Padre Pio Sergio Luzzatto, 2010-11-23 The first historical appraisal of the astonishing life and times of a controversial twentieth century saint Padre Pio is one of the world s most beloved holy figures more popular in Italy than the Virgin Mary and even Jesus His tomb is the most visited Catholic shrine anywhere drawing more devotees than Lourdes His miraculous feats included the ability to fly and to be present in two places at once an apparition of Padre Pio in midair prevented Allied warplanes from dropping bombs on his hometown Most notable of all were his stigmata which provoke heated controversy to this day Were they truly God given A psychosomatic response to extreme devotion Or perhaps the self inflicted wounds of a charlatan Now acclaimed historian Sergio Luzzatto offers a pioneering investigation of this remarkable man and his followers Neither a worshipful hagiography nor a sensationalist expos Padre Pio is a nuanced examination of the persistence of mysticism in contemporary society and a striking analysis of the links between Catholicism and twentieth century politics Granted unprecedented access to the Vatican archives Luzzatto has also unearthed a letter from Padre Pio himself in which the monk asks for a secret delivery of carbolic acid a discovery which helps explain why two successive popes regarded Padre Pio as a fraud until pressure from Pio worshipping pilgrims forced the Vatican to change its views A profoundly original tale of

wounds and wonder salvation and swindle Padre Pio explores what it really means to be a saint in our time **Creative Urbanity** Emanuela Guano, 2017 Based on more than a decade of ethnographic research in Genoa Italy Creative Urbanity argues for an understanding of contemporary urban life that refuses scholarly condemnation of urban lifestyles and consumption and casts a fresh light on an oft neglected social group the middle class *Transnational Italian Studies* Charles Burdett, Loredana Polezzi, 2020-07-17 Transnational Italian Studies is specifically targeted at a student audience and is designed to be used as a key text when approaching the disciplinary field of Italian studies It allows the study of Italian culture to be construed and practised not simply as the inquiry into a national tradition but as the study of the interaction of cultural practices both within Italy itself and in those parts of the world that have witnessed the extent of Italian mobility The text argues that Italian culture needs to be considered in a transnational transcultural perspective and that an understanding of linguistic and cultural translation underlies all approaches to the study of Italian culture in a global context Contributions deploy a range of methodological approaches to understand and illustrate how language operates how culture inhabits and constitutes public and private space how notions of time operate within people's lives and the multiple ways in which people experience a sense of personhood Chapters stretch from the medieval period to the present and demonstrate how transnational Italian culture can be critically addressed through the examination of carefully chosen examples Contributors Alessandra Diazzi Andrea Rizzi Barbara Spadaro Charles Burdett Clorinda Donato David Bowe Derek Duncan Donna Gabaccia Eugenia Paulicelli Fabio Camilletti Giuliana Muscio Jennifer Burns Loredana Polezzi Marco Santello Monica Jansen Naomi Wells Nathalie Hester Serena Bassi Stefania Tufi Teresa Fiore and Tristan Kay *Social Movements and Their Technologies* Stefania Milan, 2013-11-06 Now in paperback for the first time Social Movements and their Technologies explores the interplay between social movements and their liberated technologies It analyzes the rise of low power radio stations and radical internet projects emancipatory communication practices as a political subject focusing on the sociological and cultural processes at play It provides an overview of the relationship between social movements and technology and investigates what is behind the communication infrastructure that made possible the main protest events of the past fifteen years In doing so Stefania Milan illustrates how contemporary social movements organize in order to create autonomous alternatives to communication systems and networks and how they contribute to change the way people communicate in daily life as well as try to change communication policy from the grassroots She situates these efforts in a historical context in order to show the origins of contemporary communication activism and its linkages to media reform campaigns and policy advocacy **Debating Cosmopolitics** Mathias Koenig-Archibugi, 2003-07-17 Cosmopolitics the concepts of a world politics based on shared democratic values is in an increasingly fragile state What is needed the writers here suggest is a deliberate decision to extend the principles and values of democracy to the sphere of international relations
