponsible provision of contraception to young girls and the increase in child violence as a result of mass media It also considers the response of the caring professions and the Modern Left who campaign amongst other things for the establishment of children s rights *Child and Family Advocacy* Anne McDonald Culp,2013-06-25 Current statistics on child abuse neglect poverty and hunger shock the conscience doubly so as societal

structures set up to assist families are failing them More than ever the responsibility of the helping professions extends from aiding individuals and families to securing social justice for the larger community With this duty in clear sight the contributors to Child and Family Advocacy assert that advocacy is neither a dying art nor a lost cause but a vital platform for improving children s lives beyond the scope of clinical practice This uniquely practical reference builds an ethical foundation that defines advocacy as a professional competency and identifies skills that clinicians and researchers can use in advocating at the local state and federal levels Models of the advocacy process coupled with first person narratives demonstrate how professionals across disciplines can lobby for change Among the topics discussed Promoting children s mental health collaboration and public understanding Health reform as a bridge to health equity Preventing child maltreatment early intervention and public education Changing juvenile justice practice and policy A multi level framework for local policy development and implementation When evidence and values collide preventing sexually transmitted infections Lessons from the legislative history of federal special education law Child and Family Advocacy is an essential resource for researchers professionals and graduate students in clinical child and school psychology family studies public health developmental psychology social work and social policy

Children as Citizens Pauline Harris, Harry Manatakis, 2013-12-17 This book discusses how consultations with young children could signal a change of thinking about how children might influence policy and shape the development of a child friendly state While the consultations in this study were germane to political decisions they took place as multi modal dialogue with children in their educational settings Framed by Australia s national early years learning framework which focuses on children s belonging and identity the consultations saw unique partnerships formed among children educators families and policy officers providing ways in which children s voices may be engaged in educational spaces throughout the world Using a qualitative case study approach these consultations were documented through observations interviews artefact collection and document analyses allowing the authors to construct a framework for engaging children as citizens that is transferable to a variety of settings Chapters provide an insight into the various aspects involved in children s consultations from conceptualizing and planning consultations with young children to implementation and documentation through to the uptake and consequence of children s messages factors that contribute to the effectiveness of consultations challenges that arise and areas for improvement when engaging with children s voices implications for children s participation as valued citizens and a framework for considering young children s voices in decision making processes This book offers fresh ideas for working with young children in the decision making process and will appeal to early childhood researchers educators policymakers and practitioners across various sectors agencies and disciplines

Children's Human Rights in the USA Yvonne Vissing, 2023-07-19 This book critically examines why a human rights framework would improve the wellbeing and status of young people It explores children s rights to provision protection and participation from human rights and clinical sociological perspectives and from historical to contemporary events It

discusses how different ideologies have shaped the way we view children and their place in society and how despite the rhetoric of children's protection people under 18 years of age experience more poverty violence and oppression than other group in society The book points to the fact that the USA is the only member of the United Nations not to ratify a children's human rights treaty and the impact of this decision finds US children less healthy and less safe than children in other developed countries It shows how a rights respecting framework could be created to improve the lives of our youngest citizens and the future of democracy Authored by a renowned clinical sociologist and international human rights scholar this book is of interest to researchers students social workers and policymakers working in the area of children's wellbeing and human rights
