Life Beyond Murder Dan Gabriel Rusu, 2024-11-18 Detailing the resettlement narratives of five men who have committed different types of murder confrontational revenge financial gain random intimate partner femicide and family feud this book counters narratives of neoliberal responsabilizing messages of individualism to investigate what informs their experiences of resettlement **Life Beyond Murder Exploring the Identity Reconstruction of Mandatory Lifers After Release** explores the impact of mandatory lifers institutionalisation families consumer culture emotions and supervision considering how these factors hamper or assist with their transition from the stigmatising identity of being dangerous murderers The book's discussion is guided by the men's narratives employing a tug of war metaphor to elucidate the push pull forces that influence the men's efforts to reconstruct their lives in the years following their release To be successful the book argues these men have to reconcile a paradoxical situation and the most skilled mandatory lifers manage to relativise their involvement in murder whilst concomitantly showing remorse This situation is achieved through a Splitting Narrative that ultimately defends against anxiety contains internal stigma and often showcases self flagellant remorse as they move towards positive social identities such as philanthropists family men wounded healers and pious members of the church **Life**
