**Eric Aronoff**

## **Futures Of Cultures:**

**The Futures of Cultures**, 1994     *The Futures of Cultures* Unesco, 1994     *Futures of the Study of Culture* Doris Bachmann-Medick, Jens Kugele, Ansgar Nünning, 2020-08-10 How can we approach possible but unknown futures of the study of culture This volume explores this question in the context of a changing global world The contributions in this volume discuss the necessity of significant shifts in our conceptual and epistemological frameworks Taking into account changing institutional research settings the authors develop pathways to future cultural research addressing the crucial concerns of the cultural and social worlds themselves The contributions thereby utilize contact zones within a wide range of disciplines such as cultural anthropology sociology cultural history literary studies the history of science and bioethics as well as the environmental and medical humanities Examining emerging inter and transdisciplinary points of reference the volume invites scholars in the humanities and social sciences to take part in a conversation about theories methods and practices for the future study of culture

**Culture's Futures** Eric Aronoff, 2025-02-24 This book argues that science fiction has been a key participant along with anthropology and literary theory in the interdisciplinary debates over culture and narrative form from the modernist period to the present Both science fiction and the anthropological ethnography in their modernist forms and post modern postcolonial reinventions are intertwined technologies for constructing culture and difference through narrative worldbuilding This book traces the ways SF authors including Ray Bradbury Ursula K Le Guin and Octavia E Butler as well as Indigenous futurists Craig Strete Celu Amberstone Rebecca Roanhorse and Cherie Dimaline have deployed interrogated and revised these models of culture representation and power to imagine new futures

**Future Cultures** Scott Smith, Susan Cox-Smith, 2023-10-03 It s hard to know what specific opportunities technologies or challenges the future will bring If you want to overcome the uncertainties of tomorrow it s essential that you build a future culture The potential for success is limitless for businesses which develop a culture designed for innovating and adapting to the future Drawing upon decades of experience as futurists and consultants Scott Smith and Susan Cox Smith offer proven strategies that will allow you to fundamentally rewire your culture so that it becomes more fluent agile and prepared to deal with whatever tomorrow will bring From futureproofing your brand and manifesto to adapting the experience of your workforce Future Cultures offers practical tools and techniques that will bring your focus out of the past and into the future Through first hand interviews and case studies from multinational companies such as IBM and the UN this book will show how you can join the world s most innovative businesses by prioritizing tomorrow today

**Cultural Heritage and the Future** Cornelius Holtorf, Anders Högberg, 2020-12-10 Cultural Heritage and the Future brings together an international group of scholars and experts to consider the relationship between cultural heritage and the future Drawing on case studies from around the world the contributing authors insist that cultural heritage and the future are intimately linked and that the development of futures thinking should be a priority for academics students and those working in the wider professional heritage sector Until

recently the future has never attracted substantial research and debate within heritage studies and heritage management and this book addresses this gap by offering a balance of theoretical and empirical content that will stimulate multidisciplinary debate in the burgeoning field of critical heritage studies Cultural Heritage and the Future questions the role of heritage in future making and will be of great relevance to academics and students working in the fields of museum and heritage studies archaeology anthropology architecture conservation studies sociology history and geography Those working in the heritage professions will also find much to interest them within the pages of this book *The Future of Cultural Tourism* Xavier Matteucci, Simone Moretti, 2025-01-22 This book provides multi layered and nuanced perspectives on how drivers of change may influence cultural tourism on a global national and local level As such it contributes to a greater understanding of how cultural tourism will be governed performed and experienced within a volatile uncertain complex and ambiguous future environment The volume examines how the cultural tourism sector can address the needs of cultural tourists through product and service development offers insights into alternative post anthropocentric values underpinning cultural tourism governance and consumption and engages with immersive collaborative slow and technology driven cultural heritage based tourism experiences The book includes both empirical and conceptual chapters with the contributors suggesting various alternatives that are underpinned by utopian and or dystopian outlooks on the likely future s of cultural tourism Chapter 8 is free to download as an open access publication under a CC BY NC ND licence You can download it here <https://zenodo.org/records/14730188> **Cultures of the Future** Magoroh Maruyama, Arthur M. Harkins, 2011-06-15 No detailed description available for Cultures of the Future **The Futures of Culture** UNESCO. Future-oriented Studies Programme, 1992 **The Wiley Blackwell Companion to Cultural and Social Geography** Ishan Ashutosh, Jamie Winders, 2025-07-08 Addresses both social and cultural geography in a single volume authored and edited by leading authorities in the fields The Companion to Social and Cultural Geography provides reliable and up to date coverage of both foundational topics and emerging themes within two vibrant and increasingly interconnected subdisciplines of geography Building upon the Companion to Cultural Geography first published in 2013 editors Ishan Ashutosh and Jamie Winders offer an expertly curated collection of original essays with special emphasis on early career scholars geographers of color and geographers from the Global South Organized thematically the Companion opens with a series of Global Dispatches from cultural and social geographers working in different disciplines and locations followed by explorations of key concepts in social and cultural geography such as identity belonging solidarity inequalities and intersectional geographies Subsequent chapters examine a wide range of cultural and social geographies including creativity technologies science nature memory tourism migration labor and religion Throughout the Companion authors share fresh insights into the racial reckonings of late ongoing issues related to climate change the consequences of COVID 19 and more Across its 46 chapters the Companion to Social and Cultural Geography Examines how approaches to human environment dynamics in social and cultural

