The Survival of Dulles Michael M. Canaris, 2021-08-17 This collection marking the centenary of Avery Dulles s birth makes an entirely distinctive contribution to contemporary theological discourse as we approach the second century of the cardinal s influence and the twenty first of Christian witness in the world Moving beyond a festschrift the volume offers both historical analyses of Dulles s contributions and applications of his insights and methodologies to current issues like immigration exclusion and digital culture It includes essays by Dulles s students colleagues and peers as well as by emerging scholars who have been and continue to be indebted to his theological vision and encyclopedic fluency in the ecclesiological developments of the post conciliar Church Though focused more on Catholic and ecumenical affairs than interreligious ones the volume is intentionally outward facing and strives to make clear the diverse and pluralistic contours of the cardinal s nearly unrivaled impact on the North American Church which truly crossed ideological denominational and generational boundaries While critically recognizing the limits and lacunae of his historical moment it serves as one among a multitude of testaments to the notion that the ripples of Avery Dulles s influence continue to widen toward intellectually distant shores

The Real Royal Family James E. Schultz, 2021-03-26 God made human beings in his image and that is what makes us so valuable Yet there are vastly different ideas of what the image means and

how sin affects the image and each of those ideas impacts the claim that the image grounds human value. People have treated one another in either horrible or wonderful ways based on their theologies of the image. This book examines the logical implications of various image doctrines in the real world. Also in Genesis 1:26-27 the image of God is closely tied to the first stated purposes of human life in Genesis 1:28. Yet such practical purposes seem remote from the private spirituality of the gospel story often heard in churches. To live out our part in God's creation project we need to understand the image of God within the unfolding story. Scripture narrates from creation to new creation. This book builds a theology of the image of God by situating it firmly in the biblical narrative, harnessing the insights of biblical theology and conversing with theologians past and present to form a coherent story of God, his children, and his creation in this age and the age to come.

Introduction to Family Processes Randal D. Day, 2014-09-04. What goes on behind closed doors in families is examined in this text. Through his storytelling style, Randy Day introduces readers to the family processes, approach, the strategies and behaviors families use to achieve goals. The emphasis is on how families work and interact rather than on the psychological, sociological, or economic processes. It examines emotions in families, communication, relationship formation, dissolution, family rituals, and power and conflict. Chapters open with a Preview and conclude with a Summary, Study Questions, Key Terms, and Suggested Readings. Principle Boxes highlight key concepts, and a Glossary defines the key terms listed at the ends of the chapters. Significantly updated with 50% new material, including many new references and examples, the new edition features a new chapter that introduces the discipline's methodology. A new chapter on relationship formation, including partner selection, falling in love, commitment, sexuality, passion, and intimacy. A new design reformatted to tie in with the book's website at <http://www.psympress.com/family-processes>, which now contains the Chapter Activity Questions that reinforce critical thinking skills, the Journal Activities that strengthen students' personal connection to the material, and the chapter Previews and Key Terms for review purposes. An Instructor's Web Resource at <http://www.psympress.com/family-processes> with small group and in-class exercises, lecture outlines in PowerPoint, topics for debate, suggested films, and multiple choice, true/false, matching, and essay questions. More material on the role of gender, power, genetics, and personality in relationships, families from diverse cultural and ethnic backgrounds, and the impact of work and technology on the family, the changing nature of family structures, including single parenting and gay unions, and stresses in family life. Written for undergraduate courses on family processes, family dynamics, family life, the family, and/or marriage, family interaction taught in family studies, human development, psychology, sociology, social work, education, consumer sciences, home economics, health, and nursing departments, this book also appeals to those who want to maximize the positive parts of family life and manage the inevitable challenges.

Abolish the Family Sophie Lewis, 2022-10-04. What if we could do better than the family? We need to talk about the family. For those who are lucky, families can be filled with love and care, but for many, they are sites of pain from abandonment and neglect to abuse and violence. Nobody is more likely to harm you than your family. Even in so-called happy families, the unpaid

unacknowledged work that it takes to raise children and care for each other is endless and exhausting It could be otherwise in this urgent incisive polemic leading feminist critic Sophie Lewis makes the case for family abolition Abolish the Family traces the history of family abolitionist demands beginning with nineteenth century utopian socialist and sex radical Charles Fourier the Communist Manifesto and early twentieth century Russian family abolitionist Alexandra Kollontai Turning her attention to the 1960s Lewis reminds us of the anti family politics of radical feminists like Shulamith Firestone and the gay liberationists a tradition she traces to the queer marxists bringing family abolition to the twenty first century This exhilarating essay looks at historic rightwing panic about Black families and the violent imposition of the family on indigenous communities and insists only by thinking beyond the family can we begin to imagine what might come after

Restorative Justice and Family Violence Heather Strang,John Braithwaite,2002-07-08 This 2002 book addresses one of the most controversial topics in restorative justice its potential for dealing with conflicts within families Most restorative justice programs specifically exclude family violence as an appropriate offence to be dealt with this way This book focuses on the issues in family violence that may warrant special caution about restorative justice in particular feminist and indigenous concerns At the same time it looks for ways of designing a place for restorative interventions that respond to these concerns Further it asks whether there are ways that restorative processes can contribute to reducing and preventing family violence to healing its survivors and to confronting the wellsprings of this violence The book discusses the shortcomings of the present criminal justice response to family violence It suggests that these shortcomings require us to explore other ways of addressing this apparently intractable problem

African Women's Theology, Gender Relations, and Family Systems Theory Mpyana Fulgence Nyengele,2004

African women theologians have written extensively about problems in gender relations in African contexts identifying oppressive elements and their effects on women's self concept and status in the church family and society This book provides much needed pastoral theological attention and a response to the psychospiritual relational and sociocultural effects of gender injustice and marginalization of women It critically examines concepts methods and principles of family systems theory analyzes gender relations in African families and churches and develops a theology of pastoral care based on the Trinitarian concept of perichoresis that offers pastoral guidelines for effective pastoral counseling with women and men as well as recommendations for corrective and preventative care grounded in educational strategies The paradigm of pastoral care that emerges attends both to women affected by gender injustice and to the sociocultural norms that cause distress and perpetuate gender oppression

toiled in bondage Yet nearly half a million of these individuals including over 250 000 in the South were free In *Beyond Slavery's Shadow* Warren Eugene Milteer Jr draws from a wide array of sources to demonstrate that from the colonial period through the Civil War the growing influence of white supremacy and proslavery extremism created serious challenges for free persons categorized as negroes mulattoes mustees Indians or simply free people of color in the South Segregation exclusion disfranchisement and discriminatory punishment were ingrained in their collective experiences Nevertheless in the face of attempts to deny them the most basic privileges and rights free people of color defended their families and established organizations and businesses These people were both privileged and victimized both celebrated and despised in a region characterized by social inconsistency Milteer's analysis of the way wealth gender and occupation intersected with ideas promoting white supremacy and discrimination reveals a wide range of social interactions and life outcomes for the South's free people of color and helps to explain societal contradictions that continue to appear in the modern United States
