Remembering the Great War in the Middle East Hans-Lukas Kieser, Thomas Schmutz, Pearl Nunn, 2021-10-07 This book addresses the conflicts myths and memories that grew out of the Great War in Ottoman Turkey and their legacies in society and politics It is the third volume in a series dedicated to the combined analysis of the Ottoman Great War and the Armenian Genocide In Australia and New Zealand and even more in the post Ottoman Middle East the memory of the First World War still has an immediacy that it has long lost in Europe For the post Ottoman regions the first of the two World Wars which ended Ottoman rule was the formative experience This volume analyses this complex configuration why these entanglements became possible how shared or even contradictory memories have been constructed over the past hundred years and how differing historiographies have developed Remembering the Great War in the Middle East reaches towards a new conceptualization of the long last Ottoman decade 1912-22 one that places this era and its actors more firmly at the center instead of on the periphery of a history of a Greater Europe a history comprising as contemporary maps did Europe Russia and the Ottoman world

Reconciling Cultural and Political Identities in a Globalized World Michális Michael,2016-04-29 Though geographically far apart Turkey and Australia are much closer than many would think This collection provides a relevant comparative and comprehensive study of two countries seeking to reconcile their history with their geography

Greek Islander Migration to Australia since the 1950s Melissa N. Afentoulis,2021-11-23 Illuminating the experiences of immigrants to Australia in the late twentieth century this book uses

oral history to explore how identity and belonging are shaped through migration Between the 1950s and the 1970s many inhabitants from the small Greek island of Limnos travelled to Australia to flee post war devastation and economic disaster With an emphasis on the lived experiences and memories of Limnians the book sheds light on the emotional pain and trauma they felt as they were separated from their families and homeland Moving away from more traditional outlooks on migration studies this book emphasises the significance of ethno regional identity and analyses how it can bring strength and longevity to a constructed community Both the roles of men and women within the Greek diaspora are examined in the way that they made the difficult decision to leave their homeland and subsequently how they came to nurture and build families within a new evolving community Looking beyond first generation migration the author analyses the pattern of return visits to Limnos by the descendants of migrants Acting as a form of identity consolidation for second generation migrants this journey to the ancestral homeland highlights the fluidity of what it means to belong somewhere and redefines the notion of home The author provides an alternative perspective to traditional migration studies and reaffirms the importance of transnational identity A unique and important addition to research this book combines memory studies and oral narrative to analyse how identity and belonging can be shaped across borders rather than within them Atatürk Andrew Mango,2002-08-26 A superlative and exhaustively researched biography of one of the most complex and controversial figures in twentieth century world history Library Journal Mustafa Kemal Atat rk was virtually unknown until 1919 when he took the lead in thwarting the victorious Allies plan to partition the Turkish core of the Ottoman Empire He divided the Allies defeated the last Sultan and secured the territory of the Turkish national state becoming the first president of the new republic in 1923 fast creating his own legend This revealing portrait of Atat rk throws light on matters of great importance today resurgent nationalism religious fundamentalism and the reality of democracy One of the world s most respected specialists on Turkey The New York Times Mango gives this man one of the least known nation builders of the last century full treatment from his earliest days to his ascension to power and his death from cirrhosis at the age of 57 Few leaders have so modernized an ancient society instituting radical changes in dress religion government education even the alphabet Mango s admiration for Ataturk doesn t keep him from displaying the dictator s arrogance ruthlessness and authoritarianism his Turkish expertise enables him to flesh out Ataturk s complex life via sources he translated himself a rounded finely detailed portrait Publishers Weekly Thanks to Andrew Mango s new biography the best in the English language a man both demonized and idolized appears to us in three dimensions The Washington Post A superb biography Dallas Morning News The best concise account I have ever seen of the decline of the Ottoman Empire The narrative is gripping Geoffrey Lewis author of Modern Turkey *New Pathways in Pilgrimage Studies* Dionigi Albera,John Eade,2016-11-18 Although there has been a massive increase in the volume of pilgrimage research and publications traditional Anglophone scholarship has been dominated by research in Western Europe and North America In their previous edited volume International Perspectives on Pilgrimage Studies Routledge 2015 Albera

and Eade sought to expand the theoretical disciplinary and geographical perspectives of Anglophone pilgrimage studies This new collection of essays builds on this earlier work by moving away from Eurasia and focusing on areas of the world where non Christian pilgrimages abound Individual chapters examine the practice of ziyarat in the Maghreb and South Asia Hindu pilgrimage in India and different pilgrimage traditions across Malaysia and China before turning towards the Pacific islands Australia South Africa and Latin America where Christian pilgrimages co exist and sometimes interweave with indigenous traditions This book also demonstrates the impact of political and economic processes on religious pilgrimages and discusses the important development of secular pilgrimage and tourism where relevant Highly interdisciplinary international and innovative in its approach New Pathways in Pilgrimage Studies Global Perspectives will be of interest to those working in religious studies pilgrimage studies anthropology cultural geography and folklore studies

Events Feasibility and Development William O'Toole,2011 Operational integrity and its feasibility **A Place to Remember** Bruce

Scates,2009-11-04 This book charts the Shrine s history from the first fatalities of the Gallipoli landing to the present day

War Memory and Popular Culture Michael Keren,Holger H. Herwig,2014-01-10 This collection of essays investigates such diverse vehicles for war commemoration as poems battlefield tours souvenirs books films architectural structures comics websites and video games Drawing on essayists from Australia Canada Great Britain Israel and the United States this work explores the evolution from traditional to contemporary forms of war commemoration while addressing the fundamental question of whether these new forms of memorial are meant to encourage the remembering or the forgetting of the experience of war as well as what implications the process of commemoration may have for the continuation of the modern nation state Instructors considering this book for use in a course may request an examination copy here

Australian National Bibliography ,1978 Battlefield Tourism Onur Akbulut,Yakin Ekin,Mehmet Emre Güler,Özgür Sarıbaş,2024-06-24 Introducing real world case studies from across the globe Battlefield Tourism contributes to the growing fields of dark tourism destination and risk management and tourism security **A Few Hares to Chase** Alan Bollard,2016 This is a biography of Bill Phillips famous economist and inventor His early life was a search for adventure across the world in the 1930s and 1940s His later economic focus was about how to make struggling economies work better He was very practical yet unconventional and a genius He built a famous water machine of the economy showed economists how to model by computer and became world famous for the Phillips Curve a basis for monetary policy today Information Technology in the Teaching of History Allan Martin,Lez Smart,David Yeomans,2013-11-26 Information technology offers powerful tools to facilitate and to assist learning across the whole curriculum the computer is certainly the most significant development in educational technology in the twentieth century History may be thought of as a staid and perhaps tradition bound subject more resistant to change than some areas Yet in history too information technology is making an impact This volume shows how information technology is currently contributing to and bringing about changes in the way history is taught and learned

The international selection of the contributions shows that these phenomena are not restricted to just one country The impact of information technology on history curricula is explored in depth in one section of the book whilst other sections focus on classroom activities and issues on the development of software for history and on the relevance of current information technology developments But the question which lies at the heart of it all remains that of how information technology can enhance the teacher s ability to offer situations in which learners can form and develop a real understanding of the nature of historical processes and the ways in which they can be studied