geography help shed light on current challenges Covers critical topics such as justice protest borders public health urban planning indigeneity genders class race and sexualities Emphasizes the value of a geographic perspective to understanding social and cultural dynamics Discusses how geography has confronted its deep connections to colonialism imperialism and white supremacy Addresses a range of emerging and established themes including queer and transgender geographies Black geographies animal geographies and cultural geographies of states Incorporates a diversity of writing styles narratives and analyses such as interviews conversations short essays autobiography and autoethnography Accessible authoritative and highly relevant to today's students the Companion to Social and Cultural Geography is an essential textbook for undergraduate or graduate courses on social or cultural geography cultural studies cultural sociology and ethnic studies

**Environmental Change and the World's Futures** Jonathan Paul Marshall, Linda H. Connor, 2015-08-27 Climate change and ecological instability have the potential to disrupt human societies and their futures Cultural social and ethical life in all societies is directed towards a future that can never be observed and never be directly acted upon and yet is always interacting with us Thinking and acting towards the future involves efforts of imagination that are linked to our sense of being in the world and the ecological pressures we experience The three key ideas of this book ecologies ontologies and mythologies help us understand the ways people in many different societies attempt to predict and shape their futures Each chapter places a different emphasis on the linked domains of environmental change embodied experience myth and fantasy politics technology and intellectual reflection in relation to imagined futures The diverse geographic scope of the chapters includes rural Nepal the islands of the Pacific Ocean Sweden coastal Scotland North America and remote rural and urban Australia This book will appeal to researchers and students in anthropology sociology environmental studies cultural studies psychology and politics

**Introduction** Jennifer M. Gidley, 2017-03-16 From the beginning of time humans have been driven by both a fear of the unknown and a curiosity to know We have always yearned to know what lies ahead whether threat or safety scarcity or abundance Throughout human history our forebears tried to create certainty in the unknown by seeking to influence outcomes with sacrifices to gods preparing for the unexpected with advice from oracles and by reading the stars through astrology As scientific methods improve and computer technology develops we become ever more confident of our capacity to predict and quantify the future by accumulating and interpreting patterns from the past yet the truth is there is still no certainty to be had In this Very Short Introduction Jennifer Gidley considers some of our most burning questions What is the future Is the future a time yet to come Or is it a utopian place Does the future have a history Is there only one future or are there many possible futures She asks if the future can ever be truly predicted or if we create our own futures both hoped for and feared by our thoughts feelings and actions and concludes by analysing how we can learn to study the future ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

*Liberalism and the Challenge of Climate Change* Christopher Shaw, 2023-08-25 In this book Christopher Shaw analyses how liberalism has shaped our understanding of climate change and how liberalism is legitimated in the face of a crisis for which liberalism has no answers The language and symbolism we use to make sense of climate change arose in the post World War II liberal institutions of the West This language and symbolism in neutralising the philosophical and ideological challenge climate change poses to the legitimacy of free market liberalism has also closed off the possibility of imagining a different kind of future for humanity The book is structured around a repurposing of the guardrail concept commonly used in climate science narratives to communicate the boundary between safe and dangerous climate change Five discursive guardrails are identified which define a boundary between safe and dangerous ideas about how to respond to climate change The theoretical treatment of these issues is complemented with data from interviews with opinion formers decision makers and campaigners exploring what models of human nature and political possibilities guide their approach to the politics of climate change governance This book will be of great interest to students and scholars of climate change liberal politics environmental communication and environmental politics and philosophy in general *Decolonial Cultural Practices Towards Pluriversal Cultural Institutions and Policies* Meike Lettau, Özlem Canyürek, 2024-12-31 The book critically examines

