Granting And Renegotiating Infrastructure Concessions Avoiding The Pitfalls:

Granting and Renegotiating Infrastructure Concessions J. Luis Guasch, 2004-01-01 During the 1990s infrastructure concessions were hailed as the solution to Latin America's endemic infrastructure deficit by combining private sector efficiency with rent dissipation brought about by competition This publication examines the design and implementation of over 1 000 examples of concession contracts in order to identify the problems that have occurred in the process It goes on to highlight lessons to be learned for the future in order to realise the potential benefits of infrastructure reform and to contribute to economic growth and poverty reduction **International Handbook on Mega-Projects** Hugo Priemus, Bert van Wee, 2013-11-29 Providing crucial background information for those who want to understand decision making processes on large transport infrastructure projects this fascinating Handbook will prove an important source of information for academics researchers and students Where Do We Stand on Transport Infrastructure Deregulation and Public Private Partnership, Private Participation in Infrastructure in Developing Countries Clive Harris, 2003 Governments have long recognized the vital role that modern infrastructure services play in economic growth and poverty alleviation For much of the post Second World War period most governments entrusted delivery of these services to state owned monopolies But in many developing countries the results were disappointing Public sector monopolies were plagued by inefficiency Many were strapped for resources because governments succumbed to populist pressures to hold prices below costs Fiscal pressures and the success of the pioneers of the privatization of infrastructure services provided governments with a new paradigm Many governments sought to involve the private sector in the provision and financing of infrastructure services The shift to the private provision that occurred during the 1990s was much more rapid and widespread than had been anticipated at the start of the decade By 2001 developing countries had seen over 755 billion of investment flows in nearly 2500 infrastructure projects However these flows peaked in 1997 and have fallen more or less steadily ever since These declines have been accompanied by high profile cancellations or renegotiations of some projects a reduction in investor appetite for these activities and in some parts of the world a shift in public opinion against the private provision of infrastructure services The current sense of disillusionment stands in stark contrast to what should in retrospect be surprise at the spectacular growth of private infrastructure during the 1990s An Opportunity for a Different Peru Marcelo Giugale, Vicente Fretes Cibils, 2007 For the first time in the republican history of Peru the presidential transition takes place in democracy social peace fast economic growth and favorable world markets In other words there has never been a better chance to build a different Peru a richer country more equal and governable There are multiple ways to achieve that goal New reforms must stem from a widespread and participatory debate one of a common vision conceived for and by Peruvians This book aims at making a technical and independent contribution to such debate it summarizes the knowledge available about the challenges to be faced by the new administration The study does not recommend silver bullets but suggests policy options It is based on the

analysis of the current reality and in six decades of relationships with Peru in which the Bank has implemented more than 100 projects and prepared more than 500 technical reports covering the wide range of development topics When necessary the study provides lessons that the Bank has learned elsewhere The study provides a conceptual framework to the analysis of the country's 34 economic sectors and the two historical perspectives behind them In doing so it offers a comprehensive reform agenda that sheds light on possible priorities and courses of action

ECMT Round Tables Transport Services The Limits of (De)regulation European Conference of Ministers of Transport, 2006-01-03 The ECMT Round Table examines the effects and limitations of regulating transport services and examines in particular the factors that necessitate regulation the role of transaction costs and the cost of regulation

Power's Promise Julian A. Lampietti, 2004 This study examines the fiscal efficiency social and environmental impact of power sector reforms in seven countries in Europe and central Asia covering Armenia Azerbaijan Georgia Hungary Kazakhstan Moldova and Poland It includes a CD ROM containing a pdf of this publication in Russian plus pdfs of English and Russian versions of the following related titles i Utility pricing and the poor lessons from Armenia ii Coping with the cold heating strategies for eastern Europe and central Asia's urban poor and iii Revisiting reform in the energy sector lessons from Georgia

Structured Finance in Latin America Hela Cheikhrouhou, 2007 Structured Finance in Latin America explores how structured finance mechanisms can channel pension savings to support projects in underserved sectors deepen capital markets and contribute to investment and economic growth Private pension funds have been accumulating assets rapidly in the wake of pension system reforms in many Latin American countries Strict investment regulations to protect workers' savings have limited their investment in highly creditworthy domestic securities yet pension fund demand for new securities has outstripped issuance of eligible traditional corporate debt instruments This has contributed to a high concentration of pension fund assets in public debt Innovative structured finance mechanisms can help bring to the market a new set of creditworthy securities backed by pools of loans to small borrowers mortgage loans or the expected proceeds of large infrastructure projects These mechanisms create new investment opportunities for pension funds while establishing additional sources of funding for underserved market segments Policy makers and regulatory authorities have a catalytic role to play in the development of structured finance securities by establishing a conducive legal regulatory and tax framework Structured Finance in Latin America serves as a practical guide for development practitioners policy makers and others working in government international or nongovernmental organizations and financial institutions who focus on finance and investment infrastructure transport and urban development housing finance small and medium sized enterprise development and pension reform

People and Power Julian A. Lampietti, Sudeshna Ghosh Banerjee, Amelia Branczik, 2007 Empirical insights on household behavior and electricity consumption patterns in this book reveal that in Europe and Central Asia the erosion of tariff based subsidies has disproportionately affected the poor while direct transfers through social benefit systems have often been inadequately

targeted The book suggests alternative strategies for achieving cost recovery in the electricity sector in a socially and politically acceptable manner providing lessons that are equally relevant for other utilities and regions **Where Do We Stand on Transport Infrastructure Deregulation and Public-private Partnership?** Antonio Estache,Tomás Serebrisky,2004 American Book Publishing Record ,2003 **Public private partnerships und Wettbewerb** Rembert Schulze Wehninck,2008-06-26 Rembert Schulze Wehninck analysiert die langfristigen Wettbewerbsswirkungen von PPPs Am Beispiel der kommunalen Abfallwirtschaft untersucht er ob PPPs zu Wettbewerbsbeschränkungen führen und wie sich PPPs und die an ihnen beteiligten Akteure in den jeweils relevanten Märkten verhalten **Computing in Civil Engineering** ,2007 Public-private Partnership Handbook ,2008 This Public Private Partnership PPP Handbook is designed for the staff of the Asian Development Bank ADB and its developing member countries clients It provides an overview of the role design structure and execution of PPPs for infrastructure development Introduction *Private Participation in Infrastructure in Developing Countries* Clive Harris,2003 Many of the problems are related to difficulties in sustaining cost covering user fees for these sectors This study aims to distill the experience over the last 15 years The main factors in the growth and subsequent decline are examined The report assesses the impact that the private provision of infrastructure has had on service delivery and analyzes the consequences for other important goals Main policy lessons are provided for governments that seek to ensure that the supply of infrastructure services does not become a bottleneck to growth BOOK JACKET
