Television, Audiences and Everyday Life Matt Briggs, 2009-10-16 Television is commonplace in developed societies an unremarkable and routine part of most people's everyday lives but also the subject of continued concern from academia and beyond But what do we really know about television the ways that we watch it the meanings that are made and its relationship to ideology democracy culture and power Television Audiences and Everyday Life draws on an extensive body of audience research to get behind this seemingly simple activity Written in a clear and accessible style key audience studies are presented in ways that illuminate critical debates and concepts in cultural and media studies Key topics and case studies include News debate and the public sphere Reality television talk shows and media ethics Soap opera play and gossip The uses of television in the home Television

Audience Helen Wood,2024-02-21 This accessible guide through audience studies histories outlines a contemporary Cultural Studies approach to audiences for the digital age This book is not a survey of all existing audience research Instead its chapters survey parts of the field in order to draw some through lines from older traditions to contemporary debates giving students a way in to thinking about the current landscape from an audience sensitive perspective In order to do this the book utilises a series of verbs to organise and cut a path through audience research and register its ongoing relevance today These verbs are audience anchor mean feel and work The list is not exhaustive and the reader is invited to think about what verbs they would add or change throughout the book Audience suggests renewing the importance of form as a cultural process and in circling back to Cultural Studies circuit of culture it proposes a modified framework for the digital circuit Each chapter opens with a particular scenario for the reader to reflect upon and asks a specific question to help orient the account of research that is to come especially for those new to Media and Cultural Studies and to audience studies Written in an engaging and accessible style this book is ideal for both students and researchers of Media and Cultural Studies **In**