the epistemological disparities between colonialism and capitalism critical cultural practices and Western art institutions It does so through the lens of documenta 15 focusing on ruangrupa's lumbung approach which confronts Eurocentric cultural norms and stimulates a shift towards pluriversal horizons demonstrating the transformative potential of alternative methodologies This book provides a comprehensive understanding of how collective methods and practices can cultivate pluriversal horizons in cultural institutions and policies informed by extensive field research at documenta 15 The key elements of the approach include interdisciplinary perspectives linking theory and practice and exploring under-discussed dimensions of epistemological disparities It offers practical and theoretical insights into the development of frameworks for cultural practices and policies critical of coloniality and discrimination recognizes the coexistence of equally valuable epistemes and aims to dismantle Eurocentric structures in the cultural sector This valuable contribution presents relevant insights for those interested in decolonial studies diversity frameworks in cultural institutions and individuals engaged in the critique and transformation of Eurocentric practices within the cultural sector It will appeal to scholars researchers and practitioners in fields such as cultural studies sociology political science cultural geography cultural policy and art education as well as professionals and policymakers

*A Study of the Future Cultural Foundations of Egyptian Education by the Year 2000* Mohamed Saad El-Alfy El-Shall, 1982

**Teaching Interculturality 'Otherwise'** Fred Dervin, Mei

Yuan, Sude, 2022-12-14 This edited volume focuses on the thorny and somewhat controversial issue of teaching and learning interculturality in a way that considers the notion from critical and reflexive perspectives when introduced to students Comprised of three parts the book discusses the nuts and bolts of teaching interculturality considers changes in the teaching of interculturality and provides pedagogical insights into interculturalising the notion It studies both teaching explicitly about interculturality and how to incorporate interculturality into teaching practices or into an institution By sharing varied cases and theoretical reflections on the topic the editors and contributors from different parts of the world aim to stimulate more initiatives to enrich the field instead of delimiting it especially in complement to and beyond the West or Global North and also to build up further reflexivity in the way readers engage with interculturality in education This will be a must read for teachers and researchers of intercultural communication education at different educational levels as well as anyone interested in scholarship on education for interculturality Chapter 3 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons 4.0 license

**The Future of Political Science**

Harold D. Lasswell, 2017-09-04 Harold D. Lasswell is arguably the quintessential face of political science to the larger public of the past century However there is a side to Lasswell less well known but of special importance in this day and age the place of the profession of politics as an academic activity This book written at the start of the culture wars thirty years ago outlines the basic core position of political science practitioners It helps to explain why the field kept its collective cool when other social science professionals veered to more extreme activist positions The Future of Political Science grew out of the

phenomenally rapid expansion of the study of government in the United States and elsewhere The study of professionalism among physical scientists lawyers engineers etc was not matched by such internal examination within the social sciences until much later Lasswell s overview centered on developments in the United States There unfettered study of government reached unprecedented heights in the final stage of the twentieth century The key concept of this volume one that continues to inform discourse is the relationship of political science as a mechanism for the study and teaching of the political system to the field as a tool of the Establishment This concern grew in the wake of a variety of scandals and secret support sponsored by both government and non government organizations alike The Future of Political Science covers areas ranging from membership size and disparities intervention scenarios in world events the nature of creativity in political research collaboration in projects with the other social sciences and the location of scientific centers of gravity in the study of politics Because of Lasswell s works we have a field of the political science of knowledge as well as the sociology of knowledge Harold D Lasswell served as Ford Foundation Professor of the Social Sciences at Yale University Distinguished Professor of Policy Sciences at Joh

**Healing From Colonization** James Carter, AI, 2025-02-27 Healing From Colonization addresses the profound and enduring harm caused by colonial practices exploring pathways to recovery through the lenses of history and psychology It delves into how colonialism extends beyond political domination leaving deep psychological scars through forced assimilation and cultural disruption A crucial insight is the importance of cultural revitalization where reclaiming ancestral knowledge and traditions empowers communities to redefine their identities and resist cultural imperialism The book argues that genuine healing requires a multifaceted approach acknowledging historical trauma while actively dismantling colonial systems It examines intergenerational trauma highlighting how colonial violence has long term consequences that affect successive generations It also explores community led initiatives focused on language preservation and cultural education The book unfolds by first examining the psychological mechanisms of intergenerational trauma then exploring cultural revitalization approaches and finally analyzing decolonization strategies By integrating historical context cultural resurgence and systemic interventions Healing From Colonization offers a framework for holistic healing and provides concrete strategies for cultural revitalization and achieving Indigenous self determination
